Re: Administrator Evaluation Survey

The Administrator Evaluation Survey, which has been developed by the Faculty Senate and this office, is currently open. I would like to encourage all faculty to complete the survey before it closes on Friday, February 8. I value your feedback, as it is an important part of annual performance discussions with deans. While some faculty may have experienced a few bugs when the survey was first made available, I have been assured that these have been worked out, and the survey is running smoothly.

On behalf of my office and the Faculty Senate, thank you in advance for your time and consideration in completing the survey.
