**General Information**
Job Title: Operations Manager Landscape Maintenance  
Job Location: South Fort Worth  
Job Type: Full-Time

**Company Description**
We are searching for an important team member for a key position in our well established landscape company in the Fort Worth area. The position is for Landscape Manager. This manager will sell, design, and manage the landscape projects. Individual must have experience in landscape management.

We are a well-established family owned business in operation since 1985. Committed to being a leader in the lawn and landscape industry, our relationships with our customers have always been our number one focus. Serving over 500 properties in the Fort Worth area and the metroplex, we pride ourselves in maintaining exceptional customer service.

**Job Description**
Position is responsible for managing all landscape operations. Coordinates the procurement and scheduled use of labor, equipment and materials to ensure completion of work with budget, safety guidelines and quality standards.  
Ideal candidate would be a proven leader and possess excellent communication skills with other managers, crews, customers, and vendors. Must have high attention to detail and possess time-management skills.  
Candidate must have a strong knowledge of maintaining, renovating, and designing of both commercial and residential properties. Must be able to diagnose problems with diseases, insects, and drainage, and provide solutions. This manager will handle client concerns, coordinate the crews, do proposals, and upgrades, as well as contract new customers. Proposals would include lawn and landscape maintenance, new landscape installation, tree trimming and removal, and French drains, etc. Basic knowledge of sprinkler irrigation systems would be a plus.

**Experience and Skills Required**
Minimum of 5 years experience in landscape management/estimating/project management  
Sales experience  
Excellent leadership skills and the ability to train others  
Strong computer skills, including Microsoft Office, Landscape Design Software, Clip software a plus  
Strong critical thinking and conflict resolution skills  
Degree in Horticulture or comparable degree preferred  
Certified Applicator License, or the ability to complete necessary preparing and taking of the TDA exam.  
Valid driver’s license with good driving record  
Bilingual-Spanish is a plus.
