NURSERY PROGRAM STUDENT INTERNSHIP
North Willamette Research & Extension Center
Aurora, OR. | www.oregonstate.edu/dept/NWREC/

This internship provides an opportunity to be mentored by OSU faculty and staff gaining valuable experiences in two of Oregon's largest agricultural sectors: nursery and Christmas tree production.

Potential Research Projects Include:
- Evaluating efficacy of new sprayer technologies
- Improving water and nutrient management
- Plant production trials for new ornamental varieties
- Identifying safer alternatives to conventional pesticides
- Isolation of photosynthetic microorganisms from agricultural water and soils
- Determining new excellent Christmas tree varieties
- Plant disease identification and pathogen isolation
