GROWER INTERNSHIPS

Two 11 week Internships available for Summer 2019

Offered at Native Texas Nursery, a grower of native and adaptive landscape materials in Austin

Interns will rotate through jobs, and receive training and hands on experience in all aspects of grower operations including:

- Propagation
- Production Planning
- Pest management
- Sales
- Weed control
- Small product production
- Tree production
- Plant and tree maintenance
- Watering and water management
- Nursery business management
- Product shipping
- Regulatory compliance
- Marketing-Expo planning, design and attendance

Interns will receive $11.87 per hour. Being functionally proficient in Spanish is helpful but not required. These internships are not likely to result in an offer of a permanent position with Native Texas Nursery.
