

Department Building Flooded!

Flooded offices and collapsed ceilings.

Alumni and friends,

Late in December, a fourth floor water pipe burst, flooding almost the entire Psychological Sciences building. Offices, laboratories, and classrooms were rendered unusable, and all department operations have been moved to Drane Hall and elsewhere. Though currently in the process of renovation, no specific date has been set for our return. Faculty and staff may still be contacted by email, and student advising has moved to 135 Drane.

We wish to express our gratitude to the university administration, operations and other personnel from the Physical Plant, Information Technology, ServePro, and the many faculty, staff and students who have helped us get the spring semester off to an almost completely normal start. We will provide an update in the next newsletter towards the end of the spring semester.

Please contact me if you have any questions.

Bob (robert.morgan@ttu.edu)

Hot air tunnels brought in for drying out.
