"When I got on the plane that would take me to Spain I was filled with apprehension and concern about whether I was making the right decision to embark on the journey. As I got on the plane from Spain back to the US, I was filled with regret that I couldn't stay longer. Studying abroad was the most enriching, life changing experience I've ever had. I learned so much about the world, and more importantly learned a lot about myself. I will forever be grateful for the opportunity I had to go abroad." Will Mallow

"Studying abroad is truly one of the best experiences I've ever had. It takes a lot to go out of your comfort zone and explore the world away from home, but if you get the chance to do so, take it. I don't regret a second of the time I spent in Spain, except not staying longer." Yazmin Lopez
