

# Course Design Plan

<b>Course Code &amp; Number:</b> <b>Name:</b>		<b>Project Started:</b>	<b>Target Delivery:</b>
<b>Course Designer:</b>	<b>Email:</b>	<b>Phone:</b>	
<b>Lead Instructional Designer:</b>		<b>Program Coordinator/Chair:</b>	

**Course Description:** Copy and paste the description of your course as outlined in the [TTU Course Catalog](#). This description should not be modified without written consent from your program chair.

**Course Objectives:** In the space below, write your course objectives (these may be provided by your program/department). Course objectives should describe what students will be able to do after completing this course. For assistance with writing effective course objectives, please refer to these resources: [Bloom's Taxonomy](#) and [OPA Training video](#).

By the end of this course, students will be able to:

- 1.
- 2.
- 3.
- 4.
- 5.

**Assessment Strategies:** In the space below, describe how you plan to assess students' degree of achievement for each course objective. Consider the level of thinking stated in the course objective(s). At this stage of your course design, avoid thinking in terms of technology. For assistance with writing effective assessment strategies, please refer to the [Assessing Student Learning in Degree Program Handbook](#)
