

EXPLORE BUSINESS MAJORS

ENERGY COMMERCE

Degree: Bachelor of Business Administration in Energy Commerce

Energy commerce majors gain the knowledge required to make a valuable impact in the oil and gas industry upon first entering the workforce. Students learn relevant industry skills through hands-on active learning techniques supplemented by the knowledge of industry trends; the economic decisions businesses must make; laws and regulations pertaining to the energy industry; and the geopolitical importance of energy. Issue analysis, critical thinking, and problem solving are areas of emphasis in this major. Written and oral communication skills are essential for students pursuing this major.

MAJOR ADMISSION REQUIREMENTS

- Minimum 3.25 cumulative (TTU and Transfer) GPA
- Application
- Writing sample

Finance, Accounting, Global Supply Chain Management

Energy Commerce - Meet the Industry (Fall Semester)

Meet the Industry is an on-site recruiting event for students currently admitted and enrolled in the Energy Commerce program who are seeking internship opportunities. Various energy companies visit the Rawls College to give a presentation to these students to spark interest in their company. These companies then revisit campus to recruit their top candidates.

BEYOND THE CLASSROOM

STUDY ABROAD

Energy commerce offers two study abroad opportunities tailored specifically for energy commerce majors and certificate students.

- Global Energy Perspectives – taught in several European cities
- World Energy Project – service learning solar power installation in Peru
