This documentary follows the grassroots impact of the V-Day movement in five international communities while exposing the pervasive and cultural forms of violence that women experience all over the world. It's an alternately devastating and hopeful film that features Vagina Monologues playwright Eve Ensler, Rosario Dawson, Jane Fonda, Salma Hayek & Rosie Perez.

The Vagina Monologues performance piece

With humor and grace this piece celebrates women's sexuality and strength. Through this play and the liberation of this one word, countless women throughout the world have taken control of their bodies and their lives. The Vagina Monologues has given voice to experiences and feelings not previously exposed in public.

A Memory, A Monologue, A Rant and A Prayer performance piece

Performed by both members of the Tech and Lubbock communities, these writings are inspiring, funny, angry, heartfelt, tragic, and beautiful. But above all, together they create a true and profound portrait of how violence against women affects every one of us.
