Such payments shall be awarded only upon a determination that the activity involved significantly contributed to the academic development of the person and in the absence of such a determination, payments may not be awarded on the basis of the relative merit of that activity.

(b) Payments shall be made only to full-time faculty members of the rank of assistant professor or above; shall not in any case exceed $500; and shall not be granted more than once to any one faculty member. Payments shall not be made in reimbursement of any expenses or charges for any activity respecting which other funds may have been available for such reimbursement. Partial reimbursement from any source will disqualify an applicant.

(c) Payments will be authorized by majority vote of a three member committee appointed by the Faculty Senate, composed of Senators from three different colleges or departments of the University. Such committee shall function only one academic year and its members shall not be eligible for reappointment. The committee may not approve a payment from the fund to any of its members.

(d) The committee appointed pursuant to paragraph c, above, shall observe the following procedures:

(1) On September 1 and March 1 of the academic year, or the first business day thereafter, the committee will issue a University-wide call for applications for payments from the Fund with respect to professional or academic activity which was conducted or participated in during the
immediately preceding six calendar months. The committee in such call shall advise that to be considered the applications must be received within 30 days from the date of the call.

(2) The committee shall consider applications submitted in letter form which contain the following: (1) a detailed description of the duration, nature, scope and content of the professional or academic activity which is the subject of the claim; (2) a clear statement of the manner in which and the extent to which the activity contributed, either directly or indirectly, to the academic development of the applicant; (3) a certification that reimbursement was not available from any other sources; (4) reasonably complete documentary support of (1), (2), and (3), to include, where applicable, the curriculum vita of the activity, documents supporting the unavailability of other funds to provide reimbursement, and reasonable documentation of incurred expenses or charges, e.g., copies of airline, train or bus tickets, hotel or motel receipts, certification of the use of a privately owned vehicle, receipts of registration fees, etc.; and (5) a certification that all statements in the application and its attachments are true and complete to the best of the applicant's knowledge and belief.

(3) The committee shall consider all applications received from eligible persons and determine which of the reported activities fully meet the requirements set out in paragraph a, above, and are the most deserving within the constraints of available funds. The committee shall approve awards within 15 working days after the stated deadline for filing applications, and shall report its action promptly to the Faculty Senate, the custodian of the Faculty Development Fund, the Ex-Students Association, all applicants, and others as may be appropriate.

(4) The committee may issue additional procedural regulations respecting its functions as it desires, provided that they do not conflict in any respect with the foregoing requirements.
