Agenda item VI.

Whereas, Marla Erwin, through her cartoon strip Visitor's Pass, has both enlightened and amused the faculty of Texas Tech University,

Resolved, that the Texas Tech University Faculty Senate declare Marla Erwin an honorary member of the Texas Tech University faculty.
The Academic Programs Committee met on April 30, 1985 to discuss issues raised at the April 10, 1985 Faculty Senate meeting regarding the previous report of the Academic Programs Committee.

The following recommendations are made regarding these issues:

1. Student absence records should be incorporated in the student grade report.

2. There should be no changes in the grade report deadline after the official publication of the grade report deadlines.

3. The incorporation of a "dead day" or "dead days" in the University Calendar should be referred to the Student Association to result in a recommendation to the Academic Programs Committee in September/October of 1985.

4. The University Calendar in preparation should be submitted to the Academic Programs Committee for review.

5. There should be a deadline for student registration. No exceptions should be made to this deadline.

Recommendations of Committee D to the Faculty Senate

May 2, 1985

Re: Advising, Scheduling and Registering of Students

Since all faculty have had an opportunity to work under the computerized registration since the fall of 1983, Committee D recommends:

(1) That the faculty be surveyed concerning the pros and cons of the registration system in the fall of 1985.

(2) That such a survey attempt to seek suggestions to improve the advising of students, the scheduling of classes and the registering of students.

(3) That this survey be tallied, summarized and the results presented to the Faculty Senate and forwarded to the appropriate administrative office.

(4) That the survey be constructed by Committee D and administered through the Office of Vice President for Academic Affairs and Research.
2. A probationary faculty member, who because of insufficient achievement or other justifiable reasons, has the likely prospect of being given a terminal contract prior to the end of the usual probationary period, should be given early, specific notice of that fact. It is advisable for the administrator in charge to develop a plan of improvement which, if achieved, would reasonably result in renewal of the continuing contract for that faculty member. Such notice and plan in writing should be given to the faculty member.

3. It is desirable for an administrator and a faculty member to prepare and to retain, for personal use, memoranda of conversations concerning the latter's status.

MOVED that the Faculty Senate endorse the committee's three recommendations and forward them to the President of Texas Tech University with its recommendations that they be implemented and that it send a copy to the Vice President for Academic Affairs and Research for his information.
THE FACULTY SENATE TENURE AND PRIVILEGE COMMITTEE

YEAR-END REPORT

The Faculty Senate Tenure and Privilege Committee was created by the Faculty Senate in the fall of 1984. Its description and charge are as follows:

The Faculty Senate Tenure and Privilege Committee will be a standing committee of the Faculty Senate. It will be composed of five tenured members, drawn from the faculty at large, all of whom are Associate Professors or Professors. One member shall be elected Chairperson by the Committee.

CHARGE:

The Faculty Senate Tenure and Privilege Committee shall be available to assist the Faculty Senate, faculty, and administration by performing the following duties:

1. Receive complaints from any Texas Tech faculty member on alleged violations of academic freedom, academic due process, and tenure procedures;
2. Investigate and document such complaints and
3. Take such action as is considered appropriate.

All information received by the Committee will be held in confidence and released only by, or by permission of, the complainant.

SELECTION OF MEMBERS:

Members shall be elected by the Faculty Senate upon nomination by its Committee on Committees.

TERMS OF MEMBERSHIP:

Terms will be two-year staggered terms, with two members going off in odd-numbered years and three going off in even numbered years.

The following members were elected by the Senate in January: Joe A. Adamcik (Chemistry), Jacquelin Collins (History), James W. Graves (Agricultural Economics), Nina L. Ronshausen (Education). In April, the Senate elected a fifth member, Judith L. Fischer (Home Economics), and an alternate Wayne T. Ford (Mathematics). Collins was elected chairperson.

As a result of its activity this year, the Committee makes the following recommendations, which it would like to see considered and implemented by the faculty and administration of Texas Tech University:

1. All new faculty members should be involved in an orientation program, to include expectations of probationary faculty, established procedures of the college to which they are appointed, and the meaning of continuing contracts.
Texas Tech University

Faculty Senate ad hoc Campus and Community Relations Committee

Year-End Report, April 30, 1985

This committee was created by the Faculty Senate at its meeting on November 14, 1984. It was given the following charge:

to keep the faculty and community informed about important University issues. Among its duties shall be providing speakers for and arranging speaking engagements with civic, professional, and trade organizations with interest in occurrences at Texas Tech.

The following people were appointed to the committee: Jacquelin Collins (History), Chair, Gary S. Elbow (Geography), Judith L. Fischer (Home & Family Life), William E. Sparkman (Education), Jerry D. Stockton (Agricultural Education), and Ashton G. Thornhill (Mass Communications).

The committee met several times during December through February. Its relatively modest achievements included the following: (1) Negotiations with Bee Zeeck, Director of University News & Publications, regarding Insight's coverage of Faculty Senate meetings. This led to the Faculty Senate's approval that its meetings be reported in Insight. In order that Insight's report be more timely, the publication schedule of Insight was altered. (2) Negotiations between Bee Zeeck and the Senate regarding the revival of the University Speakers' Bureau. The Senate approved this and the University News and Publications is going forward with the project. A brochure listing the 24 speakers who have volunteered will be printed and distributed in the near future. There are plans for a second, hopefully expanded, brochure next year. (3) Negotiations with University News and Publications regarding the publishing in Insight of the Senate's response to the Board of Regents statement of October 18, 1984, proved to be fruitless, certainly in part due to the Senate's delay in getting its initial request to University News and Publications. The Senate's response was published in the February issue of Texas Tech Academe by the Texas Tech Chapter of the AAUP.

A general conclusion of the committee's deliberations was that the faculty of Texas Tech should strive to be a more effective agent in presenting the University to the public. In this way, it is hoped, the public will come better to understand the value of what professors do and to appreciate the need for academic freedom and tenure. The committee lamented the failure of the University administration to take the lead in this task.
