Delay of Finalization of Master Plan Resolution

Senator Held proposed a resolution:

The Faculty Senate requests a delay in the finalization of the master plan and submission to the Board of Regents until all academic units are satisfied that they have had adequate input. This process of consultation should be continued, if necessary, through the early fall semester of 1997.

Senator Mann seconded the motion. The resolution passed unanimously. Chancellor Motford indicated that the presentation of the MP to the Board of Regents was tentatively scheduled for the August Regents meeting, but some delay could be accommodated if needed.
