

Mission Statement of the Faculty Senate Campus Climate Committee

The mission of the Faculty Senate Campus Climate Committee is to study, and bring before the Senate, matters related to bias and discrimination based on gender, race, national origin, religion, age, disability, protected veteran status, genetic information, gender identity and expression, sexual orientation and preference, or other protected categories, classes, or characteristics. The Committee will also work to remove barriers to reporting of wider concerns ranging from bullying to unequal treatment while advancing inclusiveness in a respectful professional environment for *all* faculty.
