Project Support

The TLPDC has noticed that some SL courses could benefit from monetary support to enhance the service experience in courses that require extra supplies to fully execute the SL project. While our funds are not unlimited, we would love to help you if we are able. Also, know that the more time that you can allow between submitting the applications and your need for the supplies would be helpful as it can sometimes take additional time for purchasing/procurement. The applications can be submitted via e-mail attachment to Erika Brooks-Hurst, Service Learning Coordinator (Erika.d.brooks@ttu.edu).

Name:
