

Department of Theatre and Dance  
Policy on Participation of Students  
On Academic Probation

*Adopted 9, November 2004*

Any student on academic probation may choose not to participate in departmental productions activities for the initial long semester he/she is on probation regardless of program and/or scholarship requirements. This however, will not excuse them from lab requirements that are part of an academic course. If the student remains on academic probation for a second consecutive long semester then he/she will not be allowed to participate in any departmental production activities until the student achieves good academic standing.
