## *Your Response to an Active Shooter*

**GET OUT! (AVOID)**

**HIDE OUT! (DENY)**

**TAKE OUT! (DEFEND)**

**Get Out-** Speed and distance is the key. Run as fast as you can to get to somewhere safe and/or conceal yourself. Get behind something that will stop bullets.

**Hide Out-** Get out of view and shut and barricade the door. Use everything available to barricade a room. Then make it look like no one is home, no lights and no noise.

**Take Out-** Defend yourself. Set up for the counter attack and fight for your life. Remember, we want to stop the killing!
