

### **To the Student:**

After your registration is complete and your proctor has been approved, you may take the Credit by Examination for the second semester of Social Studies, Grade 7: Texas History.

### **WHAT TO BRING**

- your completed **PowerPoint museum presentation** on a non-returnable CD (see instructions beginning on page 2)
- several sheets of notebook paper

### **ABOUT THE EXAM**

The examination consists of two parts: a PowerPoint presentation, which you will prepare before taking the exam, and the exam itself. The exam has 103 questions. You will have three hours to complete the exam. The exam will include an answer sheet for most questions, but you should bring several sheets of paper to answer the graph, timeline, and short essay questions.

The examination is based on the Texas Essential Knowledge and Skills (TEKS) for this subject. The full list of TEKS is included at the end of this document (it is also available online at the Texas Education Agency website, <http://www.tea.state.tx.us/>). The TEKS outline specific topics covered in the exam, as well as more general areas of knowledge and levels of critical thinking. Use the TEKS to focus your study in preparation for the exam. TEKS covered in this semester are indicated by a checkmark; the exam will focus on the checkmarked TEKS, but may touch on any of the full list.

Since questions are not taken from any one source, you can prepare by reviewing any of the state-adopted textbooks that are used at your school. The textbook used with our SOCS 7B course is *Texas and Texans* by Glencoe Division, Macmillian/McGraw-Hill (2003).

Good luck on your examination!

## **SOCS 7B Exam Prerequisite PowerPoint Museum Project**

### **Introduction**

In the past 200 years, the land that we now call Texas has encountered amazing changes—changes that have reflected the world around. From the earliest Native American societies, to the foundation of NASA; from European colonization to the Texas Republic, Texas has “seen it all”. Unfortunately, most of the world has never experienced Texas, and never will—hence, the value of museums. As a historian who recognizes the need to share this history with the rest of the world, you will create such a museum. Choose an era of fascinating Texas history. Upon completion of your research, you will create a “Power Point Museum” presentation of your discoveries.

### **Requirements**

1. Written summary of the research process used to create this museum (presented as a “prologue” slide.)
2. Original name for your museum (should be relevant to the topic)
3. Use various sources (primary and secondary): books, periodicals, newspaper, Internet, interviews, etc.
4. All findings should be properly documented according to MLA standard.
5. Create 8-12 PowerPoint slides using animation, background, etc. (sound is optional).  
Minimum requirements for slides are as follows:
  - 1 artifact—objects relevant to the historical event
  - 6 pictures—adequately depicting significant elements
  - 1 location/map—demonstrate the geography and demographics
  - 1 articles/advertisements—directly from the relevant time period
  - 3 dates/events—significant dates that affected the world
  - 2 books—books where your audience might find additional information
  - 1 biased (opinionated) article (possibly an interview with a VIP) relevant to the historical period
6. Create a bibliography slide.
7. **Present the project on a non-returnable CD or DVD.**

### **Helpful Hints and Guidelines (to ensure a quality presentation):**

- Do not rely on only 1-2 sources; discern between accurate sources and faulty sources.
- Practice “word economy” in each slide. Textual information should be informative, but to the point.
- Slides should be eye-catching, but always relevant.
- Social studies information is best presented sequentially—choose a suitable organizational style: chronological or thematic.
- Allow opportunity to express differing views, opinions, cause/effect, comparing/contrasting, predictions, and conclusions.
- Choose photos/pictures/graphics that are clear and strong representations of the text.
- Use sound, whether voice recordings or background, which is tastefully interjected into the presentation in the manner of a museum.

**Texas Essential Knowledge and Skills**  
**SOCS 7B – Social Studies, Grade 7: Texas History, First Semester**

TTU: SOCS 7B, Social Studies, Grade 7: Texas History, First Semester, CBE	
TEKS: §113.19. Social Studies, Grade 7, Beginning with School Year 2011-2012.	
TEKS Covered	TEKS Requirement (Grade 7)
	<b>(a) Introduction.</b>
	(1) In Grade 7, students study the history of Texas from early times to the present. Content is presented with more depth and breadth than in Grade 4. Students examine the full scope of Texas history, including Natural Texas and its People; Age of Contact; Spanish Colonial; Mexican National; Revolution and Republic; Early Statehood; Texas in the Civil War and Reconstruction; Cotton, Cattle, and Railroads; Age of Oil; Texas in the Great Depression and World War II; Civil Rights and Conservatism; and Contemporary Texas eras. The focus in each era is on key individuals, events, and issues and their impact. Students identify regions of Texas and the distribution of population within and among the regions and explain the factors that caused Texas to change from an agrarian to an urban society. Students describe the structure and functions of municipal, county, and state governments, explain the influence of the U.S. Constitution on the Texas Constitution, and examine the rights and responsibilities of Texas citizens. Students use primary and secondary sources to examine the rich and diverse cultural background of Texas as they identify the different racial and ethnic groups that settled in Texas to build a republic and then a state. Students analyze the impact of scientific discoveries and technological innovations on the development of Texas in various industries such as agricultural, energy, medical, computer, and aerospace. Students use primary and secondary sources to acquire information about Texas.
	(2) To support the teaching of the essential knowledge and skills, the use of a variety of rich primary and secondary source material such as biographies, autobiographies, novels, speeches, letters, diaries, poetry, songs, and images is encouraged. Motivating resources are available from museums, historical sites, presidential libraries, and local and state preservation societies.
	(3) The eight strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes. Skills listed in the social studies skills strand in subsection (b) of this section should be incorporated into the teaching of all essential knowledge and skills for social studies. A greater depth of understanding of complex content material can be attained when integrated social studies content from the various disciplines and critical-thinking skills are taught together. Statements that contain the word "including" reference content that must be mastered, while those containing the phrase "such as" are intended as possible illustrative examples.
	(4) Students identify the role of the U.S. free enterprise system within the parameters of this course and understand that this system may also be referenced as capitalism or the free market system.
	(5) Throughout social studies in Kindergarten-Grade 12, students build a foundation in history; geography; economics; government; citizenship; culture; science, technology, and society; and social studies skills. The content, as appropriate for the grade level or course, enables students to understand the importance of patriotism, function in a free enterprise society, and appreciate the basic democratic values of our state and nation as referenced in the Texas Education Code (TEC), §28.002(h).
	(6) Students understand that a constitutional republic is a representative form of government whose representatives derive their authority from the consent of the governed, serve for an established tenure, and are sworn to uphold the constitution.
	(7) State and federal laws mandate a variety of celebrations and observances, including Celebrate Freedom Week.
	(A) Each social studies class shall include, during Celebrate Freedom Week as provided under the TEC, §29.907, or during another full school week as determined by the board of trustees of a school district, appropriate instruction concerning the intent, meaning, and importance of the Declaration of Independence and the U.S. Constitution, including the Bill of Rights, in their historical contexts. The study of the Declaration of Independence must include the study of the relationship of the ideas expressed in that document to subsequent American history, including the relationship of its ideas to the rich diversity of our people as a nation of immigrants, the American Revolution, the formulation of the U.S. Constitution, and the abolitionist movement, which led to the Emancipation Proclamation and the women's suffrage movement.
	(B) Each school district shall require that, during Celebrate Freedom Week or other week of instruction prescribed under subparagraph (A) of this paragraph, students in Grades 3-12 study and recite the following text: "We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness--That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed."
	(8) Students identify and discuss how the actions of U.S. citizens and the local, state, and federal governments have either met or failed to meet the ideals espoused in the founding documents.
	<b>(b) Knowledge and skills.</b>

	<b>(1) History.</b> The student understands traditional historical points of reference in Texas history. The student is expected to:

	<b>(20) Science, technology, and society.</b> The student understands the impact of scientific discoveries and technological innovations on the political, economic, and social development of Texas. The student is expected to:
✓	(A) compare types and uses of technology, past and present;
✓	(B) identify Texas leaders in science and technology such as Walter Cunningham, Michael DeBakey, Denton Cooley, Benjy Brooks, Michael Dell, and Howard Hughes Sr.;
✓	(C) analyze the effects of various scientific discoveries and technological innovations on the development of Texas such as advancements in the agricultural, energy, medical, computer, and aerospace industries;
✓	(D) evaluate the effects of scientific discoveries and technological innovations on the use of resources such as fossil fuels, water, and land; and
✓	(E) analyze how scientific discoveries and technological innovations have resulted in an interdependence among Texas, the United States, and the world.
	<b>(21) Social studies skills.</b> The student applies critical-thinking skills to organize and use information acquired through established research methodologies from a variety of valid sources, including electronic technology. The student is expected to:
✓	(A) differentiate between, locate, and use valid primary and secondary sources such as computer software, databases, media and news services, biographies, interviews, and artifacts to acquire information about Texas;
✓	(B) analyze information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions;
✓	(C) organize and interpret information from outlines, reports, databases, and visuals, including graphs, charts, timelines, and maps;
✓	(D) identify points of view from the historical context surrounding an event and the frame of reference that influenced the participants;
✓	(E) support a point of view on a social studies issue or event;
✓	(F) identify bias in written, oral, and visual material;
✓	(G) evaluate the validity of a source based on language, corroboration with other sources, and information about the author; and
✓	(H) use appropriate mathematical skills to interpret social studies information such as maps and graphs.
	<b>(22) Social studies skills.</b> The student communicates in written, oral, and visual forms. The student is expected to:
✓	(A) use social studies terminology correctly;
✓	(B) use standard grammar, spelling, sentence structure, punctuation, and proper citation of sources;
✓	(C) transfer information from one medium to another, including written to visual and statistical to written or visual, using computer software as appropriate; and
✓	(D) create written, oral, and visual presentations of social studies information.
	<b>(23) Social studies skills.</b> The student uses problem-solving and decision-making skills, working independently and with others, in a variety of settings. The student is expected to:
✓	(A) use a problem-solving process to identify a problem, gather information, list and consider options, consider advantages and disadvantages, choose and implement a solution, and evaluate the effectiveness of the solution; and
✓	(B) use a decision-making process to identify a situation that requires a decision, gather information, identify options, predict consequences, and take action to implement a decision.
