TTUISD Full-time Student, Cody Berry sits atop a bronze sculpture of the Texas Tech official class ring at the Merket Alumni Center
No matter where “here” is, a quality kindergarten through twelfth grade education is possible through Texas Tech University Independent School District. If you are a home school student or the parent of a home school student looking for flexible educational solutions, we’re here to help.

ACCREDITED, ACCESSIBLE, AND AFFORDABLE

Texas Tech University Independent School District provides a comprehensive kindergarten through twelfth grade education at a distance. Accredited by the Texas Education Agency (TEA), our elementary, middle, and high schools provide a well-rounded curriculum written to the Texas Essential Knowledge and Skills (TEKS). If you are homeschooling or are unable to attend a public or private school and need a full-time distance learning option, consider TTUISD. A helpful, knowledgeable staff will guide you every step of the way.

Comprehensive Curriculum

TTUISD has a comprehensive curriculum – coursework is offered in all required subject areas from kindergarten through high school. We offer all courses required for a Texas high school diploma, as well as a full catalog of elementary and middle school courses.

Individual courses and Credit by Exams (CBEs) allow students to select what they need to meet state requirements. Our CBEs allow students to test out of subjects for placement credit or to accelerate graduation. Texas Tech University Independent School District is a turnkey education solution for families seeking a full-time, accredited, kindergarten through twelfth grade distance learning program.

All of our education solutions come with the knowledge and expertise of Texas-certified teachers and a support staff to assist in a student’s education at a distance.

Courses

- Choose from over 116 rigorous, self-paced online courses.
- Courses are available for kindergarten through twelfth grade, including Foreign Languages.

Credit by Examinations

- CBEs are designed to evaluate a student’s mastery of a given subject or discipline relative to the state standards.
- CBEs are available for most kindergarten through twelfth grade courses, including Foreign Languages.

Looking for flexible education solutions?

Take an individual course, test out of a subject with a CBE, or enroll in Texas Tech University Independent School District’s full-time diploma program.

Communication among students, teachers, and staff members is always a priority. Our offerings are accessible, comprehensive, and self-paced. Our experienced staff is ready to guide students and parents through the process.

- Courses are six months in length and extensions can be requested if additional time is required.

Nationally Ranked and Best in Texas

In 2016 Best College Reviews ranked TTUISD fourth in the nation for online high school programs and was the highest ranked program in Texas.
Our Schools

Texas Tech University Elementary School

Curriculum Design

Kindergarten through third grade courses are designed primarily for parents or tutors working with elementary students in a home environment. Our comprehensive, easy-to-follow lesson plans are written by experienced, Texas-certified classroom teachers and do not require a teaching background to use. The comprehensive course guides include clearly written daily lessons, worksheets, answer keys, and tests to accompany the lessons. Lessons are written to appeal to students with different learning styles and include application activities that emphasize higher-level thinking skills. Elementary students are introduced to online coursework gradually, beginning with online resources that enhance the learning environment and ending with full online coursework.

The elementary curriculum focuses on four disciplines: language arts, science, social studies, and math. Each course consists of two semesters. Each semester course offers 75 days of instruction and may be purchased as a grade-level set or as a combination of grade-level courses to accommodate the needs of multi-leveled students. Required textbooks are listed in the individual course descriptions on our website.

Texas Tech University Middle School

Each middle school course is divided into two semesters, with an average of nine lessons and one final examination per semester. Students will complete their lessons in our Online Learning Management System and a pre-approved proctor administers the final examination. Students have up to six months to complete each course.

Texas Tech University High School

TTUISD High School students must satisfactorily complete 26 academic credits (Foundation Plus Endorsement Plan) in order to earn a Texas high school diploma. Students must also pass the STAAR End of Course Exams in certain subjects. A student must be enrolled in the TTUISD High School Diploma Program and successfully complete the last 2.5 course credits through TTUISD High School before they are eligible to receive a diploma. The last 2.5 credits prior to graduation must be full courses and cannot be CBEs.

Begin Learning with TTUISD
