Nationally Ranked and Best in Texas
In 2016 Best College Reviews ranked TTUISD fourth in the nation for online high school programs and was the highest ranked program in Texas.
Do you know a student who is trying to get ahead and whose busy schedule will not allow time to take a desired course? Or perhaps there is a need to recover a credit to graduate on time.

Through TTUISD, students can supplement their current school curriculum and stay on track.

TTUISD offers two options for supplementing current school or homeschool curriculum. Students can choose courses and/or Credit by Exams (CBEs) to:

- Graduate on time or early
- Make up failed credits (credit recovery)
- Earn credits during the summer
- Take courses not offered at other schools
- Take courses that don't fit in their schedule
- Test out of a subject for acceleration purposes (CBE)

**Courses**

TTUISD offers more than 150 accredited online and print courses. Students can enroll in courses to help supplement school or homeschool curriculum to earn elementary, middle or high school credit. Our courses are self-paced and there are no enrollment deadlines.

**Credit by Exams**

Students who need an accelerated option can choose to test out of a subject with over 150 print-based Credit by Exams (CBEs). TTUISD’s CBEs are exams designed to evaluate a student’s mastery of a given subject or discipline relative to Texas standards.

Upon passing a CBE*, a student may be given credit by their school/school district for completing the associated course.

*Passing standards are set by the individual schools/school districts

**Testing Solutions**

Credit by Exams (CBEs) available through TTUISD are aligned with Texas Essential Knowledge and Skills (TEKS). Texas schools, districts, regional service centers and other agencies can order exams and pay by purchase order or invoice from Texas Tech University.

**Counselor Portal**

Institutions that utilize TTUISD testing solutions will have access to an online portal where their progress can be evaluated 24/7. This portal can be viewed at www.courseportal.uc.ttu.edu/ttuisd-portal

**Bridging the Gap**

Some institutions such as rural school districts can find it difficult to find and keep staff to meet certification guidelines and teach required courses needed for graduation. TTUISD can give these institutions the flexibility they need in scheduling for their student’s needs, thus providing a way to bridge the gaps left by ever-changing district staffing abilities and graduation requirements.

“*We chose Texas Tech ISD not only because it is accredited but also for the rigor of study, the support we get from their teachers and administrators, and the affordability that fits our demands.*”

Dick Van Hoose - Superintendent, Loop ISD
Gaines County, Texas
Dropout Prevention
Supplemental solutions offered by TTUISD are options that high schools and districts can recommend to at-risk students. Students who transfer into TTUISD will not count against the school or district’s dropout rate.

Credit Recovery
For various reasons, students may find themselves in need of a second chance to get their education back on schedule. Students who have failed a course can enroll in one of over 150 TTUISD self-paced courses to recover credit and get back on track.

Customized Education Solutions
We offer customized solutions to meet many educational needs. TTUISD works with many clients including public and private schools and other educational organizations. Contact ttisd@ttu.edu for more information.

“TTUISD offers schools, parents, and students an ideal curriculum to fill in the needs for countless circumstances that may arise. As a public school administrator for 24 years, I find TTUISD to be the answer to many situations that, for whatever reason, do not fit into the regular public school setting. Whether the situation calls for an individual student to take a class they need that is not offered that semester; the instruction of an entire class of World Geography because the district lost the instructor; or a credit recovery situation where a student needs to make up one or more courses to graduate with their class, TTUISD can help the local school district serve their students.”

Dr. Jim Taliaferro - Superintendent, TTUISD

Visit https://enroll.ttuisd.ttu.edu/catalog/ for a complete listing by grade level.

Before enrolling in a course or CBE, students at public, private or charter schools should check with a school counselor or principal to ensure the credit from TTUISD will be accepted. Failure to receive approval could cause enrollment delays and may result in the school not granting credit.

TTUISD continues to add courses throughout the year. Please check our website for course offerings. Textbook and materials are additional costs. Find the most up-to-date information on our website or in the online version of the catalog.
