Why Study Chemical Engineering?

The profession of chemical engineering combines the principles of physical and chemical sciences with the discipline of engineering to solve modern technological problems and be of effective service to society. The chemical engineer is largely responsible for the continual development of new processes and new products that have a direct impact on improving the quality of life and the environment. To this end, the department provides a broad-based program with individual, academic, and professional counseling.

The chemical engineering curriculum is sufficiently general that upon completion the student is prepared for a career in any of the process industries that involve chemical transformations. Employment opportunities cover a wide spectrum that includes, among others, petroleum, plastics production, basic chemicals, petrochemicals, pharmaceuticals, metals, textiles, semiconductors, and various biomedical and biological specialties. Many chemical engineers also are directly involved in the design of systems to minimize pollution of the environment or are active with governmental regulatory agencies that set environmental standards.

Why Study in the College of Engineering?

In the Edward E. Whitacre Jr. College of Engineering, we are building a "Community of Scholars." More than just a group of individual students, faculty, staff, and alumni, we are working together to engineer a better world now and for the future.

Blending math, science, and creative thinking, our engineering students and alumni design solutions that transform the world. From building cities to advancing healthcare, from saving the environment to expanding humanity's knowledge of the cosmos, Texas Tech engineers are making their mark on society.

A Wealth of Opportunities Await

- **Undergraduate Research**
  The Research Internships in Science and Engineering (RISE) offers unique opportunities for undergraduate students to work with research groups at universities and top research institutions across Germany for a period of two to three months during the summer. RISE interns are matched with doctoral students, whom they assist and who serve as their mentors. The working language will be English. All scholarship holders receive stipends from the DAAD to help cover living expenses, while partner universities and research institutes provide housing assistance.

- **Study Abroad**
  In order to prepare our graduates for the ever-changing global landscape, all undergraduates (starting with the Fall Class of 2013) are required to have an international experience. As a student, you have a once-in-a-lifetime chance to study abroad and experience the thrill of exploring another country and culture. As a future engineer, you will be part of an ever-increasing international profession where employers seek applicants who possess an awareness of global business practices, cross-cultural communication skills, language fluency, and the ability to thrive in any environment. For more information, visit the website: [https://ttu-sa.terradotta.com/](https://ttu-sa.terradotta.com/)

- **Graduate Education**
  Master of Science in Chemical Engineering is available for students who want to extend their knowledge in the field. Students can choose from either a thesis or non-thesis option.

- **Professional Career**
  The Whitacre College of Engineering has a long tradition of providing students with an excellent education. In fact, the Wall Street Journal has named Texas Tech among the top 25 engineering schools in the nation. However, your studies are only part of the equation. The best thing you can do to get a leg up on other graduates in the job market is to have some experience to go with your degree. Students both current and alumni have access to the engineering Job Grid in order for students to post resumes and search for co-ops, internships, and full-time positions. We also offer semi-annual job fairs.

- **Scholarship**
  Named a top value by Kiplinger in recent years, TTU offers a quality education at a fair price. Tuition and housing increases are well below others in public higher education. For scholarship information, visit the website: [www.scholarships.ttu.edu](http://www.scholarships.ttu.edu)

- **Student Organizations**
  For all majors in the College of Engineering, there is a student organization for you! Organizations allow students to meet with their fellow students outside the classroom as well with faculty members. Our organizations hold meetings with industry speakers, host monthly technical series on the latest industry research, and more! Texas Common Course Number System (TCCNS)
The Texas Common Course Numbering System (TCCNS) aids students in the transfer of general academic courses between Texas public colleges and universities throughout the state. Course recommendations in this transfer guide are expressed in TCCNS designations.

Applying Transfer Hours to a Four-year Degree

- The Transfer Evaluation Office in the Office of the Registrar at Texas Tech determines which courses taken at another institution may be accepted for credit.

- A maximum of 66 semester credit hours from two-year institutions may be applied toward the baccalaureate degree at four-year institutions. Although, all credit hours presented on the sending institution's transcripts will be evaluated and equivalent college level courses posted to the student's academic record.

- The academic associate dean of the Texas Tech college in which a student enrolls has authority for determining which courses will be applied toward the specific degree program chosen.

- Students must earn a grade of C or better for all courses fulfilling requirements in majors, minors, or specialization's.

For more information on transfer course equivalencies, access the Texas Tech Transfer Equivalency Guidebooks: https://www.depts.ttu.edu/registrar/private/transfer/

Steps to Apply:

- Admission Requirements
  Application from applytexas.org
  $60 application fee or fee waiver (student must provide information supporting fee waiver; for more specifics on what qualifies for waiver, visit the admissions site here: http://www.admissions.ttu.edu/index.php/application-fee/)

  Official college transcripts from ALL previous colleges attended*

  *Student must submit an official high school and ACT/SAT scores if you have completed less than 12 transferrable hours

  Transcripts may be sent by mail to:
  Undergraduate Admissions
  Box 45005
  Lubbock TX 79409

  Electronic transcripts may be sent directly to TTU Admissions via document exchange from the sending institution (contact institution for more details)

Transfer Admissions Counselors:

Zach Fisher — West Texas Transfer Admissions Counselor.
Office Location:
Undergraduate Admissions, West Hall
Lubbock, TX
Phone: 806.834.2104
Email: zach.fisher@ttu.edu

Maryellen Baeza — Manager of Transfer Recruitment
Office Location:
Undergraduate Admissions, West Hall
Lubbock, TX
Phone: 806.742.1480
Email: Maryellen.baeza@ttu.edu

Assured Admissions:

If you present the required combination of transferable hours and GPA (as described below), you will meet assured admissions. GPA is cumulative for all transferable coursework from all schools attended. Courses taken for grade replacement are used for GPA calculation only if the same course is repeated at the same institution where it was originally taken.

<tbody>
<tr>
<td>12-23 hours</td>
<td>2.50 cumulative</td>
</tr>
<tr>
<td>24 hours or more</td>
<td>2.25 cumulative</td>
</tr>
</tbody>
</table>

Admission Review

If you do not meet assured admission requirements but have at least a 2.00 cumulative GPA, an admissions committee will evaluate your potential based on other criteria:

- Academics — Types of courses taken and pattern of progress, as well as coursework taken leading toward a major
- Student-submitted essay — Explanation of the decision to transfer to Texas Tech, reasons for past academic performance and plans to ensure future academic success
- Extracurricular activities/employment information — Leadership and work experience, special talents or awards, or any other information relevant to the admission decision

For more information, visit the admissions website: http://www.admissions.ttu.edu/
