Why Study Music?
The performance field of specialization includes concentrations in piano (pedagogy is available), organ, voice, brass, woodwind, percussion, and stringed instrument. Fields of specialization are also offered in both composition and theory. The Bachelor of Music (leading toward teacher certification) field of specialization replaces that formerly known as the Bachelor of Music Education.

Specialization in music leading toward teacher certification prepares students to teach choral, instrumental, and general classroom music in kindergarten, elementary, middle, junior high, and senior high schools. This program leads toward an all-level teaching certificate in the state of Texas.
