*Office of the Vice President for Research
March 8, 2016*

Survey Characteristics

- Goal: Identify barriers to submitting more external funding proposals
- Faculty focus groups held, which helped to identify 18 key factors associated with grant proposal submissions
- Survey approved by IRB
- Survey sent to 1249 people
- Total of 279 surveys complete enough to use in data analyses

Factor Severity Ratings

Factors and Definitions

Factor	Definition
Balancing the time for teaching, research, and service	finding time to work on grant proposals
Building collaborations	<i>organizing research teams, interdisciplinary research, networking, searchable databases of experts within the TTU System</i>
Cost sharing	<i>policy and process for university-provided monetary support used as a match for sponsored projects</i>
Department-level or college-level grant administration support	<i>accounting support, grant management, equipment bids, purchasing, financial and award close-out reports, p-card use and reconciliation, etc.</i>
Different expectations between faculty and any office staff in the fulfillment of grant-associated tasks including finding, submitting, and administrating grants	<i>working on a common grant-associated task from different perspectives and interpretations of policy and procedure</i>
Facilities and administrative (F&A) costs	<i>returns, reductions, waivers, etc.</i>
Faculty morale	enthusiasm, perceived value of faculty research activities, confidence, shared vision
Financial support to start or continue research	seed funds, pilot data, start-up funding, bridge funding, travel to funding agencies, etc.
Finding opportunities and responding by the deadline	<i>learning about relevant requests for proposals, availability of funds in discipline, searchable databases, having enough time to respond to solicitation</i>
Incentives	motivation for and benefits of grant submissions and awards
Infrastructure & student support	availability and quality of university research facilities and services, space and stipends for graduate students and postdocs, graduate student support services
Institutional Review Board (IRB)	<i>policies, procedures, training associated with the protection of human research participants</i>
Non-financial compliance	<i>policies, procedures, training, tools for responsible conduct of research, financial disclosures, safety, effort certification, export control, animal care services/IACUC, etc. This excludes Institutional Review Board</i>
Post-Award grant administration	<i>Accounting Services (formerly SPAR and ORA), award set up: translation of approved budget into institutional account codes and Banner, research accounts, moving money between budget pools, billing and financial reporting, audit oversight, award closeout, etc.</i>
Pre-Award grant administration	<i>Office of Research Services (ORS), developing and preparing budgets and agreements, proposal routing and review through Cayuse, meeting solicitation requirements, proposal approval and submission, award negotiation and acceptance, etc.</i>
Proposal development support	<i>assistance with writing and submitting proposals, for example, grant specialists and editors, critiques, understanding requests for proposals, templates, writing ancillary documents, etc.</i>
Training and mentorship	<i>development of skills and experience in areas such as idea development, grantsmanship, proposal development and submission process, budgeting and compliance, award administration, etc.</i>
University-level project administration support	<i>grant-related tasks not directly related to the research such as paperwork/electronic forms, hiring and training personnel, project and budget management, submitting agency reports, etc.</i>

Severity Ratings of Factors

- Participants rated the extent to which each of the factors is a barrier to their submission of more external grant proposals.
- 0 = not a barrier, 100 = severe barrier

Initial Steps to Address Barriers

Internal Seed Programs

- President's Collaborative Research Initiative
 - Supports collaboration and expands funded interdisciplinary federal research across TTU, TTUHSC and TTUHSC El Paso
- Seed Grant Solicitation for Interdisciplinary Research
 - Supports interdisciplinary research and scholarly activities in addition to attracting federal funding that would support collaborations that include the arts, education, humanities and/or social sciences
- Scholarship Catalyst Program
 - Supports faculty research, scholarship and creative output in the arts, humanities and social sciences
- Transdisciplinary Research Academy
 - Supports faculty with diverse interests to generate new research with potential for external funding
- International Research/Development Seed Grants
 - Intended to enhance international research and development activities at Texas Tech University and the Health Sciences Center.

Proposal Development & Support Programs

- Research Development Team
 - Large-scale, center-like proposal development; new faculty assistance; swift critique and appraisal of declined grant proposals; grant editors
- Proposal Support Program
 - Provides funds to support collection of pilot data, travel to a funding agency and required agency matching funds (with department/college matching)
- Proposal Review Program
 - Provides feedback on grant proposals to improve quality before submission to agency
- Proposal Development Workshop Series
 - Provides tailored instruction on writing grant proposals
- Grant Facilitators Program
 - Grant proposal writers for colleges that would work with faculty on budget development and proposal writing to facilitate greater proposal submissions (with college matching funds)

Faculty Support & Recognition

- Support for 31 non-tenure track research professors
- Increased support for graduate students (\$2 million of temporary funds made permanent; \$2 million in new funds)
- Open Access Publication Initiative
 - OVPR provides funds to defray costs of author publication fees
- Targeted External Faculty Awards Program
 - Increases recognition of distinguished faculty, and national and international visibility of TTU
- Faculty Research Club
 - Provides a social setting to stimulate interdisciplinary research collaborations

Improve Research and Creative Infrastructure

- Experimental Science Buildings I, II
- Innovation Hub at the Research Park
- East Loop Research Building
- Reese Technology Center
- Renovations for designated research space along the Engineering Key
- Renovation of existing creative research space
- Shared core facilities

Next Steps

- Statistical analysis of data
- Focus groups with faculty and staff
- Develop interventions to address barriers
