STATISTICAL TABLES

<u>Table</u>	<u>Page</u>
1. Carry-over of upland cotton by specified grades and staples, August 1, 1965-1967 . . . . .	2
2. Grade index and average staple of upland cotton, August 1, 1958-1967 . . . . .	2
3. Grade and staple of upland cotton in the carry-over, August 1, 1967. . . . .	3
4. Grade and staple of upland cotton in the carry-over, August 1, 1966. . . . .	4
5. Grade and staple of upland cotton in consuming establishments, August 1, 1967. . . . .	5
6. Grade and staple of upland cotton in public storage and "elsewhere", August 1, 1967 . . . . .	6
7. Grade and staple of upland cotton in the supply, United States, 1966-67. . . . .	7
8. Carry-over, crop, supply and disappearance of upland cotton, by grade groupings, United States, 1959-1967 . . . . .	8
9. Carry-over, crop, supply and disappearance of upland cotton, by staple groupings, United States, 1959-1967 . . . . .	9
10. Tenderability of upland cotton in the carry-over, United States, August 1, 1958-1967. . . . .	10
11. Grade and staple of ex-stockpile American-Egyptian cotton in the carry-over, (Sales Announcement NO-C-10 catalog), August 1, 1967 . . . . .	10
12. Grade and staple of American-Egyptian cotton in consuming establishments and in public storage (other than ex-stockpile), August 1, 1967 . . . . .	10
13. Staple of foreign growth cotton in the carry-over, August 1, 1960-1967 . . . . .	11
14. Percentage distribution of micronaire readings of cotton in public storage, August 1, 1967 . . . . .	12

## COTTON QUALITY, UNITED STATES

Supply - Disappearance - Carry-over

1966-67

### Introduction

This report contains information on the quality of cotton on hand in the United States on August 1, 1967, and on the quality of cotton in the crop, supply and disappearance during the 1966-67 season. To facilitate comparison certain data for previous years are included.

Quality estimates for the carry-over include statistics on the grade and staple of upland and American-Egyptian cotton and on the staple of cotton of foreign growth in the United States on August 1, 1967. Sample data were raised to the total number of bales reported by the Bureau of the Census in public storage and in consuming establishments for upland, American-Egyptian and foreign growths.

The quality of cotton stored in consuming establishments was based on grade and staple data furnished by the establishments in which the cotton was stored. Estimates on the quality of cotton in public storage including CCC stocks as of August 1, 1967 were based on actual re-sampling and classification of a representative proportion of these stocks.

\*\*\*\*\*

The carry-over of upland cotton in the United States on August 1, 1967 totaled nearly 12.2 million bales, a decrease of about 27 percent from a year earlier. Middling and higher White grades amounted to 1.7 million bales with about 1.0 million in public storage and 0.7 million stored in consuming establishments. Cotton stapling 1-1/16" and longer in the 1967 carry-over totaled 3.1 million bales, of which 1.3 million were stored in consuming establishments.

Compared with a year earlier, the 1967 carry-over of Middling and higher White grades is down nearly a third - 1.7 million bales against 2.4 million. A similar decrease is indicated for the White grades below Middling. These lower grades totaled nearly 2.5 million bales in this year's carry-over against 3.6 million in the 1966 carry-over. Stocks of Light Spotted cotton were 31 percent smaller than a year ago - 5.7 million bales compared with nearly 8.4 million a year ago.

Estimated stocks of cotton stapling 31/32 inch and shorter in the 1967 carry-over were down 17 percent from a year ago - about 4.9 million bales this year against 5.9 million a year earlier. The lengths one inch and 1-1/32 inches totaled 4.1 million bales on August 1, 1967 compared with nearly 5.8 million last year, a decrease of 28 percent.

The carry-over of American-Egyptian cotton on August 1, 1967 totaled 205,000 bales compared with 236,000 bales a year earlier. The carry-over quality estimates for this year's stocks of American-Egyptian are presented in two tables in this report. One table presents data for ex-stockpile American-Egyptian cotton (35,000 bales) based on the classification of this cotton in the CCC catalog. A second table contains quality estimates for American-Egyptian in consuming establishments and in public storage for other than ex-stockpile cotton - a total of 170,000 bales.

The United States carry-over of all kinds of cotton totaled 12,433,000 bales on August 1, 1967, according to the Bureau of the Census. This is down substantially from the record carry-over of 16,862,000 bales on August 1, 1966. Stocks of upland cotton in the 1967 carry-over totaled 12,170,000 bales, stocks of American-Egyptian were 205,000 bales and foreign growths totaled 58,000 bales.
