

Property Inventory System Procedures for Offsite Property/Offsite Property Return Forms

This document provides step-by-step instructions of how to complete the Offsite Property and Offsite Property Return forms in the Property Inventory System (PIS). Property Management recommends the forms be updated annually or when the asset status changes.

TTU OP63.08, Property Management requires 1) departments maintain a "Temporary Use Property Authorization Form" on file for all assets transported to/from campus and 2) departments submit the Temporary Use Property Authorization Form to Property Management for assets transported outside of the state or country.

The submission of an Offsite Property Form within the PIS will satisfy both requirements at this time.

Offsite Property Form – Referred to as the "Temporary Use Property Authorization Form" in TTU OP 63.08, Property Management. This form is required for assets that are transported away from the primary TTU campus location. Submission of this form designates the asset with status type "Offsite" in the PIS.

Offsite Property Return Form- This form is submitted for assets that are returned from loan or transitioned back to a permanent TTU campus location. Submission of this form removes the asset status designation of "Offsite" in the PIS.

Offsite Status Type – Asset does not reside on the main campus, is assigned to an individual or loaned to another institution, and that individual or institution is responsible for the proper care and use of the asset within either of the following situations:

1. Mobile assets are transported between on-campus and off-campus locations regularly, such as when employees may work remotely on a part-time basis or employees who attend conferences with their computing device. Building and room location remains the primary location of the asset when on campus.
2. Assets are loaned to another institution or reside primarily in a remote location on a long-term basis. Building and room location should be updated as "remote inventory" separate from this form. There is no strict definition for "long-term." Property custodians should use their professional judgement in assessing these. If an employee is 100% remote, then that is considered long-term. In general, if an asset is off campus for over a month, it is likely remote inventory.

Items that are loaned to another institution or out-of- state/country will be updated with a loaned attribute by Property Management for periodic monitoring, addressed in a separate document.

Note: This does not include assets with locations available in the Property Inventory System. For example, assets located at Pantex; Pantex location codes are available in the Property Inventory System.

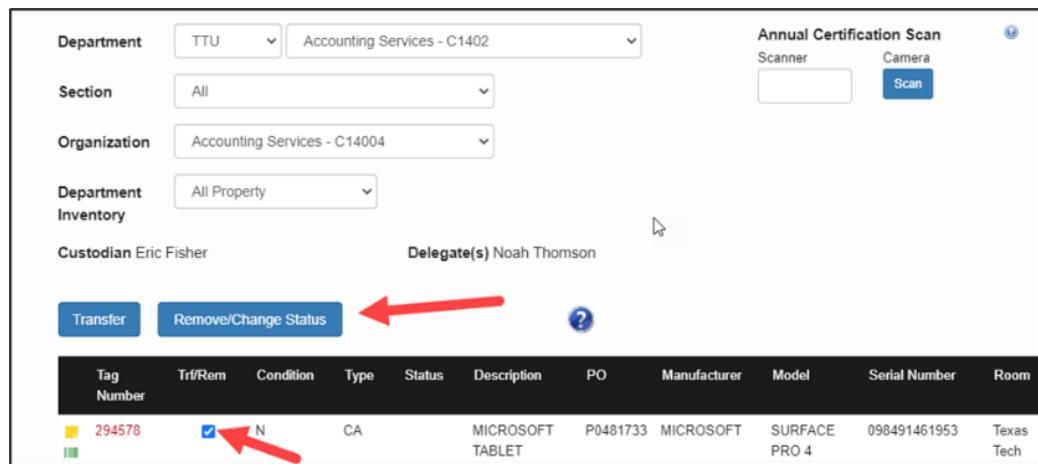

Offsite Property Form Submission

Within the departmental inventory list in the Property Inventory System, one may request to remove or change the status of an asset.

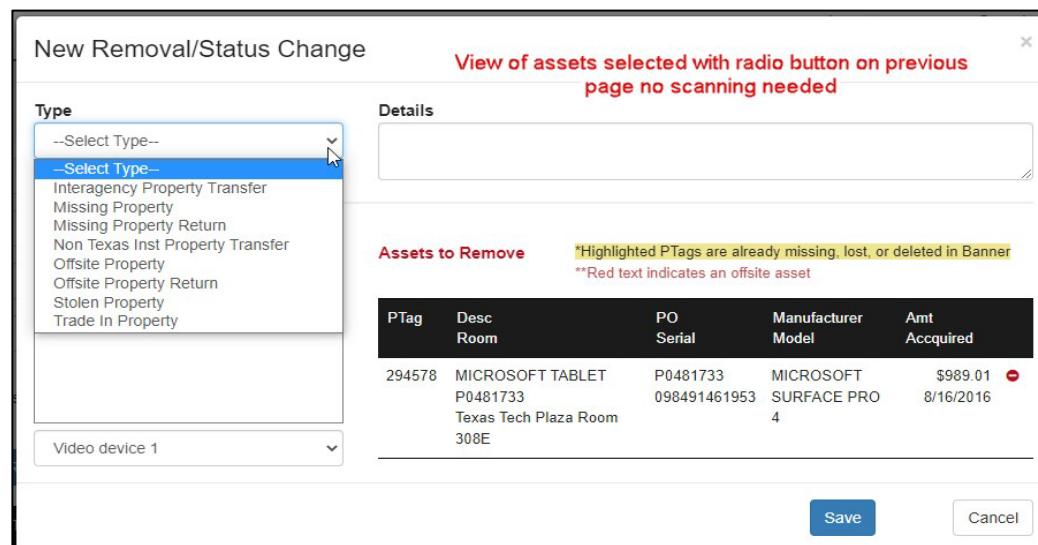

1. Access the Property Inventory System: <https://www.fiscal.ttuhs.edu/propinv/>
2. Locate the asset on the department's inventory list. If the user cannot view the inventory list, contact Property Management.
3. Change asset status:

a) Manual Asset(s) Selection

Check the Trf/Rem radio button next to the asset number, then click on the Remove/Change Status box. The Removal/Status Change dialog page will come up prepopulated with the Tag Number, Description, PO Number, Manufacturer, Amount, Room, Serial Number, Model, and Acquired Date for the asset.

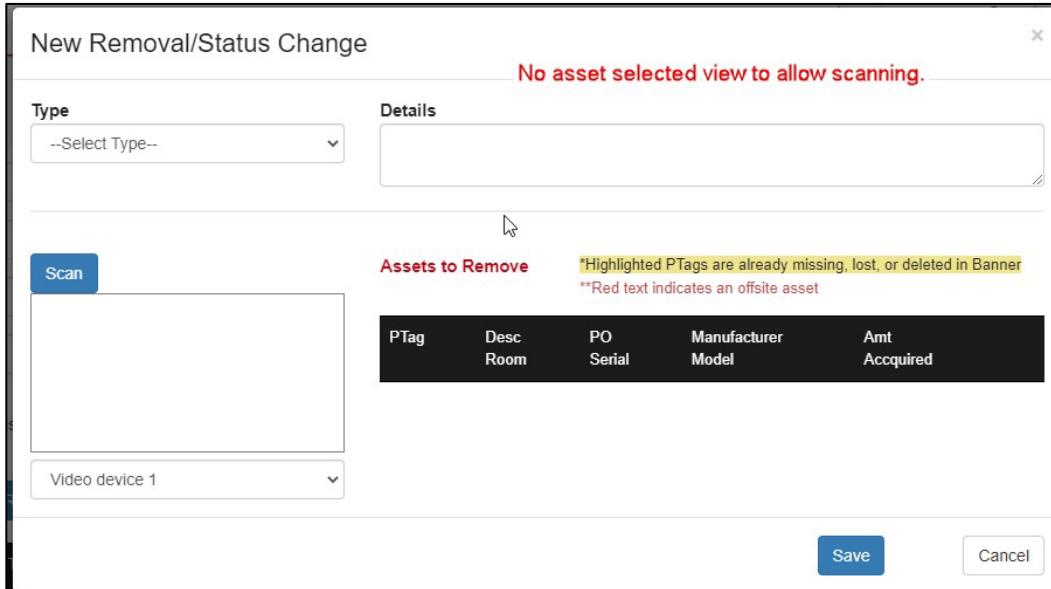

The screenshot shows the 'Remove/Change Status' dialog box. At the top, there are dropdown menus for Department (TTU), Section (All), Organization (Accounting Services - C14004), and Department Inventory (All Property). Below these are fields for Custodian (Eric Fisher) and Delegate(s) (Noah Thomson). At the bottom, there is a table with columns: Tag Number, Trf/Rem, Condition, Type, Status, Description, PO, Manufacturer, Model, Serial Number, and Room. The row for asset number 294578 has a checked 'Trf/Rem' checkbox and a 'N' in the Condition column. A red arrow points to the 'Trf/Rem' checkbox, and another red arrow points to the 'Remove/Change Status' button.

The screenshot shows the 'New Removal/Status Change' dialog box. It includes a 'Type' dropdown menu with options like 'Interagency Property Transfer', 'Missing Property', etc. A message at the top right says 'View of assets selected with radio button on previous page no scanning needed'. Below this is a 'Details' section with a large text input field. A 'Assets to Remove' section shows a table with columns: PTag, Desc, Room, PO, Manufacturer, Model, Amt, and Acquired. The table lists the asset with PTag 294578, Description 'MICROSOFT TABLET', Room 'Texas Tech Plaza Room 308E', PO 'P0481733', Manufacturer 'MICROSOFT', Model 'SURFACE PRO 4', Amt '\$989.01', and Acquired '8/16/2016'. A red box highlights this table. At the bottom are 'Save' and 'Cancel' buttons.

b) Asset(s) Selection Using Scanning

Alternately, click the Scan button then scan the asset barcode (permanent tag). As items are scanned, information will populate in the Assets to Remove section of the New Removal/Status Change page.

Once the form is saved a message will pop up as shown below.

The form will be routed to the department Custodian/Delegate queue, and an email will be sent to them to process the approval.

Offsite Property Return Form

When an asset is returned to campus, the Offsite Property Return form should be completed.

1. Follow the same procedures as listed above, but select the Offsite Property Return Form.
2. Complete the details that explain the asset has returned.
3. Update the building and room location. This information is required for processing.

Scan **Save** **Cancel**

4. When all fields are complete, click Save. The form will be routed to the Custodian/Delegate for approval.
6. Once approved, the Offsite status will be removed.

Offsite Property and Offsite Property Return Form Approvals

- Once the form is saved, the request will be routed to the department Custodian/Delegate and an email will be sent to the Custodian/Delegate to notify them an approval is pending. Example of the email notice to the Custodian/Delegate:

Subject: Asset Removal/Status Change 2300568

Asset Removal/Status Change 2300568 has been saved by Jennifer Branch and needs custodian approval.

Go to the [Property Inventory](#) application and choose Removals/Status Changes under the Inventory menu. Click on the number in red to electronically sign or reject the Removal/Status Change.

Thank you,

- The Removals/Status Changes page provides a list of Pending removals and status changes for which you are either the Initiator, the Property Custodian of the Department, or a Delegate for that Department.

- Click the red ID number link to view the removal/status change details.

Click ID Number

Pending Custodian Signature

ID	Type	Orgn	Info	Status
2100022	Missing Property	201193		Saved

- To approve a removal/status change request as a Property Custodian or Delegate, click the checkbox:

- I certify that the item(s) should be removed from TTU/TTUS inventory, or their status changed for the item(s) and to the best of my knowledge the above information is correct.
- Click the Electronically Sign and Submit button.

- A confirmation message will indicate that the removal/status change request has been signed and approved.

6. An automated email will be sent to the initiator when a removal/status change request has been approved.

When the form is approved, the submitter will receive a notice that the Asset Removal/Status Change request was approved. The asset status will show offsite (blank if a return) on the main inventory list.
