8) What can I do with this major after graduation?

9) How long will it take me to graduate from this major?

(X)₂

1) What is the required GPA for this major?

2) What are the requirements for declaring this major?

3) What is the foreign language requirement for this major?

4) What about studying abroad?

5) Am I required to take internships before graduation?

6) Does the department provide help with finding internship opportunities?

7) What courses might count as electives for this major?

8) What can I do with this major after graduation?

9) How long will it take me to graduate from this major?

(X)₃

1) What is the required GPA for this major?

2) What are the requirements for declaring this major?

3) What is the foreign language requirement for this major?

4) What about studying abroad?

5) Am I required to take internships before graduation?

6) Does the department provide help with finding internship opportunities?

7) What courses might count as electives for this major?

8) What can I do with this major after graduation?

9) How long will it take me to graduate from this major?

What can
an
Instructor
from the
hosting
department
tell you
about the
explored
major?

(X)¹

1) What skills do I need to excel in this major?

2) What do you think are the challenges that face students of this major?

3) What study aids can I use to best prepare for tests?

4) What can I do with this major after graduation?

5) Would you recommend applying to graduate school after graduation? why?

(X)2

1) What skills do I need to excel in this major?

2) What do you think are the challenges that face students of this major?

3) What study aids can I use to best prepare for tests?

4) What can I do with this major after graduation?

5) Would you recommend applying to graduate school after graduation? why?

(X)3

1) What skills do I need to excel in this major?

2) What do you think are the challenges that face students of this major?

3) What study aids can I use to best prepare for tests?

4) What can I do with this major after graduation?

5) Would you recommend applying to graduate school after graduation? why?

**What can a
Professional
with the
same major
tell you
about the
explored
major?**

(X)¹

1) What skills do I need to excel in this major?

2) What challenges did you face as a students of this major?

3) How difficult was it to find a job after graduation? why?

4) Did you have a minor? and how did that affect the job search?

5) Would you recommend applying to graduate school after graduation? why?

6) If you had the chance to go back in time, what would you do differently?

(X)₂**1) What skills do I need to excel in this major?**

2) What challenges did you face as a students of this major?

3) How difficult was it to find a job after graduation? why?

4) Did you have a minor? and how did that affect the job search?

5) Would you recommend applying to graduate school after graduation? why?

6) If you had the chance to go back in time, what would you do differently?

(X)₃**1) What skills do I need to excel in this major?**

2) What challenges did you face as a students of this major?

3) How difficult was it to find a job after graduation? why?

4) Did you have a minor? and how did that affect the job search?

5) Would you recommend applying to graduate school after graduation? why?

6) If you had the chance to go back in time, what would you do differently?

What can a
Student
from the
same major
tell you
about that
explored
major?

(X)¹

1) What skills do I need in order to excel in this major?

2) What challenges do you face as a students of this major?

3) What study aids do you use to best prepare for tests?

4) Do you have a minor? why?

5) Are you thinking about graduate school? why?

6) If you had the chance to go back in time, what would you do differently?

(X)2

1) *What skills do I need in order to excel in this major?*

2) *What challenges did you face as a students of this major?*

3) *What study aids do you use to best prepare for tests?*

4) *Do you have a minor? why?*

5) *Are you thinking about graduate school? why?*

6) *If you had the chance to go back in time, what would you do differently?*

(X)3

1) *What skills do I need in order to excel in this major?*

2) *What challenges did you face as a students of this major?*

3) *What study aids do you use to best prepare for tests?*

4) *Do you have a minor? why?*

5) *Are you thinking about graduate school? why?*

6) *If you had the chance to go back in time, what would you do differently?*

What can Family and Friends tell you about the explored major?

(X)₁

1) Do you happen to know someone that is a student of this major? how do they describe their college experience?

2) Do you know a professional that graduated from the same major? how do they describe their college experience and their job search after graduation?

3) What do you think are the advantages of choosing this major?

4) What do you think are the disadvantages of choosing this major?

5) What other major would you recommend exploring? why?

(X)2

1) Do you happen to know someone that is a student of this major? how do they describe their college experience?

2) Do you know a professional that graduated from the same major? how do they describe their college experience and their job search after graduation?

3) What do you think are the advantages of choosing this major?

4) What do you think are the disadvantages of choosing this major?

5) What other major would you recommend exploring? why?

(X)3

1) Do you happen to know someone that is a student of this major? how do they describe their college experience?

2) Do you know a professional that graduated from the same major? how do they describe their college experience and their job search after graduation?

3) What do you think are the advantages of choosing this major?

4) What do you think are the disadvantages of choosing this major?

5) What other major would you recommend exploring? why?

In the opposite column,
provide values for
(x) and (why)
where:

(x) = the explored major

*(why) = important information others
told you about this major*

Keep in mind that it is
recommended to come
up with **at least two**
sets of values for two
possible majors that
you see fit.
