Text Responses

Comments instructor or course

(Dale Woerner) Good instructor , fit for the class

(Dale Woerner) As a student with a learning disability and struggling my entire educative career thus far, having a professor who gives a study guide alone is helpful, but having one who will read off the exam is a god send. Beyond appreciated!!!

(Dale Woerner) Amazing course, but would work better in smaller sections/classes

(Dale Woerner) Loved his section of the course and I felt like he connected with the class better than any professor. Overall, I think I learned and understood way more in his section than any other.

(Dale Woerner) YOU WERE MY FAVORITE BY FAR!!!!!!!!!!!!!! This has to be one of the worst experiences I have ever had with a class. The four professor system was absolutely horrendous. Nobody in the class knew who to contact, there was no TA emails listed, additionally there was so many TAs running around teaching parts of this course one wouldn't even know which one to contact if we DID have their information. Much of the material was repeated, it was impossible to study correctly for exams as each professor taught so differently and created exams differently. Much of the information was repeated, and some things that I have come to find out that had been constantly repeated wasn't even important information. I was very disappointed with this class, as it is my last semester at Tech and I was hoping for a wonderful experience leaving. I will say that the labs for the most part were informational and engaging, and the TAs did a great job. My main disappointment from this class is how it was structured and the information that was provided. Dr. Woerner did the best out of all of the professors, and was the only one who seemed to truly care about his students success. I wish he had been the one to teach the entirety of this class. I really hope this class changes for future students and everybody does a review, because I know the majority of the class was incredibly upset as well. This class could have been an enjoyable, learning experience. Instead, it has been an extreme headache and hard to do successful in. If this adds to any of my previous comments - this class would be the class keeping me from graduating this semester. Hugely disappointed. The only professor that deserves any credit for this class is Woerner, and I hope he receives it.

(Dale Woerner) Loved him the best teacher out of the four actually taught and was interesting to listen effective teacher as well as actually cared how we did and how much we learned to go out into the world with the info.

(Dale Woerner) This course had very few strengths. 4 professors was a very poor decision especially since we did not see Dr. Miller the entire time he was supposed to teach. The grad students and Dr. Woerner were the most effective instructors out of the entire course. Professors also did poorly at replying to emails. This class absolutely should not have 4 professors. This classes professor should also think about doing at least a review before an exam rather than doing nothing. There is too much material in this course to not help your students out by giving extra help to assist in retaining information. Again, I appreciate Dr. Woerner the most for his quick reply to my email and his teaching style. I actually learned something from him and his stories.

(Dale Woerner) Dr. Woerner wanted his students to succeed and provided plenty study materials for his class. He wanted his students to learn and not just regurgitate information. Overall, the class was made very interesting and a great learning experience.

(Dale Woerner) The course was very interesting and I wish there was a part two. The material was great and the labs were fantastic.

(Dale Woerner) Dale was the most engaging and easy to pay attention to professor in this course. He was dedicated to our success and that was appreciated. Gave out extra credit to the people who consistently showed up to class. Keep it up, Dr. Woerner. Also, Taylor was a very helpful TA and deserves recognition.

(Dale Woerner) I know this course was taught different in the past but I enjoyed the format of this class. I like each of the professors and TAs and thought that each contributed their knowledge to best teach this course. Having different professors made this course well rounded and more interesting.

(Dale Woerner) I think Dr. Woerner was the most personable of the professors. He was a joy to listen to in class. He made the topics interesting, even if I already knew the information from previous classes.

(Dale Woerner) This has been my favorite college class ever. I really enjoyed Dr. Woerners lectures and labs, and probably learned practical knowledge in this class than any other. Would take it again if I could.

(Dale Woerner) I enjoyed the material of this course, however, it was somewhat difficult having 4 professors and 4+ additional TAs teach the material. They all have different teaching styles and exams. If the teaching styles and exam formats were made the same, I think the number of professors would be beneficial. It was hard to know what to expect from each lecture and lab. Dr. Woerner was my favorite professor in this section because he made learning the content so fun. He used humor to make it interesting and his exam was straightforward.

(Dale Woerner) Dr. Werner was awesome! He made things very simple and easy to understand, which helps a lot when we were being tested on his material.

(Dale Woerner) You are an awesome and fun professor. Thank you for everything hope you have a great summer!

(Dale Woerner) Loved this class, Dr. Woerner does a great job of making sure we are prepared for the exam and that we have the materials needed for each exam, practical, and homework's. I appreciate his perception of the most important thing for this class is the overall concepts of how to identify the differences in animals.

(Dale Woerner) I enjoyed this class a lot. I learned so much from this class. Woerner was a really good professor. It was very hands-on which I liked because I am a visual learner
(Dale Woerner) I greatly enjoyed this class under Mr. Woerners instruction, he made the class more interactive and made it easier to learn.
(Dale Woerner) i enjoyed the class. the instructor was great
(Dale Woerner) Did not like having multiple teachers
(Dale Woerner) great professor
(Dale Woerner) I was very skeptical going into this class. I did not think I would enjoy it. However, he made learning fun and taught me that I should care about these qualities. He was very kind and was always willing to work with you which is amazing during this time in our world.
(Dale Woerner) great course recommend it to anyone.
(Dale Woerner) Dr. Woerner did an excellent job
(Dale Woerner) Dr. Woerner is the absolute best teacher I have ever had. He really wants you to understand the content of the course. He also makes the structure of the class very easy to follow and fun to do.
(Dale Woerner) I got bored during some labs due to background experience in this department but still learned things.
(Dale Woerner) I learned a lot and got to see a whole new perspective of the livestock industry. Dr. Woerner made the course enjoyable and easy to understand
(Dale Woerner) This course provided a lot of insight and connected the dots of everything that happens in the world around us that most people do not recognize. Dr. Woerner provided tremendous insight that was easy to understand, even on the tough topics. The labs were hands on and provoked much thought from a consumer, producer, and scientist standpoint. Additionally, the exams/assignments given allowed us to think freely and critically to clearly convey something that has been in front of us our whole lives but now have a better understanding of.
(Dale Woerner) Great class. Very fun and hands on. Would take again. Learned a lot.
(Dale Woerner) Awesome class. Dr. Woerner is great.
(Dale Woerner) very knowledgeable teacher and good information, a little confused on grading
(Dale Woerner) Congratulations, but I think this section had the opposite intent of what it was supposed to. I am not a vegetarian, but after this unit, I may just have to become one. I was prefectly fine being blissfully unaware of how processed meats were made; observing it was revolting (not to mention the sanitation concerns that I witnessed during lab). I think it is safe to say I'll never eat from Red Raider Meats again.
(Dale Woerner) Dr. Woerner was very responsive, created engaging lectures, and knew what we were doing the whole time he instructed our course. He was clearly actively engaged in what the graduate students were teaching us during our labs, so there was distinctive oversight.
(Dale Woerner) i absolutely love dr woerner
(Dale Woerner) One do the best professors I've had
(Dale Woerner) Extremely hard course this semester, with having different teachers every exam. We did not know what to expect every exam since it was different teachers.
(Dale Woerner) the content was great but the class time was too long
(Dale Woerner) Love how Dr. Woerner taught the class
(Dale Woerner) Dr. Woerner made sure that the course was not moving too quickly so that all of the information could be thoroughly understood, but also kept the class progressing.

(Dale Woerner) Very valuable course and information and enjoy how all the information ties together
(Dale Woerner) Dr. W made this class enjoyable to attend, and was friendly and fun. His TA were awesome too
(Dale Woerner) I enjoyed this class. The instructor was very involved. He cared about the students' learning quality over grades and stressful examinations that make you care if you do well over actually knowing the content. I learned so much with his teaching style that made me more informed as a student as well as a meat consumer.
(Dale Woerner) Dr. Woerner did a great job teaching his portion. I like how he showed off his personality and it seemed like he really wants his students to succeed.
(Dale Woerner) The course was ran well and Dr. Woerner delivered powerful lectures.
(Dale Woerner) Great Instructor, genuinely cared about his students learning the information.
(Dale Woerner) Great course, I really enjoyed it!!
(Dale Woerner) He is a fantastic professor! He always explained the content in-depth with analogies that made it easier to understand. He also keeps the class fun, slipping jokes into his lectures. He makes the class more focused on the content than the grades so it is less stressful and easier to learn.
(Dale Woerner) Having 4 or more different professor and Ta's made the class very hard and sporadic
(Dale Woerner) I've never loved a class and learned so much at the same time. This has been a great learning experience. I feel Woerner did a great job of making me feel like I was cared about despite being in such a large class. He is very accommodating, and understands the importance of hands on learning.
(Dale Woerner) Great professor!! So helpful and engaging!!
(Dale Woerner) He not only cares about what he's teaching, he also cares about all his students and wants them to succeed!
(Dale Woerner) Love me some Dale. Dr. Woerner is a great professor who really gets his students involved in the class material.
(Dale Woerner) good
(Dale Woerner) The only thing I would suggest is if there could be a clear outline of what we were going over and when exams were.
(Dale Woerner) The tests at the ends were a little off date from what was originally said which made it confusing but was then specified. He did miss a lot of class. He was great in working with students who missed a class with an excused absence or just didn't understand the material.
(Dale Woerner) I enjoyed this course and have learned a lot of valuable information that I will use in my everyday life from it. Dr. Woerner has been a great professor!
(Dale Woerner) Not knowing much about meat science before I came into this class, I am thankful for Dr. Woerner for teaching us the ins and outs of the industry. The class was structured in a way that was easy to understand all of the given material and the information is applicable in the real world.
(Dale Woerner) I just wish I had a schedule of the tests at the beginning instead of getting told a week before.
(Dale Woerner) Dr. Woerner does an excellent job of getting students to think deeply about scientific concepts. I like his approach to teaching- it is very effective. Despite the laid-back nature of his class, I learned a GREAT deal about Meat Science. Animal and Food Sciences is lucky to have Dr. Woerner in the department; he is an excellent mentor.
(Dale Woerner) One of the top professors I have ever had. I wish he would have taught the whole course this spring. Not only is he down to earth and easy for students to understand and follow, he is also beyond knowledgeable about the meat industry and is very practical in his teachings. Would highly recommend.
(Dale Woerner) Very understandable about situations especially with covid and online learning. was very flexible. wants his students to do well and makes it clear in every aspect of his teaching.
(Dale Woerner) I liked this class a lot--even though I am not interested in meat evaluation. Dr. Woerner was super effective at lecture, but he missed a lot of class. The TAs were great, but not as great at teaching as Dr. Woerner.
(Dale Woerner) Dr. Woerner was very helpful as a professor and truly wanted everyone to succeed, a great professor!

(Dale Woerner) Dr. Woerner is an awesome teacher. He truly cares about his students, and he makes it known all we have to do is ask for help!
(Dale Woerner) He was awesome! Loved this class!
(Dale Woerner) I really enjoyed the class with Dr. Woerner and he made it a great experience.
(Dale Woerner) Dr. Woerner was an excellent professor! He taught very valuable lessons about the livestock and meat industry that I will take with me everywhere. I appreciate how he really takes the time with us as students to be better prepared in our majors.
(Dale Woerner) It was face to face, but there were times when I wish there could have been more recorded lectures or a digital component.
(Dale Woerner) Dr. Woerner was an amazing teacher and made the class very fun and educational!
(Dale Woerner) I really enjoyed taking this class, Dr. Woerner was a great teacher.
(Dale Woerner) loved Dale
(Dale Woerner) The syllabus and point system was a bit hard to follow at first so I couldn't calculate my grade but I seems to be working itself out
(Dale Woerner) i can very much tell the Professor Dale really care about his students and that he knows much knowledge about the concepts concerning this course and the meat industry in general which i very much appreciated when he went into depth on these things. Nothing but great things!
(Dale Woerner) One of the best instructors I've ever had for a class.
(Dale Woerner) It was a great class and it was very interesting
(Dale Woerner) A wonderful Professor very nice and understanding. He is there to help you pass the class and help you understand the concepts you learn. Would HIGHLY recommend
(Dale Woerner) Makes it very clear what's expected
(Dale Woerner) I liked all the topics and the way he instructed his course. Would for sure take other class led by him in the future if I can.
(Dale Woerner) This course was split between 4 professors this semester and personally it was not a good experience for me. It is beneficial for students to keep one professor throughout the duration of the course because changing professors meant that we had to adapt to new teaching and testing style every 4 weeks. I would recommend Dr. Brooks switch back to teaching it the entire semester.
(Dale Woerner) Dr. Woerner's class was very fun this semester. You can tell that he is very knowledgable and passionate about the subjects of meat and meat science. I would recommend him to anyone wanting to take this class.
(Dale Woerner) I liked the way he taught and the fact that a review session was held for the exam. I did not like the way that the review and the actual exam were not cohesive or that the exam seemed scattered.
(Dale Woerner) I loved this class, There was so much that I gained from hands-on experience
(Dale Woerner) This class was great except for the professors organization. It was a while before he uploaded anything on blackboard, and every assignment was paper and pen which was hard for me, and probably quite a few other people, after getting so used to being offered online formats. He passed out numerous paper packets of slides which could have been avoided had he just uploaded the powerpoints. In addition, it was very frustrating to be told we were doing one thing for the next class and then show up and being doing something completely different. For example, one tuesday he told us we would be grading an exam on that thursday, i showed up in shorts and sandals on thursday and he made us go to the arena to look at pigs. Once again it would be really nice if he would utilize blackboard more efficiently because he couldve sent an announcement that plans had changed for that instance. Lastly, he had TA's teaching his class pretty frequently. How does he expect his students to show up when we walk into class and see that he couldn't make it? We are paying for this class to be taught by a professor, not other students.
(Dale Woerner) I did not enjoy having 4 different teachers but Dr. Woerner's section was by far the best
(Dale Woerner) Dr. Woerner was a good teacher, he was always excited for us to learn.

(Dale Woerner) Dr. Woerner was very helpful and considerate of his students and seemed to genuinely care about their success.
(Dale Woerner) I felt that Professor Woerner made the effort to ensure every student got the most out of the course and made the effort to help anyone who may have needed additional help.
(Dale Woerner) This course was informative.
(Dale Woerner) The instructor went into detail over every concept in the course. He was also available for any questions and was always willing to help if we had any trouble understanding anything in the course.
(Dale Woerner) Dale is more interested in his students education than anything else and sets us up for success in his class.
(Dale Woerner) I enjoyed this class! More hands on than ANSC 1301, which I liked !
(Dale Woerner) Amazing instructor, really enjoyed this class!!
(Dale Woerner) Course gave me a lot of relevant information that was taught in a way i could understand. All instructors made class interesting and were extremely understanding when things came up. The way tests are done is very fair and i feel like the instructor is looking for knowledge learned instead of just a number test score.
(Dale Woerner) Great very interactive and you always leave with something.
(Dale Woerner) Such an amazing teacher!!
(Dale Woerner) It has been an honor to be a student of Dr. Woerner. This was an incredibly well designed course and a great teacher, whose lectures are enjoyable to listen too. The take away from this course has been far more than I could have asked for.
(Dale Woerner) wanted students to succeed
(Dale Woerner) Loved this class!
(Dale Woerner) The official instructor is an incredible teacher, very engaging, and good at keeping interest even during the more boring topics. However, the TAs for the course are not as good at teaching and can be a bit lacking at times. Overall the course is very easy and has very clear aims for it. If you go into the class wanting to learn the information you will but if not its still pretty easy to at least pass.
(Dale Woerner) Dr. Woerner is phenomenal, best professor I've had so far!!
(Dale Woerner) I LOVE THIS CLASS!! Dale is an amazing instructor
(Dale Woerner) I really enjoyed Dr. Woerners class! He was always sure to relate topics or different curriculum goals back to things were already knew or were able to relate to. This course has brought new understandings into my knowledge bank, and I am certain I will use them in my everyday life, and most importantly in my post educational endeavors.
(Dale Woerner) Overall the course was easy, the instructor was great at teaching the material and helping you I understand the lesson. Will definitely recommend to others
(Dale Woerner) Professor Woerner is a great professor and I have a great time taking this class and learned a lot.
(Dale Woerner) Great professor. Knew how to teach the material in the best way possible and put the learning and success of the students as a top priority.
(Dale Woerner) Dr. Woerner was an amazing teacher who prioritized learning over assessments. He made the material fun and easy to understand. I've learned a lot about meat evaluation that I know I'll remember for a while because of how well he teaches. His dedication to his students is not something every teacher has and I greatly appreciated it.
(Dale Woerner) Starting this class I didn't think I would like it as much as I did, I absolutely enjoyed professor Woerner's lectures and was very interested in what we were learning. I honestly do not think I would have enjoyed it as much as I did if it wasn't for Professor Woerner and his care for student success.
(Dale Woerner) Thank You!

(Dale Woerner) Good
(Dale Woerner) Dr. Woerner is an amazing professor and I would look forward to having him again
(Dale Woerner) Dr. Woerner always kept his students' well-being in mind and ensured that the exams followed the lecture materials and had no surprises.
(Dale Woerner) n/a
(Dale Woerner) This was one of the best courses I've ever taken. We not only learned about the information but got to apply it directly. I would only recommend a little more organization, if possible. It was a bit scattered and deadlines/exam dates were not clear. I understand it is difficult when working with live animals.
(Dale Woerner) I have none, I enjoyed this semester!
(Dale Woerner) He was a wonderful teacher and was always willing to help if we did not understand something during lecture and lab.
(Dale Woerner) My professor knew so much and taught very valuable information. He is one of the best professors I've had so far.
(Dale Woerner) While I don't plan to focus on Livestock the professor was incredibly helpful and understanding with all the assignments and lectures he gives.
(Dale Woerner) he's very passionate about the subjects taught in the course, and he really cares about his students. it's a lot easier to learn material when the instructor is passionate about a subject, and Woerner did exactly that!
(Dale Woerner) This was my favorite class. Dr. Woerner is a wonderful teacher and I wish he taught more classes for my major. He is passionate about the material he is talking about, and was the only teacher that didn't make me cry this semester. 10/10
(Dale Woerner) Great learning environment and really enjoyed the class.
(Dale Woerner) amazing teacher!!
(Dale Woerner) Love the course! Great professor!
(Dale Woerner) Easy class!
(Dale Woerner) The lectures and labs taught by Dr. Woerner himself were very detailed and easy to understand, but the lectures done by the grad students were harder to understand and often felt rushed through. I wish he had been able to teach all of the lectures.
(Dale Woerner) Very friendly and learned a lot about research presentations
(Dale Woerner) Favorite class I have taken so far. He was a good teacher
(Dale Woerner) none
(Dale Woerner) Good Professor and Course
(Dale Woerner) He made this class enjoyable and calming. He showed that learning doesn't have to be stressful.
(Dale Woerner) I learned so much and this is my favorite professor I have had at Texas Tech.
(Dale Woerner) One of the best classes I have taken at Tech.
(Dale Woerner) Great professor!
(Dale Woerner) Dr. Woerner made this course interesting and fun! He is a very reasonable guy who cares about his students and I personally enjoyed the course.
(Dale Woerner) Nothing. He is good at teaching this course..
(Dale Woerner) The instuctor was veryt well at explaining what was neccesary to learn for exams
(Dale Woerner) I loved the way he taught, it was efficient and easy to understand.

(Dale Woerner) Dr. Woerner made the class fun and useful. Best professor I've had so far.
(Dale Woerner) I love Dale! In Dale we trust!
(Dale Woerner) I loved this class Dr. Woerner was a wonderful teacher and was dutiful in ensuring that we all understood what we were learning and what was expected of us. He took the time to ensure that if we missed a class or could not make it to an exam, he would work something out with us so that we would still have all of our grades. I was a little disappointed when a TA had to lecture because Dr. Woerner was out because he explained everything very well. TA Tatum was very helpful as well and was a great help as well. She was well-selected and informed for the class. Our second TA I forgot her name, however, was a little less informed and I would have preferred Tatum teach lectures over her and she wasn't as informed and often talked over the time that the class was scheduled.
(Dale Woerner) NA
(Dale Woerner) na
(Dale Woerner) Great class and great instructor!
(Dale Woerner) N/A
(Dale Woerner) Amazing class and amazing teacher
(Dale Woerner) The professor made this class easy and enjoyable. I learned a lot that I hadn't known before.
(Dale Woerner) He was a great teacher and made learning fun.
(Dale Woerner) This seminar helped me to build my presentation skills and professor supported me a lot for that.
(Dale Woerner) Dale was an amazing professor I loved going to his classes and he was very passionate about what he teaches which helped me do good in the class. I wish he taught more classes because I would take them
(Dale Woerner) He was a great and informative instructor, and made sure that everyone understood the information before continuing to the next topic.
(Dale Woerner) I loved this class and everything I learned. Mr. Woerner was very helpful and was passionate about what he teaches. He truly cares about his students and would recommend his class to anyone interested.
(Dale Woerner) I had to buy a \$45 online code that I never used.
(Dale Woerner) NA
(Dale Woerner) The teacher is amazing!
(Dale Woerner) Dale is wonderful!
(Dale Woerner) Honestly the best professor I have ever had. One of my favorite classes I have taken in college. Lots of hands on work to tie into the lecture course.
(Dale Woerner) Very fun and interactive class
(Dale Woerner) Loved it.
(Dale Woerner) very passionate about his work and keeps students engaged with teaching style glad to have taken this class.
(Dale Woerner) Dr. Woerner is very knowledgeable. Loved the hands on labs and carcass evaluations.
(Dale Woerner) dude was amazing
(Dale Woerner) Dr. Woerner is a very nice and understanding guy. He is willing to make accommodations for his students and is very patient with the learning process. He knows the class is not the easiest class and makes effort for his students to understand the content. Very effective instructor and I was able to learn/retain an abundance of information from the class overall.

(Dale Woerner) Dale was often not in class, and I understand that he is a researcher first, teacher second. But his replacements to teach were unreliable and never did a very good job. Dale however was a wonderful teacher.
(Dale Woerner) Dr. Woerner is an amazing professor!! I loved taking his class!
(Dale Woerner) Dr. Woerner made this class engaging and easy to learn the objectives. He really helped us review for the tests and made it so that we could perform well in the class.
(Dale Woerner) Great teacher, was very thorough with all the subjects that were taught.
(Dale Woerner) I really enjoyed his class. I am not usually well versed on livestock and this classes gave me hands on experience that is a core memory I'll cherish. He makes it easy to understand and enjoy his lectures on the industry and animals.
(Dale Woerner) Woerner is a very professional professor, his teaching skills and just knowing how to entertain anyone he comes across with. I've enjoyed his class to the max to the point where I've decided to change my major into meat science. Thank you for your time and dedication!
(Dale Woerner) I enjoyed taking this course!
(Dale Woerner) Thank you for this amazing semester!
(Dale Woerner) This course was super interesting. I really enjoyed learning about the harvesting process and Dr. Woerner is extremely knowledgeable.
(Dale Woerner) I greatly enjoyed learning from Dr. Woerner. I gained valuable industry experience.
(Dale Woerner) Very good class and a great professor.
(Dale Woerner) really enjoyed the class
(Dale Woerner) N/A
(Dale Woerner) Course was awesome
(Dale Woerner) Instructor was very helpful and real when it came to teaching not only about the course but adulthood as well.
(Dale Woerner) N/A
(Dale Woerner) Best teacher ever. Incredibly nice, makes the class easy to follow and understand, and an easy A as long as you take notes and you go to class. Very helpful, easy to talk to, and makes boring topics interesting.
(Dale Woerner) Great interactive professor and TEACHING skills
(Dale Woerner) Dr. Woerner makes it clear that he cares about his students as well as their success, and it was something I greatly appreciated.
(Dale Woerner) I enjoyed watching other students present, gave another prospective. The only thing is maybe some feedback on how we presented, what we could improve on or change to make better.
(Dale Woerner) Student free man
(Dale Woerner) This class was a great experience and I learned a lot from Woerner. He seems to like his job alot
(Dale Woerner) Dr. Woerner is awesome! His class was very fun and hands on and overall I had a great learning experience!
(Dale Woerner) Really good course. Dr. Woerner is an incredible professor
(Dale Woerner) Dale is a amazing instructor he is very involved with his class and helps everyone.
(Dale Woerner) I loved Dr. Woerner! When I registered for this class I was really nervous, but he was great teacher. Not only did I learn so much through his class, I actually enjoyed it a lot. Everything was well explained and he was more than fair with assignments and grades.

(Dale Woerner) I believe Dale was such a good professor always knew what he was talking about understood his lecture will for sure miss this class

(Dale Woerner) I loved taking this class and getting to learn everything he teaches so passionately about, even when we did get sidetracked.

(Dale Woerner) great course

(Dale Woerner) Great and funny teacher. Knows his stuff and knows how to teach it.

(Dale Woerner) Dale is a great instructor and I learned a lot by just listening to him speak on his experiences. He is very understanding and accommodating to the students and truly understood how to expect work from us without being too much.

(Dale Woerner) After taking this class, I wish I could have taken it in high school. The information would have been so nice to have while competing in the Livestock Evaluation CDE. I felt like I have learned information that will help in other classes.

(Dale Woerner) The course was good, and the instructor was very knowledgeable and passionate about the subject matter.

(Dale Woerner) Dr. Woerner was a great instructor. He knows that this can be a confusing course, especially the live judging portion, and put a lot of effort into making sure we we had a good understanding of the material with lots of opportunities to practice judging before exams.

(Dale Woerner) I really enjoy Dr. Warner's teaching style. He makes sure that we have every opportunity in his class, as long as we show up and do the work. He doesn't just make it where everyone can pass the class without putting in the effort, but he doesn't make class dreadful either. He doesn't take attendance, yet he made me want to show up for class everyday.

(Dale Woerner) It was difficult in lab to get the whole experience judging the animals, because the class size was so large. Other than that, it is a great class!

(Dale Woerner) I enjoyed this class. By far my favorite class I have taken so far. Dr. Woerner is a great professor.
