Text Responses	
Comments instructor or course	
(Hannah Gauthier) Going over the reviews was very helpful. The lecture slides provided brief information that was still clear and easy to understand.	
(Hannah Gauthier) Although this was a very challenging class, Hannah did a great job keeping it interesting! I appreciated the notes she would make for each unit along with the test reviews. The only thing that I wish that we had was more graded assignments. Overall, I think that this was a great class and Hannah is a supportive instructor that wants all of her students to be successful! I would take another one of her classes if I had the opportunity.	
(Hannah Gauthier) great prof and overall very informative class	
(Hannah Gauthier) Great class, and professor, very approachable and kind.	
(Hannah Gauthier) This was a great class! Mrs.Gauthier cares about the education her students are receiving and I'm very glad I took this class!	
(Hannah Gauthier) I very much enjoyed this class although I think we focused too much on basic nutrition and ended up rushing through the applied nutrition topics.	
(Hannah Gauthier) Mrs. Gauthier was extremely helpful throughout the semester, she provided so much help outside of the classroom for me, I was shocked.	
(Hannah Gauthier) no complaints	
(Hannah Gauthier) Wish powerpoints were in complete/full sentences. Wish exams were online like the quizzes are.	
(Hannah Gauthier) This class was by far my favorite of the semester. Professor Gauthier genuinely cared about providing a great experience for her students and giving them applicable information for both their personal lives and the career. The format was easy to follow and the content was enjoyable. The only suggestion I have is to reconsider the four exam format to a three exam format, or time the exams so that the information is evenly balanced between exams. I would highly suggest taking this course as an Animal Science major as it goes more in depth and provides usable information.	
(Hannah Gauthier) I really enjoyed this course and it was one of my favorite nutrition courses I have taken at Tech. I think she did a great job in structuring the class schedule, so that the content made sense and built upon itself. She did a good job at showing us situations where we can apply our knowledge of material. Also, the way she brought in different materials to demonstrate how to calculate and find things ourselves made it much easier to understand the content. Lastly, her exam reviews and exams were perfect as it made it easy to recall information and apply what we knew. She made it so that exams were not as stressful as other courses and I appreciated that greatly. I really enjoyed this class and she grew so much as an instructor after asking for mid-semester feedback.	
(Hannah Gauthier) Great lecturer! Exams were just the right amount of difficulty to where we had to thoroughly know the information but it wasn't overwhelming. I would definitely take another class with her if offered! The exam reviews were also super helpful. I feel that some sort of attendance incentive/punishment would be useful. While I loved the class I found it difficult to motivate myself to get to class when there wasn't much consequence. When I did attend, overall attendance seemed low.	
(Hannah Gauthier) This has been one of the best classes I have taken at Tech, the teacher was knowledgeable, understanding, and was overall one of the best teachers that I have had. This was one of the most enjoyable classes I have taken, and going into the class I thought that this class would not be the wonderful learning experience it was.	

(Hannah Gauthier) She remained on topic and yet provided supplementary information in the lecture to ensure we understood the content. one of my favorite of the semester
(Hannah Gauthier) When going over the slides for the exams, they dont have ALL of the information needed since she goes more in depth with it in person which is fine but, when taking notes its hard to write it all down since she does tend to move pretty quickly
(Hannah Gauthier) I loved taking companion animal nutrition with Hannah. I feel as if she really cared about us as her students, and always made sure that we understood the material that she was teaching. She is an amazing professor, and I would take any class by her as she is very clear and concise over what she teaches. Plus she gave us stickers with every exam we took. Something so miniscule yet so uplifting that I appreciated and looked forward to after every exam.
(Hannah Gauthier) This course was a fun course and learned a lot of interesting things that I did not know before about all sorts of animals diets.
(Hannah Gauthier) I love this professor she is so smart and obviously cares so much about this class. Her reviews were helpful and I never felt uncomfortable asking a question. 10/10
(Hannah Gauthier) I really liked the professor's enthusiasm about the subject material. It made class really fun. Also, being really open to questions is a plus. The reviews were great, but I preferred the online reviews over the in-class reviews. One think i would suggest to work on is pacing. Some topics went by way too fast and other too slow.
(Hannah Gauthier) This course was fantastic. I learned a lot, and I really appreciated the hands on learning during the lab with the goats. Ms. Gauthier was also very helpful. She was very knowledgeable about the material too, so it was fun and interesting to attend lecture.
(Hannah Gauthier) None
(Hannah Gauthier) I really enjoyed this class and Dr. Gauthier is a great professor.
(Hannah Gauthier) For the exams I would say to keep how you assigned the homework to be our sample questions as well add concept sheets because all this really helped to prepare for the exams. Overall I really enjoyed your class and hope you have great holidays.
(Hannah Gauthier) Occasional late uploads of lecture slides.
(Hannah Gauthier) Professor Gauthier is an amazing professor and gives lots of opportunity for real learning, not just memorization.
(Hannah Gauthier) Slow down when teaching and have other grades along the semester instead of just exams.
(Hannah Gauthier) Ms. Gauthier is a wonderful instructor. She listens to her students and discusses topics we want to hear about within the course, explains things in such a way that is not intimidating or hard to understand, and recognizes that we are new to the concepts shes teaching, and doesn't pressure us to remember every detail of the lecture. Her quizzes and tests are set up so great, and I feel that my success in this course is primarily because of her kindness, willingness to help, and patience. I mentioned in class once that I had a gluten allergy and a few class periods later when she brought some snacks for us to read labels on, she brought a gluten-free snack specifically for me. She is truly one of the best instructors I have ever had. Never change Ms. Gauthier!!!
(Hannah Gauthier) N/A
(Hannah Gauthier) Loved this course and the way it was taught! Such a wonderful professor :)
(Hannah Gauthier) Mrs. Gauthier was an incredible teacher. She ensured that all questions were answered and the material was understood by the class. She thoroughly explained all of the material and provided many examples and explanations for everything. She also provided study reviews for exams and set all students up for success for her class. I would definitely take another class by her in the future.
(Hannah Gauthier) Very fun class to take
(Hannah Gauthier) She was very helpful and information was educational.

(Hannah Gauthier) I loved this class! The method of teaching was effective as it allowed time and patience for absorbance of material without high intensity and extreme stress.
(Hannah Gauthier) Hannah is a very good teacher. Very understanding and informative.
(Hannah Gauthier) I really liked the set up of this course and how the course was taught.
(Hannah Gauthier) I have really enjoyed this class. Ms. Gauthier was an amazing instructor and I have loved taking her class.
(Hannah Gauthier) Really enjoyed taking this class. Flexibility with life was really nice and a humane response. I also loved the study guides and willingness to help or offer suggestions
(Hannah Gauthier) I think in the following summer courses and maybe even the regular spring session, there should be less tours taken. I believe that it would have been far more beneficial for us to only go on 2-3 dairy tours and then go to gandys. Even though the dairy's have things to offer, it seemed to get repetitive. I think the all short answer exams with VERY specific questions could be tweaked. I don't know how everyone else feels about them but I stayed up for three nights in a row studying all of the power points and my notes and i still failed. I loved this class and I will recommend it to all of my friends!
(Hannah Gauthier) Initially, I felt like the class was trying to cover way too much material in too short of time, but once we started to get into new material, I appreciated how quickly you went through the reviewed information from principals of nutrition. I really enjoyed learning how to formulate and balance diets, and wish we could have spent a little longer on that section and gotten to the section on balancing multiple nutrients. This information was all completely new to me and is actually extremely relevant (I even went home and calculated the exact amount of energy needed for my cats!) My cats also appreciate your class because they loved the fancy boutique cat food you let us take home to try :)
(Hannah Gauthier) Good class
(Hannah Gauthier) I have greatly enjoyed this class and feel as though I have gained useful knowledge.
(Hannah Gauthier) Love your reviews! I also like how you accommodated some of us. Overall one of the best instructors at TTU I've ever had.
(Hannah Gauthier) Hannah is one of the nicest and most understanding professors I have ever had. She is also a great professor who makes class interesting and an easy learning space. The class is perfectly paced and the work is just enough to review what you learn.
(Hannah Gauthier) I feel that Professor Gauthier has done a very good job as a teacher this semester. I enjoyed the course a lot, and her encouragement on exams and the like was very nice and spurred me to do better. I think that she may move a little fast during presentations, but not too bad. I also wish there were some more opportunities to supplement the grade other than just the exams and the essay at the end of the semester.
(Hannah Gauthier) Everything was presented in a easy to learn format, if there were questions Mrs. Gauthier went above and beyond to make sure the information was understood
(Hannah Gauthier) I really enjoyed taking this course! Dr. Gauthier is a really concise and helpful professor, she has always been extremely nice whenever I had any questions and she taught this course very effectively. She also made sure that we stayed safe during dissection lab sessions.
(Hannah Gauthier) I looked forward to this class everyday!
(Hannah Gauthier) Great Class
(Hannah Gauthier) Loved this class, the lab part was very well handled to where everyone can learn and see everything
(Hannah Gauthier) Overall really enjoyed this class and she always made sure to provide ways for her students to succeed.
(Hannah Gauthier) Had a great semester!
(Hannah Gauthier) N/A
(Hannah Gauthier) Professor Gauthier is always ready to help her students and work around any issues!

(Hannah Gauthier) The course was taught well and she was always super helpful and flexible. Great professor!
(Hannah Gauthier) Professor Gauthier is one of the nicest professors I've had. Truly loves what she teaches and wants her students to succeed in the class. Very understanding when you are struggling to do something.
(Hannah Gauthier) hard class but taught well. super sweet teacher
(Hannah Gauthier) Hannah Gauthier presents the lecture extremely well, and helps anyway she can in both, lecture and lab
(Hannah Gauthier) I loved this course so much. It was a wonderful learning experience and I was so excited to learn all of this material and be able to get hands-on experience as well and have it link up so well with the lectures.
(Hannah Gauthier) Thank you for having reviews and going over everything that's on the test. Also, thank you for being a kind teacher. I learned a lot!
(Hannah Gauthier) The instructor followed her rubric to keep the class well organized and got all learning requirements complete before the end of the semester.
(Hannah Gauthier) Hannah is very helpful one-on-one, but sometimes hard to follow during lecture. A lot of material is covered during class, but think I would've learned better if she spoke a bit slower. Overall, really enjoyed her and her class!
(Hannah Gauthier) Very sweet. Never had a problem with her she's a great professor!
(Hannah Gauthier) ABSOLUTELY an amazing class and teacher. She would offer extra credit if we needed it and if you didn't understand something she would take time to explain it until you understood it. After your tests she would allow you to go through and see what you did wrong and explain it to you.
(Hannah Gauthier) Professor Gauthier is one of the most influential teachers I have had the pleasure of learning from. She did amazing teaching this class and always made sure that everyone understood the material.
(Hannah Gauthier) I liked the structure of this course. It was slightly confusing at first to have lectures that didn't exactly follow or match the textbook/workbook. I wasn't sure which definitions to focus on, but the quizzes for each chapter were helpful to study. The lab exam reviews were very helpful. The overlay project was a great study tool. I appreciated office hours and the willingness of Professor Gauthier to help students if they were confused or had any questions. The only criticism I would offer is the instructor talking slightly fast during lecture, but she improved throughout the semester. Overall, I learned a lot from this class and enjoyed it.
(Hannah Gauthier) I really liked the structure of this course. The exam reviews were very helpful. They were broad enough to not give the exact questions on the exam, but specific enough to focus more on certain topics while studying. I appreciated office hours and the willingness of Professor Gauthier to help students if they were confused or had any questions. I also liked that Professor Gauthier would review my paper to give me feedback on the rough draft before I turned in my final draft. I really appreciate the non-cumulative final exam. The only criticism I would offer is the instructor talking slightly fast during lecture, but she improved throughout the semester. Overall, I learned a lot from this class and enjoyed it.
(Hannah Gauthier) She was really helpful throughout the course.
(Hannah Gauthier) Amazing professor.
(Hannah Gauthier) Professor Gauthier is a very kind and knowledgeable teacher. I did not like the format of the exam reviews. They were not helpful, and I found it incredibly difficult to study for the exams.
(Hannah Gauthier) I enjoyed that Hannah related the anatomy we were learning to real world uses and how she gave us a broad understanding of a large array of anatomy instead of getting too specific in topics that were not applicable to the real world.
(Hannah Gauthier) Hannah was a great professor. She went very in depth but always made sure that no student was left behind and did many practice problems and examples to help us. Personally, I wish there were more points in the class, as it is very hard to recover from a bad test. I was doing pretty well on all my tests, did bad on one and that might drop me a letter grade. If anything, she should have attendance for class, as many people seemed to skip, despite the fun and engaging lectures.
(Hannah Gauthier) Everything that was needed to succeed was given to us, great professor.

(Hannah Gauthier) Really good class, one of my favorites so far.
(Hannah Gauthier) Great professor and great course!
(Hannah Gauthier) I have loved everything about dairy production! The field trips have been a great addition to the class and I have loved getting to be hands-on and see a dairy operation up close. Dr. Gauthier has done an excellent job at teaching and if I could I would take her class over and over again.
(Hannah Gauthier) The course was very interesting to me and I always looked forward to labs.
(Hannah Gauthier) Very informative, flexible, and structured and taught the material very well.
(Hannah Gauthier) You did a phenomenal job teaching this class. I really enjoyed having assignments and attendance as our grade and not testing us on anything!
(Hannah Gauthier) I really enjoyed this course and I thought that it was taught very well.
(Hannah Gauthier) Not only did I love learning the information in this course, but the professor was amazing. She is such a nice person and did an amazing job teaching the information. I will remember this information for a long time.
(Hannah Gauthier) This was one of the most pleasant courses I took this semester. I enjoyed the coursework as well. Overall good layout, and the professor was excited to be teaching the subject.
(Hannah Gauthier) I really enjoyed this class! Hannah was such a good instructor and really tried her best to help you and connect with her students.
(Hannah Gauthier) Hannah is a fantastic instructor, I could not have asked for a better teacher for this course. Her knowledge exceeded my expectations for this course. Extremely helpful when things were going on in my life and I could not make it to class. I thoroughly enjoyed this course, and its material, it will definitely improve my knowledge for my future as a veterinarian!
(Hannah Gauthier) Hannah is a great instructor!! She was always super helpful with any questions I had.
(Hannah Gauthier) Ms. Gauthier is a fantastic instructor, she provides all the resources and helps necessary to make an A in her class/es. I could not have chosen a better class to take this summer.
(Hannah Gauthier) It is super hard to know all of the information but was my favorite class of the semester. The lab was super fun as well.
(Hannah Gauthier) Mrs Gauthier done an awesome job throughout the semester working with student, and effectively providing knowledge about animal nutrition.
(Hannah Gauthier) I wished there were more assignments rather than just quizzes to help boost grades.
(Hannah Gauthier) This was class I was scared to take; however, Ms. Gauthier made this class fun and the material easy to understand. She helped make this class one of my favorites!
(Hannah Gauthier) I love this class a lot. The information was interesting and the teacher was super nice!
(Hannah Gauthier) This was my favorite class this semester and it was a very valuable learning experience. Hannah did a great job teaching this class.
(Hannah Gauthier) Loved this class, and how professor gauthier was always willing to go out of her way to help her students, by far one of my favorite insructors.
(Hannah Gauthier) Mrs. Guthier was a very good teacher! She was patient and understood that some of us may not know the topic well.
(Hannah Gauthier) She was an amazing teacher that truly cared about what she was teaching and wanted the students to be successful. I always loved when she got really excited to teach us new information or even just a fun fact.
(Hannah Gauthier) Professor Gauthier is great! She teaches in a way that everyone can understand, even if they do not have an Ag background. She is also very understanding and will accommodate to the needs of her students. I would definitely take another class with her!

(Hannah Gauthier) I loved this class. Professor Gauthier makes the class very fun and educational. This course equips you with a better understanding of the landscape of the animal science world how to take steps to really push forward into this career path. I feel more confident not only in my pursuits to work in the animal science field, but also in my confidence in the future workforce. I have more experience in resume skills, interview confidence, and communication/social developmental skills pertaining to company hirers.
(Hannah Gauthier) She is my favorite instructor I've ever had. She makes class so interesting and teaches what we would like to learn. She listens to students and answers questions effectively. She prepared you well for tests and gives great world examples.
(Hannah Gauthier) Mrs. Gauthier has been my best instructor here at Tech. It is evident that she genuinely cares about her students and the content she teaches, and she always makes herself available for any student who may have questions. I feel that I have learned a lot of valuable information that I can take with me into my career and even my personal life.
(Hannah Gauthier) One of my favorite professors!
(Hannah Gauthier) I thoroughly enjoyed having her as an instructor
(Hannah Gauthier) I absolutely loved this class; Hannah was an amazing professor that cares about not only her students but her career! I would definitely recommend this class to anyone and Hannah as a professor!
(Hannah Gauthier) Dr. Gauthier was an amazing professor this year, and I really wish I was able to take her again.
(Hannah Gauthier) I genuinely loved this class, Prof. Gauthier was amazing and if I could retake it 10 more times I would!
(Hannah Gauthier) I really enjoyed the class!!!
(Hannah Gauthier) The course was well organized and the professor was extremely helpful and interested in the learning experiences of the students!
(Hannah Gauthier) N/A
(Hannah Gauthier) I love Hannah! She's a great teacher and explains all topics so well! She gives many examples in class that relate to the topics and make it easier to learn. Her labs are amazing and we got to do many great tours in this class!
(Hannah Gauthier) I enjoyed this class very much, I do think that adding smaller assignments throughout the semester would be much more effective to retain the information presented and prepare for the exams.
(Hannah Gauthier) I loved this class so much! I ended up changing my major mid-semester and was told I could drop since I didn't have to take "such a hard science," but I didn't want to! This class is so interesting, and with the right amount pf studying, you can pass! Dr. Gauthier was incredible all year long and such a fun spirit to be around. She was always more than helpful and accommodating - and never let us leave confused. I would highly recommend this class to others! Perfect balance of learning, work, and fun!
(Hannah Gauthier) N/A
(Hannah Gauthier) Very good teacher and willing to help.
(Hannah Gauthier) She made my first semester in college enjoyable even though her class is a bit difficult because there is a lot of information to learn. I enjoyed the class and most of all her as a professor.
(Hannah Gauthier) Great learning experience
(Hannah Gauthier) One of the best professors I've ever had. Her lessons were very clear and she got back to my emails very fast.
(Hannah Gauthier) Very helpful class
(Hannah Gauthier) Professor Hannah was great at going to each table and going over each item we learned in a goats anatomy.

(Hannah Gauthier) This course was one of the best courses I enjoyed taking this semester. I was always happy to attend this course/lab because I knew I was going to learn something new. I highly will recommend others to take this course with Professor Gauthier.
(Hannah Gauthier) Great instructor
(Hannah Gauthier) Great teacher
(Hannah Gauthier) This was a very fun and interesting course. The teacher was very positive and fun to be around.
(Hannah Gauthier) i loved this course! Hannah is my overall favorite professor to have for classes, the tours were fun and interesting to learn all the different ways dairy farmers run there farms! i will for sure recommend this class to my friends who still need there production classes.
(Hannah Gauthier) This class was really helpful to me as I am preparing to start looking for jobs and apply to graduate schools. Your advice was really helpful overall and I feel much more prepared to graduate. Great job!
(Hannah Gauthier) You were an amazing teacher, thanks again!:) )
(Hannah Gauthier) Very helpful class and teacher!
(Hannah Gauthier) Instructor was extremely nice and helpful!
(Hannah Gauthier) I really liked the way this class was ran
(Hannah Gauthier) I would have liked this course a lot more if it wasn't for the Long drives to farms just for a tour. I found it very inconvenient having to rush from a class right before this one to make it to a farm tour.
(Hannah Gauthier) I absolutely loved this course and everything that came with it. Ms. Gauthier is an excellent instructor and is very thorough when teaching.
(Hannah Gauthier) Hannah is great at lectures and making sure we understand the information she gives us. Applying what we learn to real life scenarios in class is very helpful.
(Hannah Gauthier) All the material is straight forward and Hannah does a great job teaching it. She is a fantastic teacher!
(Hannah Gauthier) The format that is currently in place, helps furthering looking back over material. Material being homework, check in questions, and exam reviews.
(Hannah Gauthier) Hannah is the best! She is very flexible and truly cares for her students! She is one of my favorite professors and I thought she did a great job teaching the course, and enjoyed the structure of the class. Coming into the class with no dairy knowledge or background, she taught thoroughly and labs were so cool! I really enjoyed this course much more than I anticipated because Hannah made it personable and easy to learn!
(Hannah Gauthier) This class helps me what I'm gonna do in the future with my degree and there is a lot of good opportunities out there for myself, so I'm glad I took this class because I know a lot more what I'm gonna go into when I'm done completing my bachelors degree
(Hannah Gauthier) It was a good course I loved the way she taught it.
(Hannah Gauthier) this class was very effective
(Hannah Gauthier) I think that the course is good, Hannah could use a little help with understanding more of the vet school process. I think it would be beneficial if we had more guest speakers.
(Hannah Gauthier) I loved this class because I felt like it actually prepared me for life outside of college. It helped me to think of backup plans if need be and how to prepare for work.
(Hannah Gauthier) N/A
(Hannah Gauthier) The professor was incredible and was very passionate about her class.

(Hannah Gauthier) Overall this course was well taught and lecture materials were very clear and precise. Class assignments were very simple and easy to understand. Also the professor was willing to answer any questions. All in all great class.
(Hannah Gauthier) The instructor was so kind and really cared about what was being taught. However, the tests were very complex and went far past what we learned in class. Class would be more effective if we did learning activities together, made it more hands on, and the tests were not as subjective.
(Hannah Gauthier) Clear, easy to understand teaching was provided all semester.
(Hannah Gauthier) It's my first semester at this campus and professor Gauthier was the only professor that made me feel welcome and made it feel worth it. She has what a lot of other professors lack and it's a passion to work with the students and ensure they're learning the material.
(Hannah Gauthier) this class helped me with getting my foot in the door for research and everything I need for vet school
(Hannah Gauthier) I thoroughly enjoyed this course and found it to be a valuable learning experience. The instructor was approachable, willing to help students, and was enthusiastic about the concepts being taught. I appreciated the clear expectations she had of her students, the teaching style she employed (asking questions throughout the lecture, reviewing important concepts at the beginning of class, etc.), and that she sought mid-semester feedback to improve our learning experience. I also appreciated that the course was taught based on lecture content only (no textbook), and found quizzes and exams to be a fair and accurate assessment of my knowledge of concepts.
(Hannah Gauthier) This is my second class with Ms Hannah and she is one of my favorites for sure! Very passionate about what she does and always such a joy to be in one of her classes! She always ready to help and give advice not just inside but also outside of the classroom! She is one of those people that leaves you with a message for life helping you shape your life! Thanks Ms Hannah for another great semester!
(Hannah Gauthier) Hannah was a great professor. She really helps set her students up for success for after college.
(Hannah Gauthier) I did like this class. Hannah truly is a good teacher and seems to care about her students. The only thing I would mention is that I found the dairy tours informative but they were all very repetitive and I did not feel like I was learning as much from the farms. In the future it might be more beneficial to do farms that were more diverse. I would recommend the Red Rocks Dairy tour though. It was a super informative tour and the guy that gave the tour was really good!
(Hannah Gauthier) She is a good professor and explained the material well
(Hannah Gauthier) Loved the class and the professors were understanding.
(Hannah Gauthier) She is very good at what she teaches, and you can tell she is very passionate about helping students learn.
(Hannah Gauthier) I had the chance to write and workshop documents that I'll surely use as I apply to schools and jobs, and this class was excellently taught and very informative.
(Hannah Gauthier) Great personality and always willing to help
(Hannah Gauthier) There was no grading rubric for this course I received one grade that I feel like should have been better and I proved that if there was a rubric in place I would be easier as a student. Rather just grading based on opinion.
(Hannah Gauthier) I really enjoyed Gauthier in past classes, but this one seemed like a waste, being I had to take a similar class a year ago.
(Hannah Gauthier) Very outgoing and welcoming.
(Hannah Gauthier) I learned a lot of useful information from this course that I expect I will actually use in my day to day life.
(Hannah Gauthier) This was very insightful to what I need to be prepared for in the coming years.
(Hannah Gauthier) She is so passionate about what she teaches it allows learning to be fun again.
(Hannah Gauthier) This class was very beneficial to be given time to work on resumes, core letters, and personal statements, and being able to do peer reviews was very beneficial. The instructor was able to relay important information that might not have been the easiest to give, but she did a really good job and I enjoyed the class.

(Hannah Gauthier) Hannah is a wonderful instructor. She made the course no more difficult than it should be. Her lectures and assigned work were immensely helpful for our futures. Every assignment we completed was applicable to things we will need to complete during the course of our careers.

(Hannah Gauthier) This course was good for me to learn things that were not shared with us from high school or parents to help us in the future

(Hannah Gauthier) It is always a pleasure to have Ms. Gauthier as a teacher, she explains all concepts very well and is very caring. Accessible outside of class, and in class.

### **Distance learning comments**

(Hannah Gauthier) Hannah did a very good job as an instructor and was very helpful when needed. Was willing to answer questions and help out in any way possible. Overall a very positive experience, only negative I have is the way in which the lab practical is ran and there not being a word bank or some sort of assistance. But I don't believe she had anything to do with requirements such as those.

(Hannah Gauthier) I loved it and great lectures and lab was fun!

(Hannah Gauthier) I loved this class! It was just very hard to learn everything for the practicals since we only meet once a week and by the time the practical comes, its hard to remember something we went over 4 weeks(+) ago. It would help a lot if in the future there was more time to go over the practical reviews before hand, like in person. The times to go in person and study don't work for everyone.

(Hannah Gauthier) Ms. Gauthier was great. She really helped me understand the material and was very personable.

(Hannah Gauthier) I had problems signing into the GRL Content website all semester long. Ms. Gauthier did allow me to take the quizzes in person which helped significantly.

(Hannah Gauthier) This was one of the most enjoyable classes I have ever taken! You were a great instructor for this course.

(Hannah Gauthier) N/A

(Hannah Gauthier) I loved this class and Professor Gauthier was an amazing teacher, I feel like I learned more this time around.

(Hannah Gauthier) Excellent professor! Had a great time in this class!

(Hannah Gauthier) i enjoyed the class

(Hannah Gauthier) While this is known to be a difficult course I think Ms.Gauthier did a good job. I do wish we would have a more interactive and in-depth recap at the beginning of the lab to greater understand what we would be directing and identifying that day. Another great thing that could be done with this would be the instructor having pictures available of the structures for study. With other courses and time commitments, it is very hard to study structures that you only are able to see live once a week.

(Hannah Gauthier) I really enjoyed this class! Professor Gauthier is an amazing Professor and I learned a lot from this class!

(Hannah Gauthier) Professor Gauthier is very sweet and easy to approach. Allowed students to makeup any missed quiz assignments was great so that we could get all our points. I appreciate being able to have open book on all the quiz ez. Online lecture were very informative and easy to follow. The lab portion of the class was always fun. Also, online lectures correlated perfectly with the lab portion of the course. If I could take any other of my major courses with her, I would in a heart beat.

(Hannah Gauthier) She was great

(Hannah Gauthier) n/a

(Hannah Gauthier) I thought this class was taught very well. Of course I would have preferred to be in-person for lectures rather than using the hybrid format, but I was still able to learn anatomy well over the computer. Thanks Professor Gauthier!

(Hannah Gauthier) The midterm for this class took as all by surprise as it was never clearly stated what all it would entail.

(Hannah Gauthier) I HIGHLY recommend Prof. G!!! She is so cool and super nice. She really knows her stuff and is an excellent instructor.

(Hannah Gauthier) It was very helpful that gave us those review labs before our test! It really did help with the muscle system for the mid-term.
(Hannah Gauthier) Hannah did a great job teaching the class. It was fun to come to class and very enjoyable.
(Hannah Gauthier) I really enjoyed this course and I learned a lot that I will be able to take with me in the workforce once I graduate.
(Hannah Gauthier) N/A
(Hannah Gauthier) I appreciated how understanding of any circumstances and was willing to work with you.
(Hannah Gauthier) You did great this year teaching! I wish you the best of luck next year! I did wish we went over the the slides in lab more like the honors professor does. She did address the overall part of the slides that we needed, like the specific structures and just a little more background knowledge. I did see that every lab that your hands were shakey, and I hope over time you aren't as nervous because you are a great teacher, and explain things very well. We are just kids and most of us want to learn, there are some that are just there, but those that do want to learn want you to be comfortable and confident in what you are teaching us. I thoroughly enjoyed your class this semester. I appreciated your lectures and recordings on there. Like I stated before, maybe just a quick over view of the slides and structures before class. I know there were times I hadn't watched the presentation and an overview before class would've given me a lot of understanding during the dissection.
(Hannah Gauthier) Her class was awesome! So interactive and I feel like I learned a lot from her!
(Hannah Gauthier) She was literally the nicest professor I've ever had! Super encouraging and gave great feedback.
(Hannah Gauthier) Hannah Gauthier was very quick to respond and help with anything I needed throughout the semester. I really enjoyed having her as my professor!
(Hannah Gauthier) Very helpful and easy course!
(Hannah Gauthier) Really enjoyed the class!
(Hannah Gauthier) By far my most enjoyable class this semester. The professor is so sweet and the TA's are very helpful. Not a difficult class if you keep up with the lecture videos and you pay attention in the labs.
(Hannah Gauthier) My first time having class on campus was definitely fun, only hard part for me was going to the study sessions, as my schedule was tight with my other classes and traveling to Lubbock.
(Hannah Gauthier) This was my favorite course I've taken so far since I've started at TTU. The professor was incredibly helpful and communicative. I liked that we were able to work at our own pace, and there were plenty of opportunities to spend more time studying in the lab if we wanted. I wouldn't change anything about this professor or this class.
(Hannah Gauthier) Dr. Gauthier's class was so fun this semester! Cutting open and looking at the goats was super helpful in learning and understanding anatomy. I do wish that we went over some of the topics in lab a little bit more in depth. We had lectures online, but it would be nice to hear the information again briefly before starting the lab.
(Hannah Gauthier) Ms. Gauthier is an amazing teacher and even better human! Really enjoyed my time in her class!
(Hannah Gauthier) Great job
(Hannah Gauthier) Great job
(Hannah Gauthier) Absolutely one of my favorite professors. I really clicked with how she teaches her material.
(Hannah Gauthier) The class itself is pretty difficult, considering the midterm and final are so hard, but it is easily my favorite class. The information is applicable and I love being so hands on. The instructor was extremely sweet and did everything she could to help students succeed. I would take this course again.
(Hannah Gauthier) One of the best professors I have had so far and one of my favorite classes.
(Hannah Gauthier) Loved having her as a professor and her teaching methods were very easy to understand. Overall, one of my favorite classes that I had this semester.

(Hannah Gauthier) She helped with me a lot. I respect this professor and think she was amazing.
(Hannah Gauthier) Honestly, Mrs.Gauthier is one of the best and most understanding teachers I have ever had. I may have struggled due to personal issues, but overall her class was wonderful.
(Hannah Gauthier) great lab assistants.
(Hannah Gauthier) My favorite professor!! She was the best!!
(Hannah Gauthier) Ms. Gauthier was one of the most beneficial instructor I've had during my time at Texas Tech. The course was the right amount of informative and effective due to the instructor. Ms. Gauthier put her students first and kept the class informed in a timely manner the entire semester. She is a really great instructor and understanding, she offered many aids in learning anatomy and I can't say I would have learned as much as I did with anyone else. She was always available for questions and the best part was she was knowledgeable about all that I asked. Highly recommending her to anyone that is needing to learn anatomy.
(Hannah Gauthier) Hannah is a great professor and is both knowledgeable and helpful. Really cares about the success of the student.
(Hannah Gauthier) The class was great, the only thing is since I think a majority of people in there were pre-vet, if you could add case studies that would be cool! Otherwise I really enjoyed that class!
(Hannah Gauthier) Dr. Gauthier has been one of the nicest teachers I've had here at Texas Tech. She made anatomy fun!
(Hannah Gauthier) I really enjoyed this class. I wish the lectures could have been in-person because I think it may have been easier to absorb the information. I think that for the lab portion going over the dissection a little bit more before we actually do the dissection would be helpful. I think that you did a very good job explaining everything.
(Hannah Gauthier) Y'all need to do student evaluations of advisors.
(Hannah Gauthier) Overall one of my favorite classes I have taken so far!
(Hannah Gauthier) Hannah Gauthier is an excellent instructor who goes above and beyond to ensure that her students are successful in her course. She is kind and understanding when it comes to extenuating circumstances that a student may experience. She will work with any student to make sure that they are getting the most out of the course at any given time.
(Hannah Gauthier) very well handled. she was very understanding and wanted her students to succeed in class. offered office hours every week and didnt need to sign up for a specific time. did very well with what was given this year especially with covid and the whole distance learning curveball.
(Hannah Gauthier) Made an incredibly tough class fun and informative. Really enjoyed this class with her.
(Hannah Gauthier) I think you did a great job teaching this class for the first time! I really appreciated how you didn't expect us to know every little thing and how you were very understanding. I also thought that the anatomy project was a great idea and fun to do.
(Hannah Gauthier) Ms. Gauthier was a wonderful teacher and was always there and willing if we needed help with something. She kept her in-person classes active and engaging. I would recommend anyone to have her as a professor.
(Hannah Gauthier) Dr. Gauthier was a very kind and understanding professor. I am on the meat judging team and had to miss several labs and exams due to being out of town, but she actively worked with me and my schedule and I never had to stress. I have also attempted to take this course last fall semester when this class was not online and obviously, I'm taking it again now, and I have to say I really enjoyed the lectures for this course being online. Hannah did an amazing job! and it made studying and taking notes at my own pace a lot easier!! I remember last semester sitting in lecture very overwhelmed because it was very hard to take notes over everything bc she went so fast to try to get all of the material in one lecture a week. One thing I will say to improve is maybe having the lecture quizzes due on a different day because sometimes sense they were due Tuesday I would forget, but of course, that's my own fault but it would help!
(Hannah Gauthier) Ms. Gauthier has been a great professor. She works with her students to give us the best chance possible to be successful in her class. The only note that I would give to her is to not be afraid of telling students to be quiet when she is speaking or to just speak louder.

(Hannah Gauthier) Great Class!!
(Hannah Gauthier) The class was very interactive and educational.
(Hannah Gauthier) Enjoyed the class. The instructor is very accommodating and is knowledgeable. Her online lecture was easy to navigate and understand. Her lecture slides were more interesting and clear than the textbook. I would have preferred an in-person lecture, especially since I do not thrive in asynchronous lecture watching. But I understand that with COVID it was not an option. The lab was a lot of fun, I learned many interesting things from it.
(Hannah Gauthier) Dr. Gauthier is a truly passionate and kind professor. She is always accommodating and truly wanted to help her students be successful in the course. I do wish there were additional review opportunities before the practicals but overall this was a very good course that I would recommend.
(Hannah Gauthier) Best teacher!!! Helps so much and has open labs so you can come in and study!She works with you! Her TAs were also a great help.
(Hannah Gauthier) Best professor I've had since being at Tech, it's not an easy course and a lot of material but at no fault to the professor. She was accommodating & more than willing to help in any way she could.
(Hannah Gauthier) Loved this class and loved this teacher. Hannah was great!
(Hannah Gauthier) Professor Gauthier was very effective in explaining subjects and provided many resources and opportunities to get extra help.
(Hannah Gauthier) NA
(Hannah Gauthier) Thanks for a wonderful semester!
(Hannah Gauthier) She was great!
(Hannah Gauthier) Honestly Hannah feels like one of those professors that actually cares.
(Hannah Gauthier) Excellent class, she was very willing to teach and explain things and worked very well with us as students.
(Hannah Gauthier) Lots of effective study sessions were available to students that needed it, so I appreciated that, I wish the lecture was in person... I feel I would have appreciated the class more that way.
(Hannah Gauthier) Great professor made the class very valuable
(Hannah Gauthier) I absolutely loved this class! I feel a lot more prepared for vet school thanks to Dr. Gaunthier. I can also tell she truly loves what she does.
(Hannah Gauthier) Overall this class was a fun interactive class. The professor was easy to understand as well as the materials were. This was very informative and hands-on.
(Hannah Gauthier) She was great.
(Hannah Gauthier) She is one of the best professors I have had so far!
(Hannah Gauthier) Hannah is absolutely phenomenal. I took human anatomy prior to this class and I feel that this course has taught me more and I feel more confident in anatomy now than ever. Hannah does an incredible job of explaining topics in terms that I understand and helps all of her students comprehend the topic.
(Hannah Gauthier) Anatomy class this semester was a class I always looked forward to. I learned so many things from this class and I truly feel like I got what I paid for which I can not say about some classes. The professor was amazing and she was always willing to help us succeed. I hope to take another class with this professor if possible.
(Hannah Gauthier) The teacher was very kind and offers many opportunities to learn the material. She makes it very easy for us as long as we pay attention in class, which isn't hard to do because the lessons are engaging.

(Hannah Gauthier) Hannah is an amazing professor! She knows what she is talking about and can explain very thoroughly when the students are confused. She will complement our work and give us constructive criticism in the nicest way. Being in her class/labs brings out my happiness to learn about the course. I would most definitely recommend her to have as a professor to other students!
(Hannah Gauthier) the instructor was very helpful within lab and the TAs were really good at helping with questions and quizzing students to help solidify understanding.
(Hannah Gauthier) HANNAH IS THE BEST EVER! There is not anything that could have made it any better 1000/10
(Hannah Gauthier) Dr. Gauthier is a wonderful professor who provided amazing instruction as well as adequate supplementary materials.
(Hannah Gauthier) Professor Gauthier did a great job instructing this course.
(Hannah Gauthier) n/a
(Hannah Gauthier) I loved this class. I loved the hands-on learning and clear explanations from Gauthier. I do think that students should be warned more about the first exam. It is my fault for not studying enough. However, with how well I was doing during the class review, I did not expect the first exam to turn out so poorly. Perhaps a few practice exams?
(Hannah Gauthier) loved this class and the professor. very informational and helped me gain a better understanding of anatomy. loved the lab, was very involved and was thankful for the opportunity.
(Hannah Gauthier) This is by far one of the best classes I've taken while in college. It satisfied my want to get closer to my future and major. The lectures were so interesting and well taught. I really enjoyed this semester thanks to this class. The only thing I would suggest putting out the videos and quizzes later while making them due the day of or the day before the lab. When watching and taking the quiz early I would forget about a few structures or functions by the time of the lab.
(Hannah Gauthier) course was interesting and informative.
(Hannah Gauthier) Loved the class and I learned a lot! Great Professor.
(Hannah Gauthier) Overall, Dr. Gauthier was an outstanding teacher. In my lab there was no TA's and she never got stressed and handled it with class. I didn't know how much the TA's helped teach until I attended another lab time and saw. She always works with me if I either couldn't make it to lab or had questions about the quizzes.
(Hannah Gauthier) Having the lectures posted to black board was extremely useful in terms of replayability, pre-lab prep, note-taking, accessibility for study, and time, waking up at 9am for lecture would be difficult.
(Hannah Gauthier) I really enjoy this course about learning all the unique stuff about the animals and the anatomy of the animals and it really helps me learn about about when I'm gonna get into the future with surgery
(Hannah Gauthier) Great class, Learned a lot.
(Hannah Gauthier) Thank You!
(Hannah Gauthier) One of the best professors I have had at Tech so far. She truly is a great teacher and I really enjoyed her class.
(Hannah Gauthier) I really enjoyed this class, the professor did an amazing job and it was really enjoyable.
(Hannah Gauthier) Overall a really great instructor, very kind and offered a lot of practice sessions to prepare for our practicals.
(Hannah Gauthier) Great instructor and very helpful TAs
(Hannah Gauthier) I really liked the way this class was ran
(Hannah Gauthier) I absolutely loved Hannah and that helped make this class significantly more enjoyable. It's a hard class but worth the effort. I've learned so much.
(Hannah Gauthier) The best instructor I have came into contact with at Texas Tech.
(Hannah Gauthier) Hannah Gauthier was a great teacher. I would recommend this class to anyone if it was taught by her.

(Hannah Gauthier) Difficult but informative.
(Hannah Gauthier) Shes is a fantastic professor! genuinely cares if you grasp and understand the material!
(Hannah Gauthier) I love this course and its professor. I learned a lot of information and it was fun and exciting!
(Hannah Gauthier) Hannah is a great professor! She is very knowledgeable in this field and I appreciate her learning style. The online quiz to test our knowledge, and followed by the lab the quiz was based on was great.
(Hannah Gauthier) This was a great class
(Hannah Gauthier) This class was awesome. Our professor made time to help the students out any time we needed it. She offered extra study sessions almost every week and was also available over email whenever I needed her. The class was instructed very well and was super informative and interesting. All of our TA's were very helpful as well.
(Hannah Gauthier) Hannah did a great job making lectures interesting and informative. The labs were a great learning experience and I am very happy to have taken this class with her.
(Hannah Gauthier) Hannah is a great professor this class is challenging but she really goes into depth and explains the subject well. She really makes this course fun to learn about. I am glad I was able to complete this semester with her and would highly recommend her to anyone needing to take ANSC 2202.
(Hannah Gauthier) During the lab portion of our class, I learned a lot, but by the end when taking our practical, it was very difficult to determine some of the systems she was asking because they were so dried. I think that was the only issue.
(Hannah Gauthier) This class was run very well and the teaching strategies the instructor used were very effective for me.
(Hannah Gauthier) This course was absolutely fun and interesting. Hands on learning is the best.
(Hannah Gauthier) 10/10 LOVED this course and prof. If I could I would love more classes taught by her.
(Hannah Gauthier) Overall great Course and Instructor!! Having more sessions for exams would have been nice. Making them more spread out.
(Hannah Gauthier) This class was amazing. The instructor was passionate about what she taught and made learning fun. The exams were straight forward and we were aptly prepared. The lectures were easy to follow and the quizzes were fair. We had a lot of creative liberty in the overlay project too. Overall, I really enjoyed this class.
(Hannah Gauthier) Professor Gauthier was a great instructor who really seems like she enjoys what she teaches and made every lab fun.
(Hannah Gauthier) She was one of my favorite profs this year and you can tell she really loves what she is doing.
(Hannah Gauthier) I think it may help students if you were to email on outlook about assignments that are due like quizzes instead of blackboard so that its a reminder instead of needing to remind yourself to look at the reminders lol.
(Hannah Gauthier) Hannah has been an incredibly hands on and very great teacher this semester.
(Hannah Gauthier) Loved this proffesor!
(Hannah Gauthier) Great course, one of my favorites!
(Hannah Gauthier) I really enjoyed this class. With my major, I would have normally taken wildlife A&P but am very glad I was able to take this class instead. I learned a lot and liked how the class was structured.
(Hannah Gauthier) The course is quite challenging but it is really interesting and as long as you put in the effort that it requires you will do fine. It is mainly just memorization and I am not a fan of the online lessons but it does make it nice to be able to do it on your own time.
(Hannah Gauthier) Very helpful! I loved her class. Thank you!
(Hannah Gauthier) Hannah was an amazing professor to have this semester. She genuinely wants you to do well and gave so many opportunities to succeed.

(Hannah Gauthier) Very sweet and helpful!!
(Hannah Gauthier) Overall loved this animal science class.
(Hannah Gauthier) Professor Gauthier did a great job of making the material easy to learn and made the labs fun and engaging.
(Hannah Gauthier) Hannah was an amazing teacher that really engaged with the class well. She walked us through everything both in lecture and lab effectively
(Hannah Gauthier) N/A
(Hannah Gauthier) I enjoyed my time with this class. I'm inspired to try and become an LA for this course next fall.
(Hannah Gauthier) Great professor, great class
(Hannah Gauthier) such a cool class to have the opportunity to open up an animal and learning in depth anatomy
(Hannah Gauthier) Ms. Hannah is a great instructor and always willing to help, I really enjoyed her class!
(Hannah Gauthier) Professor Hannah made it easy to access our materials and explained everything in detail.
(Hannah Gauthier) She was a great professor who was great at helping students learn tough material.
(Hannah Gauthier) Hannah was a great professor, I just wish she wouldn't single out students if they didn't know an answer to her question. It would be much more appropriate to tell the student they're expected to apply themselves more instead of humiliating them in front of their group and the TA's. Situations such as these make students never want to show up to class again.
(Hannah Gauthier) Amazing instructor!
(Hannah Gauthier) My favorite teacher and class by far! So helpful and so knowledgeable!
(Hannah Gauthier) The textbook should not be required.
(Hannah Gauthier) An amazing, helpful class. I have never had an instructor who so clearly demonstrates and teaches a topic. I have had similar anatomy classes in the past and none of them have been as educational as this one. The instructor is one of the best educators I have ever had, who truly takes time to enhance the education of the students. She makes every student feel welcome while guaranteeing they feel comfortable with the information presented. The TA's were also very helpful and willing to follow up if they did not know an answer to a question. I am very thankful for this course.
(Hannah Gauthier) Love this course and the instructor!
(Hannah Gauthier) n/a
(Hannah Gauthier) Makes class very fun. Super helpful, answers all questions, and is very nice.
(Hannah Gauthier) Super fun. You can tell she really enjoys what she teaches. Let us dive deep and explore on our own. She gave us plenty of resources, time and effort into each of us to make sure we understood.
(Hannah Gauthier) Dr. Gauthier is very passionate about her work and made our labs very fun and educational. She was very involved throughout the whole semester and helped any student who needed help.
(Hannah Gauthier) She is an amazing professor and makes sure all her students understand and grasp what is needed to learn in class. She makes sure all her students feel aware what is required of them and creates a confident and interesting learning environment for all.
(Hannah Gauthier) This class was very well organized. Even though there was a lot of material, it didn't feel overwhelming.
(Hannah Gauthier) I loved this class, and she is an amazing professor who cares for her students.
(Hannah Gauthier) Without a doubt my favorite class I've taken at tech

(Hannah Gauthier) i absolutely loved this class she's awesome and super hands on very helpful
(Hannah Gauthier) W professor
(Hannah Gauthier) I really enjoyed this course!
(Hannah Gauthier) Amazing teacher
(Hannah Gauthier) It was fun!
(Hannah Gauthier) Loved this teacher. So friendly and welcomes the chance to answer any questions and interactions. Will be taking her for any future classes.
(Hannah Gauthier) N/A
(Hannah Gauthier) Great class and great teacher!
(Hannah Gauthier) very enjoyable, learned a lot
(Hannah Gauthier) I really liked this class. It was an easy learning process and was fun to hear about the animal and even some human things.
(Hannah Gauthier) Hannah Gauthier is an amazing teacher and an amazing person.
(Hannah Gauthier) She is amazing!! I recommend everyone take Hannah!!
(Hannah Gauthier) This was a really fun class! Ms. Gauthier was great at helping students understand how the anatomy of animals flowed and was always available to ask questions.
(Hannah Gauthier) Great proffessor easy to talk always willing to help if you needed it.
(Hannah Gauthier) Love Hannah and her class. She is a great instructor and she offers great resources.
(Hannah Gauthier) She was a very good instructor and i enjoyed the class. The supplementary material and practice quizzes that were provided were very helpful.
(Hannah Gauthier) Hannah was great and extremely helpful when it came to learning.
(Hannah Gauthier) Hannah has been my favorite professor all year. She answers emails quickly, pushes you academically, and genuinely wants to help when you need it.
(Hannah Gauthier) truly a great professor, she is extremely knowledgeable.
(Hannah Gauthier) She was an amazing professor, and so helpful in lab. Anyone listening to her lectures can clearly see how knowledgeable she is, it's mind boggling. All I have to say is I don't like how there was only 2 exams, so there was a lot of material on each making the practicals extremely difficult.
(Hannah Gauthier) This professor not only taught the class quickly and efficiently she made it fun and enjoyable class.
(Hannah Gauthier) great class
(Hannah Gauthier) Loved the class.
(Hannah Gauthier) Hannah is one of the best teachers I have ever had!
(Hannah Gauthier) The only thing I really was not a fan of was the way that notes were structured, but by the end of the semester I had adapted to the way they were done and was successful.
(Hannah Gauthier) I really enjoyed this course
(Hannah Gauthier) Was the best part of my day!!
(Hannah Gauthier) I loved Hannah, she made anatomy fun and helps her students study a lot.
(Hannah Gauthier) I loved Hannah and her passion for this course. LA Haley was also amazing too.

(Hannah Gauthier) The instructor did a great job in making both the online and lab portions of this class very informative while also making them as low stress for us students as possible.
(Hannah Gauthier) Hannah Gauthier is incredibly knowledgable. She is super sweet. I loved working with the LAs throughout the semester.
(Hannah Gauthier) I loved Professors Gauthiers class and the way she taught this class.
(Hannah Gauthier) I really enjoyed taking anatomy. It was probably one of my favorite classes this semester
(Hannah Gauthier) I loved this class. I love that everything is hands-on for the lab and I love that the TAs are very interactive. I really wish the lectures were online I think I would enjoy this class even more.
(Hannah Gauthier) best teacher ever!
(Hannah Gauthier) Loved her and Teaching Assistants
(Hannah Gauthier) She's great!
(Hannah Gauthier) Great class, great teacher!
(Hannah Gauthier) The Lab is really fun, our class dissected goats and it was a real learning experience. You are able to actually look and feel the body parts of the animal anatomy and learn how each animal is different. This class is easy and fun.
(Hannah Gauthier) Hannah is by far the best professor I have had so far! I think it is tricky to find the fine line between offering the best for your students in order for them to be successful while at the same time not getting walked over or overpowered. She executes it perfectly! all deadlines are made clear, resources needed to be successful are discussed, any miscommunications are handled fairly and justly, and she makes a heavy course easy to take in. SHE DESERVES THE WORLD. - Annabelle Foster
(Hannah Gauthier) NA
(Hannah Gauthier) I feel like we weren't fully prepared with the exams in this class because even lab we were just moving foward and not reviewing things before getting more ahead, which lead to not actually fully understanding the topic first.
(Hannah Gauthier) Great TA's and amazing professor!
(Hannah Gauthier) Hands down my favorite course for the spring 2023 semester. The lectures and slides were very helpful as well as informational. I liked the lab portion of the course because it helped provide more insight for what was taught in the lecture. Hannah is a good instructor and makes helpful comparisons when lecturing.
(Hannah Gauthier) Absolutely loved having Hannah as an instructor. She was very ethical and treated all students as her peers. I loved her attitude throughout the online lectures as well as the in person labs. I hope to have her as my instructor in the future.
(Hannah Gauthier) Very good teacher. Very patient and understanding. I defiantly learned a lot in this class
(Hannah Gauthier) N/A
(Hannah Gauthier) This class was amazing! Great prof, great material, great lab!
(Hannah Gauthier) I was in love with this class! The things I learned and being able to be fully hands on really helped me understand the curriculum! The professor is knowledgeable, kind, and always ready to help!
(Hannah Gauthier) Great class!
(Hannah Gauthier) I really enjoyed Hannah's class this semester.
(Hannah Gauthier) Very hands on and valuable. She taught effectively and thoroughly.
(Hannah Gauthier) Amazing teacher who really knows their stuff and great at explaining.

(Hannah Gauthier) Great class, amazing dissection!
(Hannah Gauthier) This was a very well-run class. The TA and instructors were very knowledgeable in their realm of instruction and it made the class run very smoothly. Hannah made sure that our needs as students were met and that we had access to everything we needed to be successful in our class.
(Hannah Gauthier) Na
(Hannah Gauthier) I really enjoyed this course!
(Hannah Gauthier) The greatest teacher I will probably ever come across. She was so kind and always willing to help me since I was in the hospital so much. She is an amazing teacher providing good examples and makes the classroom/ lab the best possible learning space.
(Hannah Gauthier) N/A
(Hannah Gauthier) One of my favorite professors this semester!
(Hannah Gauthier) This class was very hands on and informational. Hannah was always more than happy to help you through the dissections and had lots of opportunities for students to study for up coming test during office hours. There wasn't an absurd amount of homework or tests so the class didn't feel rushed at all.
(Hannah Gauthier) I loved this class and Hannah. I looked forward to my lab every Thursday and left feeling like I had just learned something new. I would recommend this course for sure just for fun and think anyone wanting to work with animals should take it.
(Hannah Gauthier) I wish the textbook/ lab manual wasn't so expensive. Especially since we didn't even follow the lab manual for most of the dissections.
(Hannah Gauthier) Professor Gauthier was great. She was always available if I had questions. I enjoyed taking her class.
(Hannah Gauthier) Such an amazing class would recommend to anyone needing it.
(Hannah Gauthier) I enjoyed this course and a lot throughout the semester. I had one issue where there was a miscommunication between me and my professor. I had an excused absence through the school, and I turned my project in late when I got back from the school trip, and she still only gave me half credit on it when the project was very well done. I wish there would've been better communication and she would've compromised in giving me at least a little bit more than half credit because that grade hurt my overall grade significantly.
(Hannah Gauthier) While I did enjoy this class, and have learned a great deal from it, I must confess that the midterm given was one of the most inconvenient, needlessly frustrating, and poorly structured tests that I have ever taken. Clearly, my peers felt similarly given that the class average for that test was a 65%. I just don't understand how on Earth we could have performed so poorly despite hours of studying, instructor lead review, and the provision of unlimited attempts at practice tests! "Everyone does badly on the midterm, the final will be better." doesn't seem like a fair or viable excuse.
(Hannah Gauthier) Overall I really enjoyed this class and the lab along with it. I feel like I learned a lot and it wasn't too much to handle either even with my busy schedule. She does a good job with making study times available and is very helpful in lab
(Hannah Gauthier) She is an excellent instructor!
(Hannah Gauthier) Excellent class and teacher, good online course, and a very valuable learning experience.
(Hannah Gauthier) n/a
(Hannah Gauthier) Hannah and her LAs were so helpful all semester! Even though I struggled at times, they all were patient and helped me so much.
(Hannah Gauthier) I really enjoyed this course. Gauthier was a great lecturer who gave great explanations. She was also super helpful during lab in identifying different structures. The workload was very reasonable.
(Hannah Gauthier) The instructor did very well.
(Hannah Gauthier) Great hands on learning!! Highly recommend Mrs. Gauthier!

(Hannah Gauthier) Hannah is a great instructor and truly showed that she knew what she was teaching. My only "complaint" was the quizzes were posted on Sundays and due Monday night- I wish we could have more time to learn the lecture topics before getting the quiz.
(Hannah Gauthier) well done, good attitude always, made sure we understood what we were looking at
(Hannah Gauthier) The only thing I would change for future students is changing the amount of time being able to take quizzes as it is 10 minutes right now. But other than that I believe this class to be very helpful and I personally learn a lot. The professor that taught this class is very kind, understanding and a amazing teacher.
(Hannah Gauthier) This class worked great with my schedule of 18 credit hours. The schedule was very manageable and allowed me freedom while also giving me deadlines to follow. The course information was very informative and fit my interest to a tee. Because it is part of my major, I was dedicated to the class with my full attention.
(Hannah Gauthier) I loved this class and lab. She's so informative and makes the information easy to remember and understand!
(Hannah Gauthier) Great teacher
(Hannah Gauthier) I enjoyed the hands-on on and being able to learn about each part and then see it in person with real animals.
(Hannah Gauthier) She is a amazing teacher! Very kind and understanding
(Hannah Gauthier) She is a amazing teacher! Very kind and understanding
(Hannah Gauthier) The content was very easy to understand due to the professor's teachings. The professor was very eager to help and very understanding if things didn't make sense.
(Hannah Gauthier) Loved the class the labs were very helpful in learning the material
(Hannah Gauthier) I had fun in the class and i learned a lot
(Hannah Gauthier) I loved this class! It's very intimidating when registering and being warned of the workload, but I really enjoyed both the lecture and the lab. Both Hannah and the LAs made this such a great learning experience for me!
(Hannah Gauthier) She is an amazing professor and she helps her student. She helps out so much in class and she is great.
(Hannah Gauthier) good class
(Hannah Gauthier) Love this class would take it again
(Hannah Gauthier) Hannah was an amazing instructor, extremely intelligent and helpful!
(Hannah Gauthier) This has been my favorite class I have taken in a while. The topics were separated in an orderly manner making the information easily rememberable.
(Hannah Gauthier) I love Ms. Hannah. Anatomy is a hard class, but she makes is enjoyable and engaging. She also is very effective at helping student learn ways to prep for quizzes and tests!
(Hannah Gauthier) Very informative and fun.
(Hannah Gauthier) Hannah is great she was one of my favorite teachers this semester. She was always happy to answer questions no matter how complicated or simple they were. She is also quick to answer emails.
