

## Requirements for Minors/Areas of Concentration in the School of Art 2017-2018

The School of Art offers four minors: art history, studio art, fine arts photography, and transmedia. Declaration of one of these minors must be approved by the School of Art academic advisor prior to completion of minor coursework.

Students working toward any of these minors must complete a minimum of 18-21 semester hours, which must include 9 hours of junior and senior level courses. Hours applied to the minor area of study may not include courses used to fulfill requirements in the student's major. These courses, however, may make the student eligible immediately for upper-division courses throughout the 18-21 hours of the minor. Neither visual studies nor graphic design offers a minor.

Students may transfer up to 9 hours of approved art courses from another institution for credit toward an art minor/concentration, however, 9 hours at the Junior/Senior level must be taken in residence at Texas Tech University.

When a student has elected to complete their minor/concentration in courses offered for majors in the areas of ceramics, metals, sculpture, drawing, painting, or printmaking, they must follow all prerequisites as listed in the university catalog unless otherwise approved by the faculty.
