**ASCAP Meeting Dates.** ASCAP meetings are typically scheduled every month during the academic year. All meetings will begin promptly at 3:00 p.m. in Holden Hall 129.

10 September (completed proposals reaching the Committee by 3 September)  
24 September (completed proposals reaching the Committee by 17 September)  
8 October (completed proposals reaching the Committee by 1 October)  
22 October (completed proposals reaching the Committee by 15 October)  
5 November (completed proposals reaching the Committee by 29 October)  
19 November (completed proposals reaching the Committee by 12 November)  
3 December (completed proposals reaching the Committee by 26 November)  
14 January (completed proposals reaching the Committee by 7 January)  
4 February (completed proposals reaching the Committee by 28 January)  
18 February (completed proposals reaching the Committee by 11 February)  
4 March (completed proposals reaching the Committee by 25 February)  
8 April (completed proposals reaching the Committee by 1 April)  
6 May (completed proposals reaching the Committee by 29 April)

**Submitting Course Proposals for ASCAP Review**

1. Course Proposals for ASCAP review must be submitted electronically through the Curriculog system (https://ttu.curriculog.com/). Curriculog training is coordinated by Kristi.Fonseca-Williams@ttu.edu, 806.834.1774.

2. Proposals in the Curriculog system must reach the Dean’s office at least one week before the scheduled ASCAP meeting. Proposals must be accompanied by a complete syllabus that includes:
   a. Statements of student learning outcomes and assessments.
   b. Academic integrity statement.
   d. A schedule of content coverage for the semester by week.
3. Proposals to change the Delivery Modality of existing courses to be offered at a distance must follow procedures outlined in OP 36.01 (www.depts.ttu.edu/opmanual/OP36.01.pdf) using the appropriate application form.

4. State CIP Codes can be found at: www.txhighereddata.org/Interactive/CIP/

**Course Proposal Information**

1. *A previous course number cannot be used for a period of 10 years except for reinstatement of the same course.* When in doubt about the prior use of a number, old catalogs, the catalog office, or institutional research at TTU can be helpful resources.

2. **Course Numbers.** The first digit of the course number for undergraduate courses is traditionally associated with the academic year in which students normally take the course (i.e., 1=freshman, 2=sophomore, etc.). The first digit is essentially arbitrary for graduate courses, although some units reserve 5 for master’s courses and 6 for doctoral courses.

   The second digit indicates the number of semester credit hours the course generates (e.g., MATH 1351 earns 3 credit hours; MATH 1550 earns 5 credit hours). The third and fourth digits are used for sequencing within the department’s inventory as deemed appropriate by the faculty.

3. **Individual study and research courses** should state hours as in this example: ENGL 4300 Individual Studies in English (3). Courses that provide variable credit per enrollment should list hours as in this example: ENTX 4300 Undergraduate Research in Environmental Toxicology (V1-3).

4. **Activity Type.** A course can only have ONE primary activity type. Select a secondary activity type if appropriate (e.g. non-credit discussion/recitation/lab).

5. **Variable Credit.** Variable credit, usually 1-3 or 1-6, is normally reserved for research, readings, and some special topics courses.

6. **Academic Justification.** Explain, briefly and precisely, why the course is needed. Describe curricular needs, student demand, disciplinary developments, service to other programs, etc. This should be a compelling statement. Simple expressions such as “needed for students” or “an interest of new faculty” are not convincing and will have to be expanded.

7. **Resource Justification.** Part of the committee’s charge is to ensure against a proliferation of courses beyond the ability of the academic unit to offer them. For each proposal to add a new course to your curriculum, please be prepared to address how the particular course and the overall curriculum will be supported by existing faculty and resources (or new faculty and new resources). Please indicate if you are deleting old courses to make
8. **Challenges and Objections.** If a Department Chair wishes to review and subsequently question a proposal submitted by another department, he/she should contact the Chair of the proposing unit. If the question cannot be resolved, the inquiring Chair may present the question in person and/or in writing to ASCAP. Associate Dean David Roach is to be notified of questions, objections, or intentions to challenge.

9. **Cooperative proposals** involving two or more academic units must include a memorandum of understanding to substantiate the cooperative aspects of the course. This memorandum must be co-signed by the appropriate Department Chair and be made part of the original proposal.

10. **General Education Requirements for Arts and Sciences.** Any proposed course changes or revisions to catalog statements that would affect College of Arts and Sciences General Education requirements must be submitted to Associate Dean for Academic Programs (David.Roach@ttu.edu) and approved by the Arts and Sciences General Education Review committee (ASGER).

### Core Curriculum and Multicultural Proposals

Courses proposed to meet the University Core Curriculum or Multicultural Requirements should **first** be submitted by Department Chairs to ASCAP.

1. All Core and Multicultural course proposals must be submitted electronically through the Curriculog system ([https://ttu.curriculog.com/](https://ttu.curriculog.com/) ) and must reach the Dean’s office at least **one week before the scheduled ASCAP meeting**.

3. If Core or Multicultural Course proposals are approved by ASCAP, the A&S Dean’s office will submit them to the Core Curriculum Committee for review. Proposals must come to the Core Curriculum Committee from the office of the Dean of the originating college, with an indication of the Dean’s approval. Proposals not bearing the approval of the Dean’s office will be returned to the college and proposing unit without action.
Certificate, Program, and Distance Program Proposals

- Please check Curriculog for requirements and information regarding development of certificate, program, and distance program proposals. You can also contact Associate Dean David Roach.

ASCAP Meetings

1. ASCAP meetings will convene for 1 hour, with an additional 45-30 minutes reserved for the Committee’s closed session.

2. The agenda for each ASCAP meeting will be distributed via email the week prior to the meeting date. *The Department Chair or a Chair designated faculty member of the proposing unit must represent each proposal at the meeting where the proposal is an agenda item.* Committee will table any proposal for which a faculty representative from the sending unit is not present. ASCAP members cannot serve as department representatives, nor do they vote on recommendations pertaining to courses from their home units.

3. Minutes of each meeting with ASCAP recommendations for proposals will be distributed to Department Chairs via email following the meeting. The Committee Chairperson will process approved proposals for continuance through the system, and will discuss with Department Chairs the issues pertaining to proposals requiring substantial revisions or not approved by ASCAP.

4. *ASCAP will accept no more than 10 proposals at a time from the same unit.* Changes to programs involving more than 10 course proposals should be planned in close consultation with Associate Dean David Roach to optimize timing of proposal submissions.

5. ASCAP approval is a positive recommendation of the proposal to the next level of consideration. Final approval of curricular proposals, if granted, comes from the Provost. *Notifications of final approval for course proposals are sent directly from the Office of the Registrar to Department Chairs.*
