

Safe-Science Session from EHS

Heather Coats
Texas Tech University

Start the semester off on the right foot with a Safe-Science Session from EHS! We will review chemical safety and basic biosafety, waste management procedures, Raider RAMP (our safety management program for inventory and inspections), incident and safety concern reporting and learn about new EHS resources.

Bio:

Heather Coats currently serves as the Training & Outreach Manager for Environmental Health & Safety (EHS). Heather is a Lubbock native and has a B.S. and M.S. in Chemistry. Partly through Heather's experiences as a research assistant, teaching assistant, and teacher trainer, she developed a passion for adult education and promoting a positive safety culture on campus. Since joining EHS in 2017, Heather has expanded the training and communication programs offered by the department and tries to engage all Red Raiders in campus safety.
