

West Texas Association for Women in STEAM,

I would like to extend my sincerest gratitude for awarding me with a WT-AWIS Student Travel Award. This financial support has helped me travel to San Ignacio Lagoon, Mexico to participate in a field research opportunity studying gray whales. I had an incredible time, learned new research methods and was able to connect with various researchers from all over the world.

It is great to have the support of the WT-AWIS for graduate students like myself to be able to be involved in academic and career advancing opportunities like these.

Thank you again,

Kia Hayes
