My Monthly Assessment

What was my biggest challenge this month and how I handled it?

It was a big challenge to adapt to the teaching styles of my professors and to manage my time.

What am I most proud of this month?

I am proud that I made it through my first month of college! I made some friends and got out of my comfort zone.

What lessons did I learn this month?

I learned how to take notes and use my notes to study for my exams. I learned that I cannot cram for exams the night before.

My main goal for next month

My main goal next month is to continue to develop my time management skills and attend more student organization meetings to gain leadership skills.

How my mentor helped me this month?

My mentor helped me manage my time when I was stressed about my first exams. I felt overwhelmed and they helped me understand the more prepared I was the less stressed I would feel about the exam.

What I need from my mentor and the mentor program next month to help me with my goals.

I would like to know what I should be preparing for next. What is the next big thing in the semester that I need to be ready for? I would like my mentor to challenge me to get out of my comfort zone a little more – even if I might not seem like I want to. I am nervous and just need support and encouragement.

Additional information I would like the mentor program to know about my overall experience so far.
