## Emergency Management™

### COVID-19 RESOURCES FOR TEXAS TECH

Dear Texas Tech Community,

With the rise of COVID-19 cases associated with the delta variant, Texas Tech has made the decision to resume dashboard reporting that outlines the number of positive cases among students, faculty, and staff. The dashboard is located on our main COVID-19 page and a link is provided below. In addition to the dashboard, we are providing information on the following resources:

- Testing (on and off-campus options)
- Vaccine Information and Distribution (on and off-campus options)
- Vaccine Incentives Program (for faculty, staff, and students)
- Current campus safety protocols
- Central hub for all COVID-19 communications issued by the University

At the time of this communication, there are a total of 24 faculty and staff members that are in isolation due to a positive COVID-19 diagnosis. If you have not yet been vaccinated, we encourage you do so as quickly as possible.
