Act Local*

TTU Climate Science Center

Video Of The Week

Check out the trailer for the new documentary film [Between Earth and Sky](#). *Between Earth and Sky* explores the effects of climate change on Native Alaskans and all Americans through the lens of arctic soils and ecosystems across Alaska. This film was produced by Dr. David Weindorf and the KTTZ Texas Tech Public Media team (Paul Allen Hunton, Director) and is now playing at film festivals across the U.S. Go like their [Facebook page](#) to keep updated on upcoming screenings and events.
