CSC Weekly News - 03/7/17

CSC Seminars

The [Climate Science Center's](#) seminars resume today, March 7th, at Noon in Experimental Sciences Building room 120. Four expert panelists will be speaking and answering questions about their knowledge on innovation and sustainability in relevance to climate science. This month's panelists are Eric Crouch, Lon Mirll, Robert Forbis, and Carey Hewett. Coffee, cookies, and tea will be provided and feel free to bring your lunch. All faculty, staff, and students are welcome to attend. This month's seminar is sponsored by the TTU Operations Division. [LEARN MORE](#)

Video Of The Week

Check out this simple video that provides an easy way to explain and understand global warming. This video is narrated by Dr. Katharine Hayhoe and is animated by Lazy Chief. This video originally appeared on [Earth's Facebook page](#). Check out other articles and videos on the Climate Science Center's [Planet Experts organization page](#). The CSC features articles related to climate science and videos from their [Videos For Science](#) series. [WATCH NOW](#)
