

TEXAS TECH UNIVERSITY  
Vice President for  
Institutional Diversity™

October 27, 2020

To our Texas Tech Students, Faculty, Staff, Alumni and Community,

As a global community we are often aware of and have community members impacted by global strife and human or social justice events/issues. Some of our TTU community have personal and professional connections to Nigeria as they may call it home or may have family and friends living in Nigeria. We want you to know we stand with you as you may be navigating many emotions: hurt, fear, uncertainty or a host of other emotions. As an international community, we want you to know we are here for you. Our colleagues at the [Office of International Affairs](#) located in the International Cultural Center remain committed to supporting and serving our international Red Raiders. Additional resources and support are available through these offices:

- [Student Affairs](#)
- [Student Counseling Center](#)
- [Risk Intervention and Safety Education \(RISE\)](#)

As a Red Raider community, we know that we are stronger together. As a campus community, we want you to know you never stand alone.

Yours in the work,

Dr. Carol A. Sumner
