

COVID-19 HEALTH AND SAFETY PROTOCOL

By participating in programs or activities hosted by Texas Tech University (TTU) or occurring on TTU owned, controlled, or operated property (TTU Property), you understand there is an inherent risk of contracting COVID-19 that cannot be controlled by TTU. You acknowledge that you are familiar with COVID-19, including background of the virus, how it spreads, and proper personal hygiene. Prior to entering TTU Property or engaging in TTU-hosted programs or activities, you will self-screen for COVID-19 symptoms, including the following:

Fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea.

If you have tested positive for COVID-19 in the last 14 days, you will not enter or remain on TTU Property. TTU-affiliated personnel, at their sole discretion, may further screen you for COVID-19 symptoms.

You agree to follow all recommendations and guidelines related to prevention, treatment, and control of COVID-19, as communicated or posted by TTU or TTU personnel. These recommendations and guidelines include, but are not limited to applicable federal, state, and local authority guidance, such as that provided by the United States Centers for Disease Control and Prevention (“CDC”). You acknowledge that if you do not follow these safeguards, you may not be allowed to continue your presence on TTU Property or participation in TTU-hosted programs or activities.
