
Where do I view an individual student's test attempt?

All graded test attempts can be accessed in the Grade Center.

1. Go to the Full Grade Center.
2. Hover your cursor in the cell for the specific student's test, then click the chevron to the right and select the Attempt you want to view.

The test questions and answers for that test attempt open for you to view. You can also grade, remediate, or return extra feedback in the attempt you are viewing if needed.
