

Feedback in Blackboard: Audio and Video

You can give audio-only or video feedback to your students on assignments, discussions, and exams. Students access the feedback from their My Grades.

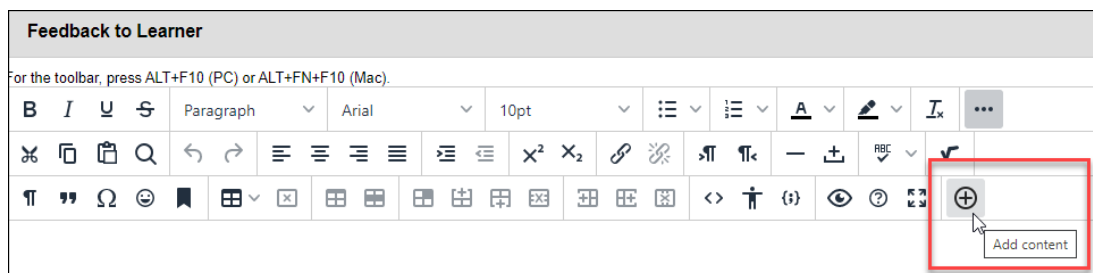

1. **Assignments and Discussions:** On the **Grade Assignment/Discussion** page, grade the assignment/discussion and enter the grade in the **Attempt/Grade** box.

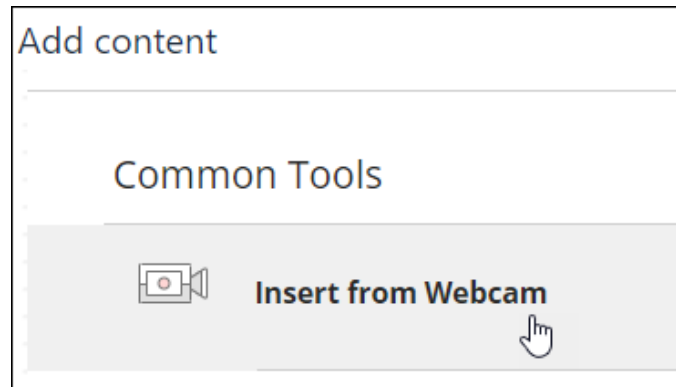

Exams: Access the exam from the Full Grade Center (click the chevron/down-pointing arrow next to the student's exam attempt and select **Attempt**), then scroll down to the **Feedback to Learner** box. Continue with **Step 3**.

2. In the Feedback to Learner box, click the **Add Content** icon (i.e., the **A**).

3. Click the **plus sign**, then select **Insert from Webcam**.

NOTE The first time you open the recording window, click **Allow** to give the browser permission to use audio and video.

4. To create audio-only feedback, click the **Record** button. To create video feedback, select the camera icon to **Enable video**, then click the **Record** button.

5. Record your feedback message.

NOTE Select **Pause** to stop and resume recording your feedback.

6. Click the **Record** button to stop recording.

NOTE Click the **Play** button to listen to your recording. To re-record, click **Delete recording** and return to **Step 4**.

7. Click **Save and exit**.
8. Edit the **Recording Name** if desired (the **Alternative Text** automatically populates with the same name), then click **Insert Recording**.
