ADMISSION TO HONORS COURSES

Honors courses are designed for Honors College members; however, any TTU student with a GPA of 3.0 or better is eligible to enroll in an Honors section as space permits.

For more information, or to request a seat in an Honors section, please contact the Honors College:
McClellan Hall, Room 101 | (806) 742-1828 | honors.advising@ttu.edu

GRADUATION WITH HONORS DESIGNATIONS

Students must complete a minimum of 24 hours in Honors/Honors Enhanced coursework to graduate from Texas Tech University with the transcript designation “with Honors from the Honors College.”

A student who wishes to graduate with the transcript designation “with Highest Honors from the Honors College” must complete an Honors thesis and an additional 6 hours of thesis-specific coursework. Permission from the Honors College is required before beginning the Honors thesis.

Students must ***maintain a TTU GPA of 3.5*** to remain in the Honors College and graduate with either of the above Honors designations. ***A final grade of B- or higher is required in Honors/Honors Enhanced coursework*** in order to apply toward the minimum Honors requirements.

Students intending to [graduate](#) with either designation must file an [Intent to Graduate form](#) with the Honors College one year prior to the graduation date, sending it to honors.graduation@ttu.edu. Honors College designations are listed on the transcript and the diploma. These are in addition to other distinctions graduates may earn, such as Latin Honors (e.g., *Summa cum laude*, *Magna cum laude*, and *Cum laude*).

HOW TO USE THIS BOOKLET

*****Course information, such as days and times, are subject to change.*****

The core curriculum information listed in this booklet reflects the university’s list of core curriculum requirements, effective fall 2014 and following.

If you notice a discrepancy between the contents of this booklet and info reflected on Raiderlink, please note that Raiderlink is updated with greater frequency; thus, it’s likely more up to date. That said, we encourage you to contact the Honors Advising team (at honors.advising@ttu.edu) if you notice any such discrepancy.

March 2025

Honors student:

Registration for Fall 2025 courses is approaching! Along those lines, the Honors advising process will commence soon.

Please see the dates below for information relevant to your classification by hours, earned as of December 2024. We recommend that you log into your [Student Dashboard](#) now and then *again* a few days before your registration date to:

- Look under “Student Information” then “Enrollment Information” to ensure your earned hours are correct.
- Then toggle to the “Details” tab above your picture to select “Registration Information” where you can:
 - Check your “Registration Dates” for Fall 2025.
 - Check your “Holds” for any current or future holds that could affect your registration on your assigned day.
- Email honors.advising@ttu.edu immediately if you do not have a SENIOR or HONORS Time Ticket.

All Honors students can expect to receive email correspondence containing instructions on what actions to take in preparation for advising/registration. Remember to check your Clutter or Junk folders, in case our correspondence is directed there.

Appointment Scheduling Information:

*Honors advising is focused on assisting with the identification of Honors course options and strategizing completion plans for your Honors requirements. Please make arrangements to **connect with your primary major advisor** to discuss your overall degree plan.*

Honors advising appointments will be conducted in-person at McClellan Hall. Not all Honors students are required to meet with an Honors advisor, but all are welcome. If you are part of an Honors population that **is** required to meet with an Honors advisor, or would simply like to connect with an Honors advisor, please use Raider Success Hub (RSH) at success.ttu.edu, to self-schedule an appointment time.

- **Students admitted this Spring 2025 for the Honors VIP Admissions Cohort** are **required to schedule an advising appointment** with Kelsey Kimzey, Beth Scheckel, or Aaron Smith. ****Please make this appointment using the Honors College VIP advising option in RSH.****
- **Honors new current/transfer Honors students** (admitted to the College for a Fall 2025 start) are **required to schedule an advising appointment** with an advisor. An Honors advising hold may be placed until the student schedules an appointment via RSH.
- **Honors students who are not making steady progress towards Honors course requirements** will be contacted and are **required to schedule an advising appointment**. An Honors advising hold may be placed until the student schedules an appointment via RSH.

- **Honors students who are on track to graduate within the next academic year** are strongly encouraged, though not required, to schedule an advising appointment. No Honors advising hold should be placed.
- **Honors students who are pursuing 2+2 pre-health prerequisites and intend to complete Honors requirements on an accelerated path before application to professional schools** are strongly encouraged, though not required, to schedule an advising appointment. No Honors advising hold should be placed. ****Please make this appointment with Kelsey Kimzey using the Honors College 2+2 advising option in RSH.****
- **All other Honors students** are invited to make an appointment to discuss Honors-related advising questions. No Honors advising hold should be placed.

Course Planning and Registration Information:

All university classes for Fall 2025 should be loaded on [Raiderlink](#) approximately March 5th. Honors and HE+ sections offered during the Fall semester will be listed in the Fall 2025 Course booklet which should be available to access [here](#) approximately March 5th. *The Honors course booklet is subject to revision as Honors sections are added, cancelled, or otherwise modified.*

Unless specified as application-based, all Honors courses will be unrestricted to any student with an Honors cohort code. Prerequisites required for specific classes are in place as indicated by the university and the individual teaching departments.

****Exceptions include FYE courses that are only for incoming first-year students as well as sections H01 and H02 of CHEM 1307 which are also only for incoming first-year students.****

Please note that Visual Schedule Builder does NOT pull in Honors/Honors Enhanced course sections accurately. We recommend you use the Plan Ahead Tool in the Add/Drop classes portal or the Section Search Tool—**and definitely in conjunction with the Honors Course Booklet**—to build your schedule manually. Additionally, course options earmarked as Honors Enhanced (HE+) can *only* be identified in the online Honors Course Booklet, so be sure to reference it **frequently**.

You can find a sample degree plan/course sequence for your major in the [TTU Undergraduate Catalog](#) (catalog.ttu.edu) or find course requirements in your DegreeWorks portal.

Always include your R# in any correspondence with a TTU advisor so that we can help you more efficiently.

Waitlists/Full Sections:

The Honors College no longer manages in-house waitlists for any Honors courses with the exception of the limited application-based courses. All other Honors sections will be opened at the time of registration for all students with an Honors cohort code. If a section fills, the student should add themselves to the Raiderlink waitlist for the desired section AND immediately register for an alternate, non-Honors section of the same course OR another alternate course that would be acceptable for degree sequencing. It is imperative to register for an alternate course as soon as possible in the event that the student's name never comes up on the Raiderlink waitlist. *Being on a waitlist does NOT guarantee that a seat will become open to you later.*

If a space opens in a full course and you are the next person on the Raiderlink waitlist, the Raiderlink system should send information and instructions to your TTU email address. You will have a specific window of time to take action in registering for your offered seat, so it is essential that you check your TTU email daily.

Do not contact instructors of full courses for overrides. Raiderlink will track enrollments and notify waitlisted students of available seats in a fair and orderly manner. Advisors are not authorized to override the automated Raiderlink waitlist system even if a professor were to approve you for their course.

Please let us know if questions arise. You are welcome to reach out to an individual Honors advisor or to us at honors.advising@ttu.edu.

We look forward to serving you in your preparations for the Fall 2025 semester, and beyond!

~ **Your Honors Advising Team**

FALL 2025 CONVENTIONAL HONORS COURSE SECTIONS

- Courses with an **orange notation** require a student to submit a separate application to enroll in the course. Course application information can be found in the course's description or at [Honors Course Information](#).

HONS 3301: Reading Travel and Adventure

Instructor: Kurt Caswell | Campus: Lubbock TTU

10461	H01	3000-level SEMINAR	TR	2:00pm-3:20pm	22
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Have you ever made a list of all the places you'd like to go? Do you dream about taking a year out of your routine to travel and see the world? Are you tuned a little differently from everyone else because instead of buying things, you want to spend your money on experiences? Then this course is for you.

Albert Camus wrote in his Notebooks that "what gives value to travel is fear." Apsley Cherry-Garrard asserts that travel is the physical expression of an intellectual passion. And Paul Theroux affirms "travel is glamorous only in retrospect." People travel for different reasons, and so it follows that there are different kinds of travelers. In this reading course focused on travel and adventure, we'll investigate distinctions between travel and tourism, pilgrimage and quest, and wonder at the long history of human migrations and journeys. We'll study the path of the heroic traveler—a physical, psychological and spiritual journey toward self-mastery. Students will explore the archival papers of travel writers in the TTU's Sowell Collection (this will be really awesome). And students will engage in dynamic, heart-felt discussion, as well as write about their own personal journeys.

The Path Chooses Us is an American un-mapping and documentary-style exploration of several sky island ecosystems and histories of far west Texas and southern New Mexico led by Drs. Bryan Giemza and Jerod Foster. Through conceptual pre-production and various forms of both written and visual storytelling, participants in this course will re-envision and document a landscape with layers of human and natural history. Through a series of readings, guest lectures, and transformative field experiences, students will apply new and previously learned writing, photography and video production skills, as well as develop an understanding of natural history and stewardship, technical communication, outdoor education and recreation, and lifestyle. This class is a special learning experience that not only removes students from the traditional classroom and places them in an ultra-intense professional environment, it also establishes a primarily constructivist approach to learning, one that incorporates a discussion- and production-heavy setting for students to simultaneously learn and influence one another.

Due to the nature of the course and its field components, enrollment will be limited to 15 students. An application to enroll is required by 11:59 p.m., May 10, 2025, and can be found here: <https://forms.gle/GjdYu38h2vwDXyEf6>

Special Note: In addition to once-a-week meetings, this immersive program incorporates three field trips (see corresponding dates): an overnight backpacking trip to the White Mountain Wilderness (September 12-14); a camping trip to Davis Mountains State Park (including a visit to the Chihuahuan Desert Research Institute; October 4-6); and a multi-day backpacking trip along the Guadalupe Ridge Trail (October 17-23). Students accepted into this program will receive adequate training and all necessary equipment for these field experiences, including camping and backpacking gear necessary for the backcountry elements of each trip. Students should expect to have physical training for the three trips incorporated into the weekly classes. Across the three trips, students will be expected to backpack or hike approximately 75 miles, the bulk of which will occur during the Guadalupe Ridge Trail backpacking trip in late October.

Please email Jerod Foster (jerod.w.foster@ttu.edu) AND Bryan Giemza (b.giemza@ttu.edu) if you have any questions or would like to request more information about the course before applying.

37440	H01	4000-level SEMINAR	M	5:00pm-7:50pm	22
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

This seminar will explore the complex interplay between philosophy, literature, and cinema in Eastern and Central Europe in the second half of the 20th Century. The WWII, the Holocaust, the Cold War, the existence and then collapse of the Communist regimes were major historical events and developments, yet they were experienced differently on the two sides of the Iron Curtain. We will look closely at how fiction writers, philosophers, and filmmakers from this part of the world made sense of, and responded to, these experiences. We will read literary texts by Milan Kundera, Imre Kertesz, and Arthur Koestler, as well as philosophical essays by Czeslaw Milosz, just as we will watch art-house films from Poland, Czechoslovakia, Romania, Germany, and Russia. This is a highly inter-disciplinary seminar that will expose students to a wide variety of means of expression and different disciplinary cultures. Writing, reading and research intensive.

Since 2008, The Marvel Cinematic Universe Films have been the template for the modern blockbuster. Marvel Studios created a shared universe that includes feature films, network television, and several streaming series. The MCU films have generated over four billion domestically showing just how iconic Marvel characters are. *Avengers Endgame* is one of the top grossing films of all time. Long before Disney bought the company in 2009, Marvel had a long history dating back to the pulp publishing industry of the nineteen thirties when their name was Timely Comics. In the early nineteen sixties, Stan Lee, Jack Kirby, Steve Ditko and others created the Marvel Universe that is so iconic today. This HONS Summit studies the history of Marvel, key artists and writers, Marvel films and television (including Marvel Studios and the Cinematic Universe) and some of the important stories in the Marvel pantheon. As a class, we will discuss why so many of Marvel's 5,000 + characters have become part of our modern-day mythology. Marvel is one of the longest running shared universes in history and this class celebrates that. Students will make their own comic or film using Marvel characters as their final project. This course is **reading intensive**. And contains mature content.

Dangerous ship crossings, unknown and hostile terrain, starvation, bad weather, bandits, and no communication with loved ones for months or years. The nineteenth-century botanists, biologists, and ornithologists were the original Indiana Jones in their quest to discover new plant and animal species. They were courageous and determined, just as were the illustrators traveling with them, who produced some of the most important and often lovely scientific records of the day. In this Honors College seminar experience, we will travel with them, too, as we learn by illustrating plants and birds ourselves, using many of their same techniques. We will paint and draw and yes, go out into the field a time or two, but do not be afraid! You do not have to have prior skill or experience in either to be successful in their course.

This is a course in the application of critical and creative thinking in the exploration of the grand challenges facing humankind. Grand challenges — which include, but aren't limited to, accelerating technologies, climate change, food insecurity, biothreats, economic inequality, and government failure — are both grand and challenging because they're substantially more complex than routine problems and, generally, require collective effort and agreement to resolve. The class will place special emphasis on the role of technologies in the development of the grand challenges and the potential solutions that may derive from emerging technologies. We will explore the scope of the grand challenges across international, national, regional, and local boundaries but place particular emphasis on the "local", or community, where each of us can participate in the collective effort to find solutions.

What can Tolstoy's *Death of Ivan Ilyich*, Heidegger's *Being and Time*, and Kurosawa's *Ikiru* have in common? Quite a lot. They all are fundamentally about the same thing and make largely the same point. Yet in doing so they use different mediums and forms of expression, employ specific techniques, and activate distinct parts of our brain. This seminar explores the fascinating triangle *philosophy-literature-film*, with a focus on the complex process whereby philosophical ideas are translated into film through the mediation of literature. Here are some of the questions we will be asking throughout the semester: What is lost and what is gained when a philosophical idea is translated into a work of literature and then the latter is adapted to screen? Why do we need to do that? Can any philosophical idea be translated and re-translated in this fashion? What is translatability? To answer these questions, we will be watching films by major directors such as Kurosawa, Forman, and Kieslowski, and read great works of literature by Tolstoy, Camus, Hrabal, and others. Research, reading and writing intensive.

Credit-Bearing Independent Research and Honors Thesis Sections

In addition to the above traditional course sections, Honors students may receive Honors course credit for independent research. Options include:

- one semester of such credit through the Undergraduate Research Scholars (URS) program
- a semester-long independent study with a faculty member in Honors or in their discipline, or
- the Honors Thesis (a commitment that spans the final two long semesters of an Honors student's undergraduate degree).

The opportunities are coded in the following manner:

- **HONS 3300** – URS research credit, non-URS research independent study, Thesis 1
- **HONS 4300** – Thesis 2

In all cases, students may not register for these sections on their own as part of their normal course registration process.

- URS students who indicate a desire in their URS application to receive course credit through HONS 3300 will be issued a permit and contacted by the URS Coordinator.
- Students who wish to pursue a research independent study should make an appointment to speak with Associate Dean Robert Peaslee at robert.peaslee@ttu.edu.
- Students who wish to pursue the Honors Thesis must complete an application and should consult with Thesis coordinator Beth Scheckel at beth.scheckel@ttu.edu.

Honors students may complete HONS 3300 a maximum two times, provided that one of those sections is Thesis 1.

**Honors credit for URS and for non-URS research independent study is eligible for application to general Honors hours only—not for upper-level Honors Seminar requirements.*

***Honors credit for Thesis 1 and Thesis 2 is NOT eligible for application to the minimum 24-hour Honors requirement—participation in the Honors Thesis program is additional beyond the overall Honors requirements.*

What is the Honors Thesis? An Honors Thesis is a long-form research project or creative work that conforms to the standards of publication, exhibition, or performance in a chosen field. The Honors thesis program consists of two semester-long research and writing courses: HONS 3300, followed by HONS 4300. Students do not meet in a classroom, but instead work independently, and in concert with a student-selected Faculty Thesis Director (FTD), in consultation with the Associate Dean, who oversees all Honors theses. The FTD must be a full-time Texas Tech University faculty member. With guidance, students work through a series of steps from the development of an argument to a completed thesis. In these two courses, students master the following skills: note-taking, effective outlining, integrating primary and secondary sources, document formatting, utilizing constructive feedback, argumentative and/or creative writing, and revising. The second semester of Honors Thesis (HONS 4300) culminates with Thesis Day, a celebration in which each student gives a brief presentation about their project (spring semester only). Students who successfully complete an Honors Thesis are eligible to graduate from the Honors College with the distinction of Highest Honors.

Prerequisite: To be admitted to the Honors Thesis program, students must be enrolled in the Honors College, be transitioning to the final two semesters of their degree program, and file an application for approval. Thesis courses are not offered during the summer terms.

Application: Honors students seeking an application should contact Beth Scheckel at Beth.Scheckel@ttu.edu. The deadline to complete the application process is the first day of class each fall and spring semester; however, students should begin the inquiry and application process by mid-semester of the term preceding enrollment in Thesis 1.

FALL 2025 HONORS ENHANCED COURSE [**HE+**] SECTIONS

HE+ courses are a great way to earn Honors credit! In HE+ courses, you'll experience an honors enrichment activity with your faculty member and other Honors students, in regular TTU courses. Get ready for many more Honors opportunities to earn Honors credit – in every major – even at the upper division!

If an Honors student enrolls in a designated HE+ section and successfully completes it (earning a grade of B- or better in the class) and successfully completes the non-graded Honors enrichment activity, that student will earn the number of *general* Honors credits associated with the credit assigned to the course. For example: with HIST 2301-001, the Honors student would earn 3 hours of Honors credit.

PLEASE NOTE that HE+ sections, regardless of level, only fulfill general Honors course requirements (and do NOT fulfill the 3000-level and 4000-level seminar requirements).

With designated HE+ sections, there will be a HONS 0001 stand-alone no-credit course associated with it. The student would enroll in the HONS 0001 section associated with the HE+ lecture section in order to be a part of the HE+ initiative.

***** Several HE+ sections will be built and loaded in Raiderlink soon.** The HE+ sections currently built are noted in this booklet in the pages following this one, but there will be more! We expect several more HE+ sections to be added in the coming days– be sure to access updated versions of this booklet for newly added courses. ***

The Honors College will contact all Honors students enrolled in each of the HE+ lecture sections with instructions about adding the HONS 0001 no-credit course to your schedule.
