ADMISSION TO HONORS COURSES

Honors courses are designed for Honors College members; however, any TTU student with a GPA of 3.0 or better is eligible to enroll in an Honors section as space permits.

For more information, or to request a seat in an Honors section, please contact the Honors College:
McClellan Hall, Room 101 | (806) 742-1828 | honors.advising@ttu.edu

GRADUATION WITH HONORS DESIGNATIONS

Students must complete a minimum of 24 hours in Honors/Honors Enhanced coursework to graduate from Texas Tech University with the transcript designation “with Honors from the Honors College.”

A student who wishes to graduate with the transcript designation “with *Highest Honors* from the Honors College” must complete an Honors thesis and an additional 6 hours of thesis-specific coursework. Permission from the Honors College is required before beginning the Honors thesis.

Students must ***maintain a TTU GPA of 3.5*** to remain in the Honors College and graduate with either of the above Honors designations. ***A final grade of B- or higher is required in Honors/Honors Enhanced coursework*** in order to apply toward the minimum Honors requirements.

Students intending to graduate with either designation must file an “Intent to Graduate” form with the Honors College one year prior to the graduation date. Honors College designations are listed on the transcript and the diploma. These are in addition to other distinctions graduates may earn, such as Latin Honors (e.g., *Summa cum laude*, *Magna cum laude*, and *Cum laude*).

HOW TO USE THIS BOOKLET

*****Course information, such as days and times, are subject to change. New courses—especially Honors Enhanced opportunities—are added frequently, often up until the start of term. Check it frequently.*****

If you notice a discrepancy between the contents of this booklet and info reflected on Raiderlink, please note that Raiderlink is updated with greater frequency; thus, it’s likely more up to date. That said, we encourage you to contact the Honors Advising team (at honors.advising@ttu.edu) if you notice any such discrepancy.

March 2026

Honors student:

Registration for Fall 2026 courses is approaching! Along those lines, the Honors advising process will commence soon.

Please see the dates below for information relevant to your classification by hours, earned as of December 2025. We recommend that you log into your [Student Dashboard](#) now and then *again* a few days before your registration date to:

- Look under “Student Information” then “Enrollment Information” to ensure your earned hours are correct.
- Then toggle to the “Details” tab above your picture to select “Registration Information” and:
 - Check your “Registration Dates” for Fall 2026.
 - Check your “Holds” for any current or future holds that could affect your registration on your assigned day.
- Email honors.advising@ttu.edu immediately if you do not have a Time Ticket for 4/16/2026 at 2:00 p.m. (or earlier).

All Honors students can expect to receive email correspondence containing instructions on what actions to take in preparation for advising/registration. Remember to check your Clutter or Junk folders, in case our correspondence is directed there.

Appointment Scheduling Information:

*Honors advising is focused on assisting with the identification of Honors course options and strategizing completion plans for your Honors requirements. Please make arrangements to **connect with your primary major advisor** to discuss your overall degree plan.*

Honors advising appointments will be conducted in-person at McClellan Hall. Not all Honors students are required to meet with an Honors advisor, but **everyone is encouraged**. If you are part of an Honors population that **is** required to meet with an Honors advisor, or would simply like to connect with an Honors advisor, please use Raider Success Hub (RSH) at success.ttu.edu, to self-schedule an appointment time.

- **Students selected this Spring 2026 for the San Francisco Scholars (SFS) Cohort** are **required to schedule an advising appointment** with Michael Lucero. ****Please make this appointment using the Honors College San Francisco Scholar Advising option in RSH.****
- **Honors new current/transfer Honors students** (admitted to the College for a Fall 2026 start) are **required to schedule an advising appointment** with an advisor. An Honors advising hold may be placed until the student schedules an appointment via RSH.
- **Honors students who are not making steady progress towards Honors course requirements** will be contacted and are **required to schedule an advising appointment**. An Honors advising hold may be placed until the student schedules an appointment via RSH.
- **Honors students who are pursuing 2+2 pre-health prerequisites and intend to complete Honors requirements on an accelerated path before application to professional schools** are strongly encouraged to schedule an advising appointment. No Honors advising hold should be placed. ****Please make this appointment with Michael Lucero using the Honors College 2+2 Accelerated Programs option in RSH.****

- **All Honors students** are encouraged to make a connection with an Honors advisor at least once every year! No Honors advising hold should be placed.

Course Planning and Registration Information:

All university classes for Fall 2026 should be loaded on [Raiderlink](#) approximately March 2nd. Honors and HE+ sections offered during the Fall semester will be listed in the Fall 2026 Course booklet which should be available to access [here](#) approximately March 2nd. *The Honors course booklet is subject to revision as Honors sections are added, cancelled, or otherwise modified.*

Unless specified as application-based, all Honors courses will be unrestricted to any student with an Honors cohort code. Prerequisites required for specific classes are in place as indicated by the university and the individual teaching departments.

Exceptions include FYE courses that are only for incoming first-year students as well as sections H01 and H02 of CHEM 1307 which are also only for incoming first-year students.

Please note that Visual Schedule Builder does NOT pull in Honors/Honors Enhanced course sections accurately. We recommend you use the Plan Ahead Tool in the Add/Drop classes portal or the Section Search Tool—**and definitely in conjunction with the Honors Course Booklet**—to build your schedule manually. Additionally, course options earmarked as Honors Enhanced (HE+) can *only* be identified in the online Honors Course Booklet, so be sure to reference it **frequently**.

You can find a sample degree plan/course sequence for your major in the [TTU Undergraduate Catalog](#) (catalog.ttu.edu) or find course requirements in your DegreeWorks portal.

Always include your R# in any correspondence with a TTU advisor so that we can help you more efficiently.

Waitlists/Full Sections:

The Honors College only manages in-house waitlists for our application-based courses. All other Honors sections will be opened at the time of registration for all students with an Honors cohort code. If a section fills, the student should add themselves to the Raiderlink waitlist for the desired section AND immediately register for an alternate, non-Honors section of the same course OR another alternate course that would be acceptable for degree sequencing. It is imperative to register for an alternate course as soon as possible in the event that the student's name never comes up on the Raiderlink waitlist. *Being on a waitlist does NOT guarantee that a seat will become open to you later.*

If a space opens in a full course and you are the next person on the Raiderlink waitlist, the Raiderlink system should send information and instructions to your TTU email address. You will have a specific window of time to take action in registering for your offered seat, so it is essential that you check your TTU email daily.

Do not contact instructors of full courses for overrides. Raiderlink will track enrollments and notify waitlisted students of available seats in a fair and orderly manner. Advisors are not authorized to override the automated Raiderlink waitlist system even if a professor were to approve you for their course.

Please let us know if questions arise. You are welcome to reach out to an individual Honors advisor or to us at honors.advising@ttu.edu.

We look forward to serving you in your preparations for the Fall 2026 semester, and beyond!

~ **Your Honors Advising Team**

FALL 2026 CONVENTIONAL HONORS COURSE SECTIONS

- Courses with an **orange notation** require a student to submit a separate application to enroll in the course. Course application information can be found in the course's description or at [Honors Course Information](#).

HONS 3301: How To Read Shakespeare

Instructor: Kurt Caswell | Campus: Lubbock TTU

10124	H01	3000-level SEMINAR	TR	2:00pm-3:20pm	22
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

If Shakespeare had been born in the 20th century, he would have been a filmmaker, the Christopher Nolan, Sophia Coppola, or George Lucas of our time. Shakespeare's plays are about jealousy and revenge, courage and cowardice, moral behavior, and immoral plotting and scheming, and about how we hate and how we love. Shakespeare's plays are about all of us. In fact, the late, great critic and scholar Harold Bloom has written that that Shakespeare invented us. Before Shakespeare, Bloom asserts, literary characters change mostly because their relationship to God or the gods change. But Shakespeare wrote characters who change because their relationship to themselves change. Shakespeare's characters "reconceive themselves," Bloom writes because they overhear themselves talking. "Self-overhearing is their royal road to individuation." This course explores Shakespeare's tragic plays *Macbeth*, *Othello*, *Hamlet*, *King Lear*; and a romance, *The Tempest*. We'll complement our reading of Shakespeare with ideas from psychology, biology, physics, and religion. We'll read aloud together so that our classroom comes alive with Shakespeare's language, characters, and worlds.

Pandemic Response: Engineering Solutions and Systems Analysis for Global Health Challenges

Instructor: John Carrell | Campus: Lubbock TTU

17287	H01	4000-level SEMINAR	MWF	1:00pm-1:50pm	25
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

This course covers the COVID-19 and other pandemics (including real and fictional) through an interdisciplinary lens with an emphasis on engineering and systems thinking. Students will examine the complexities posed by pandemics as they relate to human health, engineering challenges, and data modeling. Within this context, students will consider the personal and societal impacts of pandemics, the role of technology in pandemic responses, healthcare systems resilience, and supply chain dynamics.

HONS 4302: The Graphic Narrative (The Graphic Novel)

Instructor: Rob Weiner | Campus: Lubbock TTU

17318	H02	4000-level SEMINAR	M	3:00pm-5:50pm	25
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Graphic narratives—often called graphic novels—are now a vital part of contemporary culture. While this storytelling form has roots stretching back over a century (and even earlier in proto-graphic traditions), only in recent decades has it gained widespread critical recognition. Combining art and text, graphic narratives create a unique reading experience that engages both sides of the brain and captures readers' attention in powerful ways. This medium encompasses both fiction and nonfiction, exploring diverse genres such as captivity narratives, social critique, melodrama, superhero tales, and profound reflections on societal issues. In this course, we will examine graphic narratives as a serious artistic and literary form. Special Focus: This section centers on *The Bible* as a graphic narrative. As a foundational text of Western civilization, *The Bible* has inspired graphic adaptations since the 1940s. We will analyze various interpretations and related works, considering *The Bible* as both an epic story and a historical document. Students will have the opportunity to create their own original Biblically related graphic narrative as a final project. Please note this is a reading-intensive course and includes mature content.

CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Dangerous ship crossings, unknown and hostile terrain, starvation, bad weather, bandits, and no communication with loved ones for months or years. The nineteenth-century botanists, biologists, and ornithologists were the original Indiana Jones in their quest to discover new plant and animal species. They were courageous and determined, just as were the illustrators traveling with them, who produced some of the most important and often lovely scientific records of the day. In this Honors College seminar experience, we will travel with them, too, as we learn by illustrating plants and birds ourselves, using many of their same techniques. We will paint and draw and yes, go out into the field a time or two, but do not be afraid! You do not have to have prior skill or experience in either to be successful in their course.

This is a course in the application of critical and creative thinking in the exploration of the grand challenges facing humankind. Grand challenges — which include, but aren't limited to, accelerating technologies, climate change, food insecurity, economic inequality, and divided government — are both grand and challenging because they're substantially more complex than routine problems and, generally, require collective effort and agreement to resolve. The Fall 2026 class will place special emphasis on the role of emerging technologies and their impact on society and individuals – both good and bad.

This course will introduce students to the civilization of India. It will explore the religions, history, and politics of the subcontinent starting from the dawn of the Indus river valley civilization. It will explore Hinduism and the birth of Buddhism, and discuss the Islamic invasion of India as well as the emergence of Sikhism. The course will chart the development of the Mogul empire and the British colonial experience. It will explore the rise of Indian nationalism and how Gandhi through nonviolent civil disobedience was able to bring the British Empire to its knees. We will examine how the British left in 1947, the partition of India and the creation of the two nations, Pakistan and India. We will then explore the wars fought between Pakistan and India and look at the rise of the current ruling power in India.

Credit-Bearing Independent Research and Honors Thesis Sections

In addition to the above traditional course sections, Honors students may receive Honors course credit for independent research. Options include:

- one semester of such credit through the Undergraduate Research Scholars (URS) program
- a semester-long independent study with a faculty member in Honors or in their discipline, or
- the Honors Thesis (a commitment that spans the final two long semesters of an Honors student's undergraduate degree).

The opportunities are coded in the following manner:

- **HONS 3300** – URS research credit, non-URS research independent study, Thesis 1
- **HONS 4300** – Thesis 2

In all cases, students may not register for these sections on their own as part of their normal course registration process.

- URS students who indicate a desire in their URS application to receive course credit through HONS 3300 will be issued a permit and contacted by the URS Coordinator.
- Students who wish to pursue a research independent study should make an appointment to speak with Associate Dean Robert Peaslee at robert.peaslee@ttu.edu.
- Students who wish to pursue the Honors Thesis must complete an application and should consult with Thesis coordinator Beth Scheckel at beth.scheckel@ttu.edu.

Honors students may complete HONS 3300 a maximum two times, provided that one of those sections is Thesis 1.

**Honors credit for URS and for non-URS research independent study is eligible for application to general Honors hours only—not for upper-level Honors Seminar requirements.*

***Honors credit for Thesis 1 and Thesis 2 is NOT eligible for application to the minimum 24-hour Honors requirement—participation in the Honors Thesis program is additional beyond the overall Honors requirements.*

What is the Honors Thesis? An Honors Thesis is a long-form research project or creative work that conforms to the standards of publication, exhibition, or performance in a chosen field. The Honors thesis program consists of two semester-long research and writing courses: HONS 3300, followed by HONS 4300. Students do not meet in a classroom, but instead work independently, and in concert with a student-selected Faculty Thesis Director (FTD), in consultation with the Associate Dean, who oversees all Honors theses. The FTD must be a full-time Texas Tech University faculty member. With guidance, students work through a series of steps from the development of an argument to a completed thesis. In these two courses, students master the following skills: note-taking, effective outlining, integrating primary and secondary sources, document formatting, utilizing constructive feedback, argumentative and/or creative writing, and revising. The second semester of Honors Thesis (HONS 4300) culminates with Thesis Day, a celebration in which each student gives a brief presentation about their project (spring semester only). Students who successfully complete an Honors Thesis are eligible to graduate from the Honors College with the distinction of Highest Honors.

Prerequisite: To be admitted to the Honors Thesis program, students must be enrolled in the Honors College, be transitioning to the final two semesters of their degree program, and file an application for approval. Thesis courses are not offered during the summer terms.

Application: Honors students seeking an application should contact Beth Scheckel at Beth.Scheckel@ttu.edu. The deadline to complete the application process is the first day of class each fall and spring semester; however, students should begin the inquiry and application process by mid-semester of the term preceding enrollment in Thesis 1.

FALL 2026 HONORS ENHANCED COURSE [**HE+**] SECTIONS

HE+ courses are a great way to earn Honors credit! In HE+ courses, you'll experience an honors enrichment activity with your faculty member and other Honors students, in regular TTU courses. Get ready for many more Honors opportunities to earn Honors credit – in every major – even at the upper division!

If an Honors student enrolls in a designated HE+ section and successfully completes it (earning a grade of B- or better in the class) and successfully completes the non-graded Honors enrichment activity, that student will earn the number of *general* Honors credits associated with the credit assigned to the course. For example: with HIST 2301-001, the Honors student would earn 3 hours of Honors credit.

PLEASE NOTE that HE+ sections, regardless of level, only fulfill general Honors course requirements (and do NOT fulfill the 3000-level and 4000-level seminar requirements).

With designated HE+ sections, there will be a HONS 0001 stand-alone no-credit course associated with it. The student would enroll in the HONS 0001 section associated with the HE+ lecture section in order to be a part of the HE+ initiative.

*** Several HE+ sections will be built and loaded in Raiderlink soon. The HE+ sections currently built are noted in this booklet in the pages following this one, but there will be more! We expect several more HE+ sections to be added in the coming days– be sure to access updated versions of this booklet for newly added courses. ***

The Honors College will contact all Honors students enrolled in each of the HE+ lecture sections with instructions about adding the HONS 0001 no-credit course to your schedule.
