Spring 2025

Course Offerings Booklet

This page is left blank intentionally.

ADMISSION TO HONORS COURSES

Honors courses are designed for Honors College members; however, any TTU student with a GPA of 3.0 or better is eligible to enroll in an Honors section as space permits.

For more information, or to request a seat in an Honors section, please contact the Honors College:
McClellan Hall, Room 101 | (806) 742-1828 | honors.advising@ttu.edu

GRADUATION WITH HONORS DESIGNATIONS

Students must complete a minimum of 24 hours in Honors/Honors Enhanced coursework to graduate from Texas Tech University with the transcript designation “with Honors from the Honors College.”

A student who wishes to graduate with the transcript designation “with Highest Honors from the Honors College” must complete an Honors thesis and an additional 6 hours of thesis-specific coursework. Permission from the Honors College is required before beginning the Honors thesis.

Students must maintain a TTU GPA of 3.5 to remain in the Honors College and graduate with either of the above Honors designations.

Students intending to graduate with either designation must file an “Intent to Graduate” form with the Honors College one year prior to the graduation date. Honors College designations are listed on the transcript and the diploma. These are in addition to other distinctions graduates may earn, such as Latin Honors (e.g., *Summa cum laude*, *Magna cum laude*, and *Cum laude*).

HOW TO USE THIS BOOKLET

*****Course information, such as days and times, are subject to change.*****

The core curriculum information listed in this booklet reflects the university’s list of core curriculum requirements, effective fall 2014 and following.

If you notice a discrepancy between the contents of this booklet and info reflected on Raiderlink, please note that Raiderlink is updated with greater frequency; thus, it’s likely more up-to-date. That said, we encourage you to contact the Honors Advising team (at honors.advising@ttu.edu) if you notice any such discrepancy.

October 2024

Honors student:

Registration for Spring 2025 courses is approaching! Along those lines, the Honors advising process will commence soon.

Please see the dates below for information relevant to your classification by hours, earned as of August 2024. We recommend that you log into your Student Dashboard *now* and then *again* a few days before your registration date to:

- Look under “Student Information” then “Enrollment Information” to ensure your earned hours are correct.
- Then toggle to the “Details” tab above your picture to select “Registration Information” where you can:
 - Check your “Registration Dates” for Spring 2025.
 - Check your “Holds” for any current or future holds that could affect your registration on your assigned day.
- Email honors.advising@ttu.edu immediately if you do not have a SENIOR or HONORS Time Ticket.

Classification by earned/completed hours	SPRING/SUMMER 2025 registration opens

all times Central time-zone

All Honors students can expect to receive email correspondence containing instructions on what actions to take in preparation for advising/registration. Remember to check your Clutter or Junk folders, in case our correspondence is directed there.

Appointment Scheduling Information:

*Honors advising is focused on assisting with the identification of Honors course options and strategizing completion plans for your Honors requirements. Please make arrangements to **connect with your primary major advisor** to discuss your overall degree plan.*

Honors advising appointments will be conducted in-person at McClellan Hall. Not all Honors students are required to meet with an Honors advisor, but all are welcome. If you are part of an Honors population that **is** required to meet with an Honors advisor, or would simply like to connect with an Honors advisor, please use Raider Success Hub (RSH) at success.ttu.edu, to self-schedule an appointment time.

- **Students admitted this Fall 2024 for the Honors VIP Admissions Cohort** are ***required to schedule an advising appointment*** with Kourtney Rodriguez. ****Please make this appointment using the Honors College VIP advising option in RSH.****
- **Honors new current/transfer Honors students** (admitted to the College for a Spring 2025 start) are ***required to schedule an advising appointment*** with an advisor. An Honors advising hold may be placed until the student schedules an appointment via RSH.
- **Honors students who are not making steady progress towards Honors course requirements** will be contacted and are ***required to schedule an advising appointment***. An Honors advising hold may be placed until the student schedules an appointment via RSH.
- **Honors students who are on track to graduate within the next academic year** are strongly encouraged, though not required, to schedule an advising appointment. No Honors advising hold should be placed.
- **Honors students who are pursuing 2+2 pre-health prerequisites and intend to complete Honors requirements on an accelerated path before application to professional schools** are strongly encouraged, though not required, to schedule an advising appointment. No Honors advising hold should be placed. ****Please make this appointment with Kourtney Rodriguez using the Honors College 2+2 advising option in RSH.****

- **All other Honors students** are invited to make an appointment to discuss Honors-related advising questions. No Honors advising hold should be placed.

Course Planning and Registration Information:

All university classes for Spring 2025 should be loaded on [Raiderlink](#) the week of October 7th. Honors and HE+ sections offered during the spring semester will be listed in the Spring 2025 Course booklet which should be available to access [here](#) beginning the week of October 7th. *The Honors course booklet is subject to revision as Honors sections are added, cancelled, or otherwise modified.*

Unless specified as application-based, all Honors courses will be unrestricted to any student with an Honors cohort code.

Prerequisites required for specific classes are in place as indicated by the university and the individual teaching departments.

The other exception is that sections H01 and H02 of CHEM 1308 will be restricted initially so that students enrolled in the equivalent sections of CHEM 1307 this Fall 2024 have the first opportunity to enroll. Those restrictions will be removed at a later time to open any remaining seats to other Honors FIRST TIME IN COLLEGE students.

Please note that Visual Schedule Builder does NOT pull in Honors/Honors Enhanced course sections accurately. We recommend you use the Plan Ahead Tool in the Add/Drop classes portal or the Section Search Tool—**and definitely in conjunction with the Honors Course Booklet**—to build your schedule manually. Additionally, course options earmarked as Honors Enhanced (HE+) can *only* be identified in the online Honors Course Booklet, so be sure to reference it **frequently**.

You can find a sample degree plan/course sequence for your major in the [TTU Undergraduate Catalog](#) ([catalog.ttu.edu](#)) or find course requirements in your DegreeWorks portal.

Always include your R# in any correspondence with a TTU advisor so that we can help you more efficiently.

Waitlists/Full Sections:

The Honors College no longer manages in-house waitlists for any Honors courses with the exception of the limited application-based courses. All other Honors sections will be opened at the time of registration for all students with an Honors cohort code. If a section fills, the student should add themselves to the Raiderlink waitlist for the desired section AND immediately register for an alternate, non-Honors section of the same course OR another alternate course that would be acceptable for degree sequencing. It is imperative to register for an alternate course as soon as possible in the event that the student's name never comes up on the Raiderlink waitlist. *Being on a waitlist does NOT guarantee that a seat will become open to you later.*

If a space opens in a full course and you are the next person on the Raiderlink waitlist, the Raiderlink system should send information and instructions to your TTU email address. You will have a specific window of time to take action in registering for your offered seat, so it is essential that you check your TTU email daily.

Do not contact instructors of full courses for overrides. Raiderlink will track enrollments and notify waitlisted students of available seats in a fair and orderly manner. Advisors are not authorized to override the automated Raiderlink waitlist system even if a professor were to approve you for their course.

Please let us know if questions arise. You are welcome to reach out to an individual Honors advisor or to us at honors.advising@ttu.edu.

We look forward to serving you in your preparations for the Spring 2025 semester, and beyond!

~ Your Honors Advising Team

SPRING 2025 CONVENTIONAL HONORS SECTIONS

- Courses with an **orange notation** require a student to submit a separate application to enroll in the course. Course application information can be found in the course's description or at [Honors Course Information](#).
- Courses that have filled are noted with **RED FONT**.

Questions? Email Honors.Advising@ttu.edu. Be sure to include your R# in the email.

Humankind desires it, literature and journalism document and create a sense of it, and multi-million dollar industries promote it: ADVENTURE! This unique course offers you creative, critical, practical, and strategic insight and experience in analyzing and producing media centered around the concept and popularized notion of adventure by placing you in the middle of it! The course's primary learning and application takes place across several Saturdays, over one full weekend, and during an intensive Spring Break outdoor lab while bikepacking and producing documentary and travel media in Big Bend Ranch State Park, a land steeped in the history and culture of the southwest, is geologically and geographically unique, and prime for outdoor active travel and lifestyle. You will engage in various hands-on, creative media storytelling practices that communicate the natural world, a culture that continues to shape it, and an experience that defines modern-day exploration and adventure.

An introductory course for first-year Honors students emphasizing the development of critical thinking and oral and written communications skills through the framework of a visual and performing arts discipline.

No one can teach you to be creative. No one needs to. We are— each and every one of us— creative by virtue of being human. But we can learn to be better at creative work by understanding the creative process. Through readings, group and individual projects, and seminar discussion, you will develop a vision of the creative process, learn to identify blocks to that process, and acquire techniques for getting you unblocked. This course is not just about art but about creative thinking and habits that are applicable to all human endeavors.

HONS 3300: Honors Thesis Course #1

Campus: Lubbock TTU

	H01	Highest Honors only	n/a	n/a	n/a
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

APPLICATION REQUIRED: SEE COURSE DESCRIPTION

Note: This section of HONS 3300 is for students completing an Honors Thesis, not for students involved in URS.

Prerequisite: To be admitted to the Honors thesis program, students must be enrolled in the Honors College, be in the final two semesters of their degree program and file an application for approval. Thesis courses are not offered during the summer terms. Honors students seeking an application will should contact Beth Scheckel at Beth.Scheckel@ttu.edu. The deadline to complete the application process is the first day of class each fall and spring semester. Students should begin the application process by mid-semester of the term preceding enrollment in the first thesis course. Students wanting to apply and enroll in HONS 3300-H01 for this Spring 2024 should contact Beth immediately to begin the application process.

An Honors thesis is a long formal research paper or written creative work that conforms to the journal publishing standards in a chosen field. The Honors thesis program consists of two semester-long research and writing courses, HONS 3300, followed by HONS 4300. Students do not meet in a classroom, but instead work independently, and in concert with a student-selected thesis director, and the HONS 3300/4300 instructor. The thesis director must be a Texas Tech University faculty member. With guidance, students work through a series of steps from the development of an argument to a completed thesis. In these two courses, students master the following skills: note-taking, effective outlining, integrating primary and secondary sources, document formatting, utilizing constructive feedback, argumentative and/or creative writing, and revising. Students who successfully complete an Honors thesis are eligible to will graduate from the Honors College with the distinction of Highest Honors.

Students pursuing an Honors Thesis are encouraged take part in the Undergraduate Writing Center's Honors Thesis Writing Groups. These groups meet once a week for an hour and a half, providing protected and dedicated writing time. Writing in a group provides community, encouragement, and shared experience, all of which can be crucial to successfully finishing the Honors Thesis.

In Spring 2025, Thesis Writing Groups will meet regularly at the following times, starting the 2nd or 3rd week of the semester:

- *Wednesdays: 1:00 PM – 2:30 PM*
- *Thursdays: 10:30 AM – 12:00 PM*

While these groups are optional, after committing to a group, students are expected to attend weekly to maximize the benefits to successfully completing their projects. Both groups are open to students in the first and second semesters of Honors Thesis (HONS 3330 and HONS 4300).

Video-Games, Social-Media, Learning-Platforms, or Commercial Websites are some examples of how the technology of Virtual Reality defines our communication today. This course will focus on the study of human interaction, specifically in Virtual Reality and its impact on us biologically, emotionally, and cognitively. We will approach the diverse forms of visual representations artificial intelligence uses as expressions of profound human activity of discovery and invention. We will proceed with our study with questions such as: What features do virtual worlds have, and how do they impact us? The purpose of the course is to acquire study tools for a better understanding of our current AI-controlled culture.

An in-depth study of major literary works emphasizing the interrelationships of literature and philosophy. May be repeated as the topic varies with permission of the Honors Dean.

If Shakespeare had been born in the 20th century, he would have been a filmmaker, the Christopher Nolan, Sophia Coppola, or George Lucas of our time. Shakespeare's plays are about jealousy and revenge, courage and cowardice, moral behavior, and immoral plotting and scheming, and about how we hate and how we love. Shakespeare's plays are about all of us. In fact, the late, great critic and scholar Harold Bloom has written that that Shakespeare even invented us. Before Shakespeare, Bloom asserts, literary characters change mostly because their relationship to God or the gods change. But Shakespeare wrote characters who change because their relationship to themselves change. Shakespeare's characters "reconceive themselves," Bloom writes because they overhear themselves talking. "Self-overhearing is their royal road to individuation." This course explores Shakespeare's tragic plays *Macbeth*, *Othello*, *Hamlet*, *King Lear*; and a romance, *The Tempest*. We'll complement our reading of Shakespeare with ideas from psychology, biology, and physics. We'll read aloud together, a lot, so that our classroom comes alive with Shakespeare's language and characters and worlds.

69759	H01	4000-lvl Seminar	TR	2:00pm-3:20pm	22
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

This course will explore the history of the Jewish people. It will begin at the earliest stages of human development and chart how mankind moved from a polytheistic world to the gradual emergence of the monotheism. The course will then examine the movement of the Hebrews as they become Israelites and finally the Jewish people. We will then examine the biblical kingdom and the first and second temple periods. The first section of the course will end with a discussion of the destruction of the Temple in 70 CE under the Romans and how the Jews began a life without a homeland. The second part of the course will examine the Jews in two distinct areas. The first examination will be that of the Jews in Christian Europe while the second examination will be that of the Jews in the Islamic world of the Middle East, North Africa and Spain. The third section will chronicle the Jewish people in the modern period as they become, in some places emancipated, and in other places more restricted. The fourth section will take a close look at the Holocaust and the creation of the state of Israel in 1948.

Ever since the publication in 1935 of New Fun Comics the company that would become known as DC was born. Characters like Batman, Superman, Wonder Woman, the Joker, Robin and so many other characters have become part of our popular consciousness and are modern day folklore. This course will examine the history of DC as well as key moments in the DC universe. Through comics, movies, television, toys, and video games DC has branded itself in our culture. We will explore the world of DC and why certain characters continue to rise in popularity. We will look at different media like film and television related to DC in addition to reading important comics that have shaped the DC universe. We will also look at the rivalry between Marvel and DC and how the history of the two companies often became a fierce battle for prominence. We will try to answer the question what do these stories tell us about ourselves? How does sequential art become a form of social history? This course is reading intensive and contains mature content.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

A former student here in the Honors College contacted me not too long ago. She had graduated from TTU with a degree in engineering, and now had a new job at NASA. "Thank you," she said, "for teaching me to write. I'm an engineer, but mostly what I do at NASA is write." If you are on your way to law school, medical school, or other graduate work; or you plan to get a job, most any job, after finishing your undergraduate degree, you are going to need to write well. And the only way to learn to write well is to practice writing. Not to mention, as the American poet Richard Hugo has written, "A creative writing class may be one of the last places you can go where your life still matters."

In Writing Your Story, we will practice writing creative nonfiction about our own lives. Perhaps you love to travel, and now you want to learn how to write about your travels. Perhaps you want to write about a place or a person. Perhaps you want to write about cooking and food. Perhaps you want to write about experiences in nature, your love for the movies, sports, or bears. The choice is yours. We'll learn how to write active scenes with dialogue, personal reflection, and how to incorporate information, all of which add up to learning how to tell a good story.

Dangerous ship crossings, unknown and hostile terrain, starvation, bad weather, bandits, and no communication with loved ones for months or years. The nineteenth-century botanists, biologists, and ornithologists were the original Indiana Jones in their quest to discover new plant and animal species. They were courageous and determined, just as were the illustrators traveling with them, who produced some of the most important and often lovely scientific records of the day. In this Honors College seminar experience, we will travel with them, too, as we learn by illustrating plants and birds ourselves, using many of their same techniques. We will paint and draw and yes, go out into the field a time or two, but do not be afraid! You do not have to have prior skill or experience in either to be successful in their course.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

Did you know that some of the most dangerous exploration in the history was in search of plants? Nineteenth century plant hunters and illustrators braved sea voyages, rides on pack mules, inclement weather, regional wars, bandits, sickness, and even death to bring you that Schlumbergera you gave you mother for Christmas. Take a walk on the wild side and learn the surprising stories behind some familiar plants as we practice the art of botanical illustration. This course is for artists and non-artists alike and is excellent training for Pre-Med and engineering majors because of its focus on scientific accuracy and detailed observation.

Students need not be advanced artists, but some art experience is highly recommended. If you are unsure, please contact the instructor (susan.tomlinson@ttu.edu).

65468	H08	4000-lvl Seminar	R	4:00pm-6:50pm	25
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

The horror genre is consistently one of the most widespread types of storytelling whether in film, literature, sequential art, television, or videogames. Long-ignored writers like H.P. Lovecraft are now in the Library of America series and there is renewed interest in the works of Arthur Machen, Clark Ashton Smith, and Robert W. Chambers. Stephen King is one of the most successful and widely read writers in history. Horror films still make money year after year and television shows like *American Horror Story* are among the most popular. With so much real horror in the world, why do we still love the horror genre? This course takes a multidisciplinary approach to studying horror. It includes examining early cosmic literary horror, novel to film adaptation, horror related music, and how horror is used in sequential art. In addition, we will study the history of forensic science in true crime and try to understand how certain cases were solved or remain unsolved. We will also look at the history of medicine and certain historically associated horrors. This course tries to answer the questions: What purpose does horror serve in our lives and why do we like being scared? Students will have the opportunity to make their own horror film as their final project. This course has mature content. Please note this course is reading intensive.

SPRING 2025 HONORS ENHANCED [**HE+**] COURSES

HE+ courses are a great way to earn Honors credit! In HE+ courses, you'll experience an honors enrichment activity with your faculty member and other Honors students, in regular TTU courses. Get ready for many more Honors opportunities to earn Honors credit– in every major– even at the upper division!

If an Honors student enrolls in a designated HE+ section and successfully completes it (earning a grade of B- or better in the class) and successfully completes the non-graded Honors enrichment activity, that student will earn the number of *general* Honors credits associated with the credit assigned to the course. For example: with HIST 2301-001, the Honors student would earn 3 hours of Honors credit.

PLEASE NOTE that HE+ sections, regardless of level, only fulfill *general* Honors course requirements (and do NOT fulfill the 3000-level and 4000-level seminar requirements).

With designated HE+ sections, there will be a HONS 0001 stand-alone no-credit course associated with it. The student would enroll in the HONS 0001 section associated with the HE+ lecture section in order to be a part of the HE+ initiative.

Several more HE+ sections will be built and loaded into Raiderlink soon. The HE+ sections currently built are noted in this booklet in the pages following this one, *but there will be more!* We expect several more HE+ sections to be added in the coming days– be sure to access updated versions of this booklet for newly added courses.

The Honors College will contact all Honors students enrolled in each of the HE+ lecture sections with instructions about adding the HONS 0001 no-credit course to your schedule.

SPANISH FOUNDATIONS

Service Learning Program x Honors College

Join the HE+ sections of our Spanish Foundations courses (SPAN 1507, SPAN 2301, SPAN 2302) for a hands-on experience in learning Spanish. Earn Honors credit while completing language courses, and enhance your education through a Service-Learning project in the Lubbock community.

What do we do?

This program enhances Spanish skills through Service-Learning and community engagement with level-appropriate, low-stakes service opportunities.

- SPAN 1507: Tutors elementary students for the Spanish Spelling Bee, practicing the Spanish alphabet.
- SPAN 2301: Provides literacy tutoring at McWhorter Elementary, improving Spanish reading fluency for students and English fluency for parents.
- SPAN 2302: Leads a Spanish Club at Westwind Elementary, creating lessons and activities for kids to practice Spanish.

Benefits of the HE+ section include:

For TTU Honors students:

- Practice Spanish in real-time
- Experience Spanish in the community
- Volunteer opportunities
- Improve Spanish skills:
- Enhance soft skills:

For community partners:

- Classroom support
- Connections to Texas Tech University
- College students engaging with elementary kids
- Extra opportunities for language practice in the community.

What TTU students are saying!

I loved this service-learning project. it taught me to be more confident when speaking in Spanish. - Navya

Something I took away from this service-learning project is the importance of integrating Spanish into your day-to-day life in order to promote fluency. - Ella

I would love to continue to volunteer in this type of service learning if I am given the chance to in the future. It is also a wonderful way to receive Honors credit. - Megan

Are alternative options available?

Yes, there are alternative options for students who cannot finish the Service Project due to scheduling conflicts, distance learning, or other reasons. These alternatives must be reviewed and discussed with the student's HE+ instructor. Typically, alternative projects may include the following:

- SPAN 1507: Research project and final presentation
- SPAN 2301: Product creation
- SPAN 2302: Self-guided service
