Upon completion of payment, students will then start the room selection process. University Student Housing allows students the opportunity to select a specific residence hall, floor, and even bedspace in the room as available.

On the left column of the screen, students will see all the halls that have available spaces open to choose from. Click the hall of your choice and select a floor. Once you have selected a floor, a list of rooms will appear on the right side of the screen. If only one space (a or b) is available, that means one of the spaces has already been reserved by another student.
