

OLE! TEXAS

OUTDOOR LEARNING ENVIRONMENT

Church Women United Child Care Center
 Baytown, TX

Church Women United Childcare Center Baytown Texas provides income-based child-care to assist low income families and Lee College students with their child-care needs. They have the ability to serve up to 161 infant, toddler, pre-kindergarten, and school age kids. The OLE!

Texas Design Workshop was sponsored and supported by the Harris County Department of Public Health's Healthy Living Matters program. The existing outdoor space is dominated by a large play structure and a raised woodchip fall zone area. The large existing trees provide

a considerable amount of shade to the play structure and other parts of the space. The TTU Coalition for Natural Learning facilitated the workshop to develop a plan that included a looping pathway around the existing play structure with natural elements along the pathway.
