

Kids Kingdom Childcare Center
Lubbock, TX

Kid's Kingdom is located on the grounds of St Matthew United Methodist with a capacity for 161 infant, toddler, pre-kindergarten, school age kids. Their goal is to stimulate each child's curiosity, creativity, and awareness for self and others while developing them spiritually. The

existing playground is located at the rear of the church and is too small to meet their current needs. They want to relocate the outdoor learning environment to the front of the church property where there was a playground originally. The location also allows for two of the

classrooms to have direct access to outdoor space by replacing existing windows with doorways. The TTU Coalition for Natural Learning facilitated the workshop and developed a plan that provided transition areas for the new classroom access points.
