

OLE! TEXAS

OUTDOOR LEARNING ENVIRONMENT

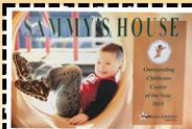

Sammy's House
Austin, TX

One of the most inspirational projects the TTU Coalition for Natural Learning has had the pleasure of working with is Sammy's House, a nonprofit organization located in Austin, Texas. They provide services for children with and without special needs

from 0-16 years old in their child development center, a respite care program, summer camp, and family support services. The TTU Coalition for Natural Learning facilitated a design workshop that paid special attention to inclusive design elements,

including accessibility as well as sensory considerations. The proposed master plan incorporates natural elements woven throughout the existing manufactured equipment to provide opportunities for exploration and growth.
