**Graduate Student Signature:**

**Date:**

**Faculty Signature:**

**Date:**

HDFS 7000 is intended to be an intensive research project, conducted under the supervision of the student's advisor. The research may involve collection of data or analysis of an existing data set. The end product must be a manuscript or presentation based on the research project that is presented at a regional or national conference with the prior approval of the advisor. The 7000 project must be completed in a maximum of two (2) semesters (6 credits). At the beginning of each semester during the completion of the 7000 project, the student must meet with the advisor and fill out the 7000 Project Contract and submit it to the Graduate Program Coordinator.
