Thesis Defense Checklist Scientific Knowledge, Theoretical and Methodological Knowledge, Professionalism, and Ethical Standards

Human Development and Family Sciences Texas Tech University

Student's Name	Year in Program	Semester/Year	
Project Title:			
*A NO on any of these items will result in no	ot meeting expected level of competency for		
Project Scope		Yes	No
Student has identified an area of study that development and family sciences and in with made*			
Scope of student's research study is appro	opriate for a thesis-level project*		
Literature Review Student provides a concise, well organized in the Introduction section*	d, and integrated review of relevant literatu	re	
Student adequately evaluates existing liter	rature		
Student addresses strengths and limitation	ns of existing literature		
Student makes a clear argument for need	to conduct research on proposed topic*		
Purpose of Study The purpose of the study is clearly stated*			
Research questions are appropriate and o	learly articulated Hypotheses are		
appropriate and clearly articulated (if appli	icable)		
Supporting literature is provided for hypoth	neses		
Student is able to clearly identify different	types of variables		
(independent, dependent, mediators, mod	erators) (if applicable)		
Research Design/Methods Research design is appropriate to address	s hypotheses*/research questions		
Student demonstrates evidence that, when power analysis to estimate sample size	n possible or relevant, they conducted a		
Number of participants is appropriate for s	tudy		
Measures/Interview Questions included in valid measures of target constructs)	study are appropriate for study (i.e.,		
Description of measures/Interview Questic (e.g., dimensional/factorial structure; relevant			
Student recognizes limitations of proposed	thesis research project		

Last Update: 11-15-24

Data collection procedures are in accordance with TTU's IRB guidelines* Data collection procedures are in accordance with APA's Ethical Principles and Code of Conduct* Data Analysis Student identifies, provides rationale, and adequately describes statistical procedures/ analytical techniques chosen to analyze data* Student states and tests most important assumptions of statistical tests (if applicable) Document Student adheres to guidelines set forth by the APA Publication Manual (7th edition) Document is well organized, written in a clear, concise, and grammatically correct manner* Communication of Findings Student clearly communicates general findings of study Student develops tables and figures to summarize and communicate results Student places own research in context of existing research Student identifies limitations of study* Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked "Yes" to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal. No, student does not meet expected level of competency for the proposal.
Data Analysis Student identifies, provides rationale, and adequately describes statistical procedures/ analytical techniques chosen to analyze data* Student states and tests most important assumptions of statistical tests (if applicable) Document Student adheres to guidelines set forth by the APA Publication Manual (7th edition) Document is well organized, written in a clear, concise, and grammatically correct manner* Communication of Findings Student clearly communicates general findings of study Student develops tables and figures to summarize and communicate results Student places own research in context of existing research Student identifies limitations of study* Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.

Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Student develops tables and figures to summarize and communicate results Student places own research in context of existing research Student identifies limitations of study* Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Student places own research in context of existing research Student identifies limitations of study* Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Professionalism Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
Student demonstrates mastery of relevant literature, research study, and is able to adequately answer questions in a thoughtful and scholarly manner Student conducted themselves in a professional manner* A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
A minimum of 26 out of 30 (87%) categories need to be marked 'Yes' to have the thesis proposal approved. Items designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
designated with a * must be marked YES in order to meet expected level of competency. Yes, student meets or exceeds expected level of competency for the thesis proposal.
No. student does not meet expected level of competency for the proposal
No, classification of the control of competency for the proposal.
