BSMP@TTU
BRAZIL SCIENTIFIC MOBILITY PROGRAM

The Brazil Scientific Mobility Program (BSMP) is a shared effort sponsored by both the Brazilian Ministry of Education (MEC) and the Ministry of Science, Technology and Innovation (MCTI), and is managed in the U.S. by the Institute of International Education (IIE) and Latin American Scholarship Program of American Universities (LASPAU). BSMP is designed to ensure that Brazilian students and researchers obtain qualifications and training at the world’s best universities on a scale compatible with the challenges of the country. Texas Tech University is designated as a host U.S. university for this ambitious major initiative sponsored by the Brazilian government.

PROGRAM AREAS: Science, Technology, Engineering, and Mathematics (check the complete list for eligible STEM areas).

Undergraduate Visiting Students: Fellowships for Brazilian undergraduate students to study on a non-degree basis. 12-18 months. For additional information, visit http://www.cienciasemfronteiras.gov.br/web/csf/graduacao (Portuguese).

Professional Masters: Fellowships for Brazilians with bachelor’s degree. 12-24 months. For additional information, visit: http://www.cienciasemfronteiras.gov.br/web/csf/mestrado-profissional (Portuguese).

PhD Sandwich: Fellowships for students formally enrolled in a PhD program in Brazil for collection and/or processing of data or partial development of the experimental part of his/her thesis. 12-18 months. For additional information, visit: http://www.cienciasemfronteiras.gov.br/web/csf/doutorado-sanduiche (Portuguese).

Full PhD: Fellowships for the entire duration of a Ph.D. program. Up to 4 years. For additional information, visit: http://www.cienciasemfronteiras.gov.br/web/csf/doutorado-pleno (Portuguese).

Post-doc: Fellowships Brazilian researchers to update their knowledge through a development of innovative research project. 6 months-2 years. For additional information, visit: http://www.cienciasemfronteiras.gov.br/web/csf/pos-doutorado (Portuguese).

Visiting Researcher: Fellowships to renowned scientists and leaders of research groups from the U.S. to Brazil. 3 years. For additional information, visit: http://www.cienciasemfronteiras.gov.br/web/csf-eng/opportunities-for-individuals-from-abroad (English).

SPONSORING BRAZILIAN GOVERNMENT AGENCIES

CNPq: NATIONAL COUNCIL FOR SCIENTIFIC AND TECHNOLOGICAL DEVELOPMENT (http://www.cnpq.br/)

CAPES: THE BRAZILIAN FEDERAL AGENCY FOR SUPPORT AND EVALUATION OF GRADUATE EDUCATION (http://www.capes.gov.br/)
