## VETS & CADETS

As veterans and ROTC cadets, you have demonstrated your commitment to representing the United States at home and overseas. As students, you may use educational benefits to study abroad and see the world in a different way.

### THINGS TO CONSIDER

- Veterans receiving the Post-9/11 or Montgomery GI Bill® may use their benefits to help cover the cost of studying abroad.
- ROTC cadets are encouraged to study abroad as a General Military Cadet (GMC) during the summer term after two semesters on campus (between freshman and sophomore years).
- GMCs whose academic program requires study abroad may get approval for a semester-long program.
- Learn a critical language, increase your understanding of foreign cultures, and expand your leadership skills for a future career with the government or intelligence community.
- Work closely with your TTU Study Abroad Advisor and the TTU Military & Veterans Program office to find a program that fits the VA requirements and your personal goals.
- Talk with fellow veterans and ROTC cadets who already studied abroad.

*"My time abroad was extremely rewarding. I'm very grateful for the experience I gained overseas, and I still stay in contact with the people I met. There are so many opportunities for Tech students to travel and earn credit! I highly recommend visiting both the Study Abroad and MVP offices to find out all that is available to you."*
